New Macland Road - ROAD CLOSURE

New Macland Road is closed to through traffic until Sunday, July 26, 2020 between Macedonia Road and Macland Road.

Gaydon Road is closed to through traffic until Sunday, July 26, 2020 between Old Lost Mountain Road and New Macland Road.

This project includes roadway safety and traffic operational improvements on New Macland Road, beginning at Arapaho Drive and ending at Macland Road. Improvements will include construction of turn lanes and sidewalks. Also included are drainage improvements, which consist of the replacement of two culverts. Project limits encompass McEachern High School frontage on New Macland Road. This project is scheduled to be complete Summer 2021.

Acworth Due West Road at Jim Owens/Mars Hill Church Roads and Jim Owens Road (Lewis Elementary School)

This project consists of the construction of a roundabout at the intersection of Acworth Due West Road and Jim Owens Road/Mars Hill Church Road. Also included is the installation of sidewalks, as well as construction of a deceleration lane and driveway improvements at Lewis Elementary School.

Construction of the new roundabout may require closure of Mars Hill Church Road at its intersection with Acworth Due West Road. If necessary, the closure is anticipated in Summer 2020. The exact dates for the closure will be provided by Cobb DOT when determined along with the detour routing.

Once intersection traffic is shifted to the new roundabout traffic configuration, Mars Hill Church Road at Acworth Due West Road will reopen and final project construction activities will continue. This project is scheduled to be complete in the spring of 2021.

Cherokee Street Improvements

This project consists of safety and operational improvements between Jiles Road and I-75 including addition of a third travel lane on Cherokee Street in the eastbound direction, the addition of a right turn lane at the intersection of Shiloh Road, and access improvements within the project limits. This project is scheduled to be completed Summer 2021.
Gordon Combs Road

This project consists of constructing a five-foot wide sidewalk with curb and gutter on the east side of Gordon Combs Road, from Burnt Hickory Road to Madison Grove Lane. This project is scheduled to be completed late Summer 2020.

Lost Mountain Road at Midway Road/Mirror Lake Drive

This project consists of the realignment of the intersection of Lost Mountain Road and Midway Road to create a four-way signalized intersection with Lost Mountain Road and Mirror Lake Drive. Additional turn lanes will be added to support the increase in turning movements. This project is scheduled to be completed December 2020.

Old Hwy 41 Bridge over CSX Railroad

This project consists of a complete bridge replacement of the existing bridge located on Old 41 Highway over the CSX Railroad, near the intersection of Bells Ferry Road. This project is scheduled to be completed in summer 2021.

Westside Drive

This project is substantially complete with the exception of the new traffic signal and related work on South Cobb Drive. CCDOT is coordinating with GDOT on revisions to the traffic signal as well as revisions to the entrance to Hellbender Harley-Davidson. Completion is on hold pending approval of re-design and issuance of encroachment permit by GDOT.

The project constructed a roundabout at the intersection of Westside Drive and Sandtown Road, to include a new two-lane roadway with curb and gutter and sidewalk extending to South Cobb Drive. At the intersection of Westside Drive and South Cobb Drive, the Westside Drive approach will include dual left turn lanes and a right turn lane. The existing traffic signal at Beech Road and South Cobb Drive will be removed, and a new traffic signal will be installed at South Cobb Drive and Westside Drive.
Upcoming Projects

Road Resurfacing Beginning Mid August

**NIGHTTIME** Resurfacing Operations are scheduled to begin mid August. Expect lane closures between 7 p.m. and 5 a.m. with one lane remaining open at all times on the following road(s): **EXPECT DELAYS Mars Hill Road** from Dallas Highway to Burnt Hickory Road**

** The above scheduled work is subject to change due to weather or construction progress.

GDOT Projects

GDOT Bridge Repair Projects (I-75 Corridor)

This GDOT project consists of cleaning and painting the steel superstructure on nine (9) bridges, and joint replacement and application of a two-part polymer bridge deck overlay of eight (8) of the bridges in Cobb County. The location of the bridges include Allgood Road over I-75, Canton Road over I-75, Delk Road over I-75, I-75 over Bells Ferry Road, I-75 over Banberry Road, I-75 over Dickson Road, I-75 over Noonday Creek, South Marietta Parkway over I-75, and Wade Green Road over I-75. This project will include shoulder closures on I-75 and lane closures from 9:00 pm to 5:00 am. All interstate ramps will remain open. This project is scheduled to be completed Summer 2021.

Macland Road Widening and Reconstruction

This GDOT project will widen SR 360/Macland Road between SR 120/Charles Hardy Parkway and SR 176/Lost Mountain Road SW from the existing two lanes to four lanes with a center grassed median and add dedicated turn lanes at key intersections with 5-foot sidewalks on both sides of this east-west corridor. This work will require lane closures to ensure the safety of drivers and workers. Motorists can expect daytime and nighttime lane closures Monday through Friday between 9 a.m. and 4 p.m. and 9 p.m. and 5 a.m. In addition, contractors will work daytime and nighttime hours during the weekend. This project is scheduled to be completed November 2023.
Cobb County has launched this easy-to-use web tool to help users navigate traffic. Available on both desktop and mobile devices, [www.cobbcommute.org](http://www.cobbcommute.org) shows users color-coded traffic speeds on major roads and highways and offers a look at LIVE traffic camera feeds around the county. Users have access to construction updates for major construction projects and can use filters to focus on a construction area of interest. The information comes directly from Cobb County's Department of Transportation's Transportation Management Center. Give it a try!

See a gnarly pothole? Backed up storm drain? Busted sidewalk? Since 2013, CCDOT's smart phone and web app, YourGOV, has enabled citizens to put their work order request in and track it along the way! Earlier this year, YourGOV received a more user-friendly mapping upgrade! NOTE: ALL users must register to login, including prior users. Simply use the same email connected to your old account to see your request history in the new system. To use YourGOV, go to [www.cobbdot.org](http://www.cobbdot.org) and click on WORK REQUEST.
District 2 Construction Projects
July 18 – July 24, 2020

*Click on project name for updated lane closure and traffic information.*

**Woodland Brook Drive** Significant Traffic Advisory

The road closure on Woodland Brook Drive will be extended through July 26th, 2020. This is due to delays in utility relocations and due to heavy rains that have impacted construction activities. The contractor is endeavoring to make up the lost time. As the schedule changes we will keep the public informed.

This project consists of replacing the existing two-lane bridge on Woodland Brook Drive over Gilmore Creek with a double 10’x11’ reinforced concrete box culvert. This project is scheduled to be completed in September 2020.

**Powers Ferry Drive over Rottenwood Creek Tributary Bridge Replacement**

This project consists of replacing the existing bridge over Rottenwood Creek with a triple 8-foot by 8-foot culvert. This project is scheduled to be completed Fall 2020.

**Windy Hill Road/Terrell Mill Road Connector**

This project consists of construction of a new roadway between Windy Hill Road and Terrell Mill Road. The project will begin at the intersection of Windy Hill Road and Spectrum Circle, and continue north to the intersection of Terrell Mill Road and Bentley Road. This will be a new four-lane road with a raised center median, and will include sidewalk and a multi-use trail. This project is scheduled to be completed Fall 2022.

**Road Resurfacing**

**DAYTIME** Resurfacing Operations – are scheduled **Monday through Friday, Weather Permitting.** Expect lane closures between 9 a.m. and 4 p.m. with one lane remaining open at all times on the following road(s): **EXPECT DELAYS**

- **Maner Road** from South Cobb Drive to Plant Atkinson Road**
- **Powers Ferry Road** from Windy Hill Road to Akers Mill Road**

**NIGHTTIME** Resurfacing Operations – are scheduled **Sunday through Friday, Weather Permitting.** Expect lane closures between 7 p.m. and 5 a.m. with one lane remaining open at all times on the following road(s): **EXPECT DELAYS**

- **Powers Ferry Road** from Windy Hill Road to Akers Mill Road**

**The above scheduled work is subject to change due to weather or construction progress.**
CITY OF SMYRNA PROJECTS

Windy Hill Road from South Cobb Drive to Atlanta Road

This joint project with the City of Smyrna consists of the reconstruction of the existing 5-lane roadway between South Cobb Drive and Atlanta Road with a boulevard section consisting of 4 express lanes, frontage roads, bicycle lanes, and pedestrian paths. This project is scheduled to be completed in Summer 2023.

GDOT PROJECTS

GDOT Bridge Repair Projects (I-75 Corridor)

This GDOT project consists of cleaning and painting the steel superstructure on nine (9) bridges, and joint replacement and application of a two-part polymer bridge deck overlay of eight (8) of the bridges in Cobb County. The location of the bridges include Allgood Road over I-75, Canton Road over I-75, Delk Road over I-75, I-75 over Bells Ferry Road, I-75 over Banberry Road, I-75 over Dickson Road, I-75 over Noonday Creek, South Marietta Parkway over I-75, and Wade Green Road over I-75. This project will include shoulder closures on I-75 and lane closures from 9:00 pm to 5:00 am. All interstate ramps will remain open. This project is scheduled to be completed Summer 2021.

GDOT I-285 Slab Repair from Fulton County to Paces Ferry Road

This GDOT project consists rehabilitation of concrete pavement on I-285 between the Fulton County line and Paces Ferry Road. Expect lane closure from 10:00 p.m. to 5:00 a.m. This project is scheduled to be completed October 2020.

District 3 Construction Projects
July 18 – July 24, 2020

Click on project name for updated lane closure and traffic information.

Blackwell Road at Autumn Ridge Parkway

This project is Substantially Complete. This project consisted of improving sight distance and removing the existing four-way stop at the intersection of Blackwell Road and Autumn Ridge Parkway, creating a two-way stop. Additional improvements included construction of left turn lanes in both directions on Blackwell Road to Autumn Ridge Parkway, and also included the addition of curb and gutter, with a five-foot wide sidewalk.

Cherokee Street Improvements

This project consists of safety and operational improvements between Jiles Road and I-75 including addition of a third travel lane on Cherokee Street in the eastbound direction, the addition of a right turn lane at the intersection of Shiloh Road, and access improvements within the project limits. This project is scheduled to be completed Summer 2021.

Ebenezer Road Sidewalk

This project consists of adding curb and gutter with a five-foot wide sidewalk on the east side of Ebenezer Road, from Hampton Oaks Bend to Maybreeze Road. In addition, curb and gutter with a five-foot wide sidewalk will also be installed on the south side of Maybreeze Road, between Ebenezer Road and Corye Lane, to close gaps and connect missing segments with existing sidewalk. This project is scheduled to be completed Summer 2021.

McCollum Parkway at Ben King Road/Big Shanty Road

The project consists of construction of a roundabout at the intersection of McCollum Parkway at Ben King Road, with the addition of turn lanes and road realignment of Lockhart Drive and McCollum Parkway. Also included is the installation of sidewalk along the north side of Big Shanty Road, from McCollum Parkway to Chastain Road, and the construction of a multi-use trail along the west side of McCollum Parkway, from Ben King Road to Olympic Lane. This project is scheduled to be completed in Fall 2021.
Old Hwy 41 Bridge over CSX Railroad

This project consists of a complete bridge replacement of the existing bridge located on Old 41 Highway over the CSX Railroad, near the intersection of Bells Ferry Road. This project is scheduled to be completed in summer 2021.

Westside Drive

This project is substantially complete with the exception of the new traffic signal and related work on South Cobb Drive. CCDOT is coordinating with GDOT on revisions to the traffic signal as well as revisions to the entrance to Hellbender Harley-Davidson. Completion is on hold pending approval of re-design and issuance of encroachment permit by GDOT.

The project constructed a roundabout at the intersection of Westside Drive and Sandtown Road, to include a new two-lane roadway with curb and gutter and sidewalk extending to South Cobb Drive. At the intersection of Westside Drive and South Cobb Drive, the Westside Drive approach will include dual left turn lanes and a right turn lane. The existing traffic signal at Beech Road and South Cobb Drive will be removed, and a new traffic signal will be installed at South Cobb Drive and Westside Drive.

GDOT PROJECTS

Road Resurfacing

NIGHTTIME Resurfacing Operations – are scheduled Sunday through Friday, Weather Permitting. Expect lane closures between 7 p.m. and 6 a.m. with one lane remaining open at all times on the following road(s): EXPECT DELAYS

SR 5 – I-75 to Kurtz Road**

** The above scheduled work is subject to change due to weather or construction progress.

GDOT Bridge Repair Projects (I-75 Corridor)

This GDOT project consists of cleaning and painting the steel superstructure on nine (9) bridges, and joint replacement and application of a two-part polymer bridge deck overlay of eight (8) of the bridges in Cobb County. The location of the bridges include Allgood Road over I-75, Canton Road over I-75, Delk Road over I-75, I-75 over Bells Ferry Road, I-75 over Banberry Road, I-75 over Dickson Road, I-75 over Noonday Creek, South Marietta Parkway over I-75, and Wade Green Road over I-75. This project will include shoulder closures on I-75 and lane closures from 9:00 pm to 5:00 am. All interstate ramps will remain open. This project is scheduled to be completed Summer 2021.

GDOT I-75 SB & NB at SR 5 Connector (Barrett Parkway) Bridge Repair

This GDOT project consists of bridge repair on I-75 at SR 5 Connector (Barrett Parkway). Expect single lane closures on Barrett Parkway and I-75 from 9:00 p.m. to 5:00 a.m. with possible double lane closures on Barrett Parkway beginning at 11:00 p.m. This project is scheduled to be completed March 2020.
Cobb County has launched this easy-to-use web tool to help users navigate traffic. District 4 Construction Projects
July 18 – July 24, 2020

Paid for with SPLOST Funding

Click on project name for updated lane closure and traffic information.

New Macland Road - ROAD CLOSURE

New Macland Road is closed to through traffic until Sunday, July 26, 2020 between Macedonia Road and Macland Road.

Gaydon Road is closed to through traffic until Sunday, July 26, 2020 between Old Lost Mountain Road and New Macland Road.

This project includes roadway safety and traffic operational improvements on New Macland Road, beginning at Arapaho Drive and ending at Macland Road. Improvements will include construction of turn lanes and sidewalks. Also included are drainage improvements, which consist of the replacement of two culverts. Project limits encompass McEachern High School frontage on New Macland Road. This project is scheduled to be complete Summer 2021.

Factory Shoals Road and Beverly Drive (Harmony Leland and Clay Elementary Schools)

This project is Substantially Complete. This project consisted of school zone safety and operational improvements on Factory Shoals Road and Beverly Drive in coordination with construction of the Cobb County School District (CCSD) Harmony Leland and Clay Elementary Schools relocation project. Beverly Drive improvements included minor widening and pedestrian enhancements between Factory Shoals Drive and Elizabeth Lane. Factory Shoals Road improvements consisted of creating a left-turn lane at the main school driveway in conjunction with school zone traffic control devices. CCSD will provided roadway improvements along the school site frontage on both Factory Shoals Road and Beverly Drive.

Factory Shoals Road at Mableton Parkway

This project consists of school zone safety and operational Improvements associated with the CCSD Harmony Leland and Clay Elementary Schools relocation project. This phase of the project consists of improvements at the intersection of Factory Shoals Road and Mableton Parkway, including the addition of a right turn lane onto Mableton Parkway. This project is scheduled to be completed December 2020.

Factory Shoals Road at Riverside Parkway

This intersection improvement project consists of the addition of a right turn lane from NB Factory Shoals Road onto EB Riverside Parkway. Also included is the installation of a new traffic signal and pedestrian improvements. This project is scheduled to be completed Spring 2021.
Hicks Road at Concord Road

This project includes intersection improvements on Hicks Road at Concord Road. Improvements will include turn lanes, sidewalks, drainage improvements, and a signal upgrade. This project is scheduled to be completed Summer 2021.

I-20 EB Ramps at Riverside Parkway

This project includes construction of an additional right turn lane from I-20 eastbound off-ramp onto Riverside Parkway, and realignment of the South Service Drive intersection with Riverside Parkway from the existing location to 360 feet south, to tie into the existing Riverside EpiCenter driveway access point. Improvements within the project limits include installation of new traffic signals, raised medians, sidewalks, resurfacing and other pedestrian improvements. In addition, the project will provide directional way-finding signage both overhead and roadside along both I-20 eastbound and westbound lanes, the I-20 eastbound off-ramp, Riverside Parkway and South Service Drive to direct traffic to Six Flags Over Georgia. This project is scheduled to be completed Spring 2021.

RiverView Road

This project consists of safety and operational improvements along River View Road, from Veterans Memorial Highway to the Smyrna City Limit boundary line near Nichols Drive. The project will realign the intersection at River View Road with Veterans Memorial Highway. This project is scheduled to be complete Fall 2020.

Road Resurfacing

DAYTIME Resurfacing Operations – are scheduled Saturday, Weather Permitting. Expect lane closures with one lane remaining open at all times on the following road(s): EXPECT DELAYS

Cooper Lake Road – Veterans Memorial to East West Connector**

DAYTIME Resurfacing Operations – are scheduled Monday through Friday, Weather Permitting. Expect lane closures between 9 a.m. and 4 p.m. with one lane remaining open at all times on the following road(s): EXPECT DELAYS

Cooper Lake Road – Veterans Memorial to East West Connector**

** The above scheduled work is subject to change due to weather or construction progress.
CCWMA PROJECT

South Gordon Road – Road Closure

South Gordon Road is closed to through traffic between Factory Shoals Road and Mableton Parkway Friday, August 14, 2020.

Cobb County Marietta Water Authority (CCMWA) is conducting a project to replace approximately four miles of a 36-inch Water Main along Cardell Road and South Gordon Road between Mableton Parkway and Old Alabama Road. The construction will require lane and road closures at various times during construction.

Night Work Pipe Installation – Lane closures are scheduled between 7 p.m. and 5 a.m. beginning Sunday, July 19 through Thursday, July 23 at the intersection of South Gordon Road and Factory Shoals Road with one lane remaining open at all times. Weather Permitting.

GDOT PROJECTS

GDOT I-285 Slab Repair from Fulton County to Paces Ferry Road

This GDOT project consists rehabilitation of concrete pavement on I-285 between the Fulton County line and Paces Ferry Road. Expect lane closure from 10:00 p.m. to 5:00 a.m. This project is scheduled to be completed Summer 2020.

GDOT Bridge Repair Projects (I-75 Corridor)

This GDOT project consists of cleaning and painting the steel superstructure on nine (9) bridges, and joint replacement and application of a two-part polymer bridge deck overlay of eight (8) of the bridges in Cobb County. The location of the bridges include Allgood Road over I-75, Canton Road over I-75, Delk Road over I-75, I-75 over Bells Ferry Road, I-75 over Banberry Road, I-75 over Dickson Road, I-75 over Noonday Creek, South Marietta Parkway over I-75, and Wade Green Road over I-75. This project will include shoulder closures on I-75 and lane closures from 9:00 pm to 5:00 am. All interstate ramps will remain open. This project is scheduled to be completed Summer 2021.

Macland Road Widening and Reconstruction

This GDOT project will widen SR 360/Macland Road between SR 120/Charles Hardy Parkway and SR 176/Lost Mountain Road SW from the existing two lanes to four lanes with a center grassed median and add dedicated turn lanes at key intersections with 5-foot sidewalks on both sides of this east-west corridor. This work will require lane closures to ensure the safety of drivers and workers. Motorists can expect daytime and nighttime lane closures Monday through Friday between 9 a.m. and 4 p.m. and 9 p.m. and 5 a.m. In addition, contractors will work daytime and nighttime hours during the weekend. This project is scheduled to be completed November 2023.
