

Don't be a Turkey

Keep F.O.G. out this Thanksgiving

Fats, oils and grease from food hardens in pipes causing blockages and sewer overflows. Don't let your Thanksgiving clog the pipes and turn your holiday into a smelly mess!

Keep your pipes and the festivities flowing this holiday season by following these simple practices:

Scrape It

Can It

Trash It

For more information:
visit www.cobbstreams.org

- Scrape pans and plates into the trash (not the sink).
- Pour, wipe and scrape oil and grease from pans into a container and throw it away.
- Fryer grease should be cooled and then placed in a sealed container and disposed of in the trash.
- Use sink strainers to catch food and empty strainer into the trash.
