5G INTERNET KIT

Trade Show INTERNET

Why Trade Show Internet?

Trade Show Internet rents a wide range of Internet connectivity solutions built for conferences, expos, brand activations, experiential pop-ups, and corporate events. Whether you're a trade show exhibitor, agency, or meeting planner, our 5G Internet Kits provide reliable connectivity both indoors and outdoors. Simply plug in the power adapter and our router will automatically select the best 5G signal (choosing from Verizon, AT&T, and T-Mobile). Connect all your essential devices including smartphones, laptops, tablets, printers, kiosks, and more, without worrying about the exorbitant fees from hotels and convention centers.

KIT INCLUDES

CradlePoint Router

Network Cable

Power Adapter

5G INTERNET KIT

SUPPORTED DEVICES

Network Printers

Tablets and Mobile Devices

Kiosks

Laptops

Ways To Use Your 5G Internet Kit

✓ Demo online software, apps, and your website

✓ Connect lead retrieval, point of sale, printers, video cameras, and other IoT devices

✓ Stay connected via email and social media

✓ Increase visitor dwell time by creating a web café

✓ Host a social media photo booth

How Does It Work?

Follow the included Quick Start Guide to plug in your router

Scan the router's QR code or type the WiFi password by hand

Connect up to 4 laptops via ethernet cable (optional)

How To Order

**Order Online www.tradeshowinternet.com
or by phone (866) 385-1504**

FedEx delivery to your local office or hotel one business day prior to your event with a pre-paid FedEx Ground return label. Technical support available at (866) 385-1504 x3

"The system was waiting at the bell desk upon arrival at the hotel, set-up was a breeze, the connection speed worked well (even when all three of us were accessing), and the return was a snap using the pre-paid label. If your company is seeking to avoid the outrageous Internet fees that are often charged at convention centers and hotels, Trade Show Internet is an option to consider."
