Cobb County Water System: 770-419-6200

***Required Lields. Permit will not be processed unless these fields are complete.**

*PERMIT #: _____ *DATE: _____

Please accept this affidavit for the sewer installation at:

*Property Address _____

*City: _____ *State: GEORGIA *Zip: _____

District: _____ Land Lot: _____

This request is made in order to comply with O.S.H.A. Regulations and Cobb County’s Trenching Ordinance. I/we hereby assume all responsibility and liability for the installation of the building sewer.

I/we further understand that it is my/our responsibility to insure that the sewer line installed is in accordance with the current edition of the Standard Plumbing Code, with all revisions, adopted by Cobb County. I/we release Cobb County and its inspectors from any and all liability of any kind for damages, loss of property and for the building sewer not being installed in accordance with the current edition of the Standard Plumbing Code adopted by Cobb County.

I/we certify to the Building Official of Cobb County, that the sewer installation is/will be installed in compliance with the Standard Plumbing Code as adopted by Cobb County.

PROCEDURES FOR SEWER APPROVAL ON PRIVATE PROPERTY

1. The plumbing permit shall be appropriately marked for sewer installation, by a state licensed master plumber.
2. The sewer approval affidavit shall be completely filled out before the affidavit can be accepted.
3. On New Construction, there shall not be a final plumbing inspection performed if:
 - A. The sewer approval affidavit is not attached to the plumbing permit
 - B. The plumbing inspections section performs a visual inspection of the sewer installed before covering,.
4. If the plumbing contractor selects a visual inspection rather than by affidavit, the trench shall be properly shored and/or sloped, in accordance with OSHA regulations and Cobb County Trenching Ordinance, until after the inspection is performed and as long as the trench is open until the trench is filled. This is on all new and sewer replacement installations.
5. On sewer replacement installations with the sewer approval affidavit attached, the Mechanical Section of the Development & Inspections Division, needs to be notified when the sewer line is installed and covered so the Mechanical Section may purge thier records.
