# The Cobb County Green School Initiative

Beautify

Conserve

Protect

*Cobb County...Expect the Best!*

# What is the Cobb County Green School Initiative?

The *Green School Initiative* is a program of the Cobb County Water System Watershed Education and Water Efficiency Programs, Cobb County Parks and Recreation Natural Resources Unit, and Cobb County Solid Waste Keep Cobb Beautiful Program. The purpose of the *Green School Initiative* is to recognize schools in Cobb County with an active environmental education program and encourage other schools to develop environmentally based education initiatives within their schools. The primary focus of the program is conservation, preservation, and beautification of our environment. The program annually acknowledges Cobb County classrooms and schools that have met the *Green School* requirements. These schools will be recognized for participating in activities that promote good environmental stewardship.

## How do you become a Cobb County Green School?

The *Green School Initiative* is open to all public and private schools in Cobb County, grades K-12.

Schools interested in achieving *Green School* status must register online. In order to qualify as a *Green School*, five teachers in your school must each complete five earth friendly activities throughout the year making them a *Green Classroom*. This can be any environmentally beneficial project, a lesson plan of your own, a facility tour, or presentations by one of the Cobb County Green School Coordinators. After each teacher completes a lesson plan an activity log should be completed online at [www.cobbcounty.org/watershed-stewardship/schools/green-school-program](http://www.cobbcounty.org/watershed-stewardship/schools/green-school-program) or mailed to Green School Program, 660 South Cobb Dr. Marietta, GA 30060. The deadline for submission of your information is the last school day of March. If you have an activity scheduled for later in the year please submit the online activity log including the date the lesson is planned prior to the March 31st date. A Green School Coordinator will contact you to confirm completion of the activity. *Green Classroom* and *Green School* recognitions will be held during May prior to the end of the school year. Your School will be awarded:

- 1) Public declaration of Cobb County *Green School* status
- 2) A *Green School* Driveway sign
