Paratransit Service

A CURB-TO-CURB, SHARED RIDE SERVICE

WHAT IS PARATRANSIT SERVICE?

Paratransit service is an ADA, shared-ride service for individuals with intellectual and physical disabilities. The service is required under the Americans With Disabilities Act (ADA), which guarantees that people with disabilities have equal access to employment, public services and accommodations, transportation and telecommunications services.

WHO IS ELIGIBLE?

People with disabilities who live within the service area and are unable to access the local fixed-route bus are encouraged to apply. Eligibility is based on the analysis of the applicant's functional ability, not his or her medical condition alone. A disability that makes travel more difficult but not impossible, does not qualify as eligible.
