CHOOSE THE DOC FOR YOU AT EVERY TURN.

Over 500 top docs and specialists in Atlanta.
Quality care with you at the center

Our physician-led care teams work together to keep you healthy by delivering high-quality, personalized care.

Great care from great doctors

Our doctors come from top medical schools, and many of them teach at world-renowned universities. No matter which personal doctor you choose, you’ll be in highly skilled, experienced hands – and your health is their chief concern.

Choosing a doctor – your partner in health

We make it easy to find the doctor who’s right for you – and you’re free to change doctors at any time, for any reason. Having a good relationship is important because your personal doctor is your biggest health advocate. Your physician will coordinate your care journey, and you’ll work closely together to make decisions about your health.

Better care with a connected team

Your doctor, nurses, and other specialists all work together to keep you healthy. They’re connected to each other, and to you, through your electronic health record. So they know important things about you and your health – like when you’re due for a screening and what medications you’re taking. That way, you get personalized care that’s right for you.

Personalized care for all members

Care at Kaiser Permanente isn’t one-size-fits-all. We believe your story, background, and values are as important as your health history. To deliver care that’s sensitive to all cultures, ethnicities, and lifestyles, we:

- Strive to hire doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Train our care teams on how to connect with and care for people of all backgrounds

Through our culturally responsive care programs, we’ve improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer.*

*Kaiser Permanente improved blood pressure control in our Black/African American members, raised colon cancer screening rates in our Hispanic/Latino members, and improved blood sugar control in our members with diabetes. Self-reported race and ethnicity data are captured in KP HealthConnect, and HEDIS® measures are updated quarterly in the interregional CORE Datamart.
WE'RE ALL ABOUT THE BIG PICTURE
Mom-centered maternity care every step of the way.
Great care, great results

From preventive screenings that keep you healthy to world-class care if you get sick, we’ve got you covered.

Preventive care to keep you healthy

Preventive care is key to how we practice medicine at Kaiser Permanente. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role — your preventive care services are tracked in the system, which triggers automatic reminders when you’re due for your next screening. We’ll let you know when to come in so you’re free to focus on living your life.

Support for ongoing conditions

If you have a condition like diabetes or heart disease, you’re automatically enrolled in a disease management program for personal coaching and support. With a well-rounded approach backed by proven best practices and advanced technology, we’ll help you get the care you need to continue living life to the fullest.

Specialty care when you need it

Preventive care can help keep you healthy, but we’re also here for you if you get sick or need specialty care. In fact, you’ll get great care from Kaiser Permanente experts in more than 40 specialties – most without a referral. And if needed, you’ll have access to certain affiliated specialists too.

From high-quality maternity care to treatment for cancer, heart problems, and more, you get great doctors, the latest technology, and evidence-based care – all combined to help you recover quickly.

A leader in clinical quality

In 2016, Kaiser Permanente led the nation in 21 effectiveness-of-care measures, including prevention and screening, cardiovascular care, and comprehensive diabetes care.*
