Cobb County Department of Transportation

FACT SHEET

NICKAJACK ELEMENTARY SCHOOL

Traffic Pattern Change

The Cobb County Department of Transportation and Cobb County School District are committed to the safe and efficient movement of traffic and pedestrians within Cobb County School zones. To improve traffic safety and operation at Nickajack Elementary School, both agencies have cooperated to create additional on-site queuing for student drop-offs and pick-ups.

Beginning August 1, 2019, with the return of students from summer break, the drop-off/pick-up area will be relocated to the front of the school. The existing double-stacking area at the back of the school will be expanded, and a second double-stacking area will be added at the front of the school. Additional curbing will reinforce the new traffic pattern. Motorists will alternate turns merging at the double-stacking endpoints. These changes will alleviate current traffic backups onto Mavell Road and Cooper Lake Road. New signs, pavement markings, and other traffic control devices will be placed to guide motorists.

See reverse for map.
