TSI's 5G Internet Kit monthly rental contains everything you need to get 5, 10 or 15 devices online. Rates include telephone technical support and generous monthly data plans of 200, 400, or 600 GB, respectively, \$20/GB thereafter, never throttled or capped. The kit provides wired and wireless (WiFi) Internet connectivity. If you plan to use WiFi, please verify in advance that all of your devices are 5 GHz (802.11a) compatible. Simply plug in the power adapter and the router will automatically select the best 5G signal (choosing from Verizon, AT&T, and T-Mobile). When in a 5G coverage area, you can expect speeds from 10-100 Mbps down, and 5-50 Mbps up. When in a 4G coverage area, you can expect speeds from 2-15 Mbps down, and 1-5 Mbps up.

5G Internet Kit rental includes: CradlePoint router, power adapter, quick start guide, and 1 standard 5-foot network cable that connects to your computer.

The customer is responsible for all rental charges, shipping and handling fees, data coverage, late return fees, and charges for lost/damaged/stolen equipment. 120V/2A/240W electrical must be ordered separately through the approved vendor. TSI will provide an 80% refund for an order cancelled by the customer at least 14 days prior to the requested delivery date. A 100% cancellation fee applies to all other cancellations. A limited number of kits are available on a first-come first-served basis. Prices are subject to change. This order form should be edited and saved using any version of Adobe. Order form calculations are provided for convenience only. If a calculation error occurs, TSI's published master price list will prevail.
