TSI's 5G Mega Internet Kit rental contains everything you need to get up to 300 concurrent WiFi devices online at your event. This proprietary product bonds multiple 5G connections from Verizon, AT&T, and T-Mobile, putting out a single secure WiFi network to which your attendees can connect. When in a 5G coverage area, you can expect bandwidth speeds of 20-100 Mbps down, 10-80 Mbps up. When in a 4G coverage area, you can expect bandwidth speeds of 10-80 Mbps down, 5-50 Mbps up. These speeds are sufficient for streaming video, mobile apps, email, social media, online software, VoIP, demos, and general web surfing. The WiFi coverage radius is 10,000 sq. ft. (100' x 100' room, line of sight), with extra mesh WiFi access points available for rent to cover adjacent breakout rooms. The main access point has dual-band radios broadcasting WiFi on 2.4 GHz (802.11b/g/n) and 5 GHz (802.11a/ac). For the best WiFi experience we recommend you bring 5 GHz (802.11a) compatible devices. There are 2 RJ45 ethernet ports for optional hard-wired connections, with an option to rent a 24-port switch. No venue permission, IT experience, ethernet drops, or DSL/T1 lines are needed. A standard 110V/2A electrical outlet is all you need. Setup is easy – simply plug and play in 2 minutes with our included Quick Start Guide. Rates include data usage of 0.25 GB/ device/day. Additional data usage will be billed at \$20/GB thereafter. All kits will be shipped via FedEx Ground round-trip insured shipping.

5G Mega Internet Kit rental includes shipping case, enterprise router/switch, 5G bonding router, enterprise WiFi access point, power cord, and Quick Start Guide. The customer is responsible for all data and rental charges, third party fees including drayage and handling, late return fees, and charges for damaged equipment. A charge up to \$20,000 will be assessed for a lost/stolen kit. Electrical must be ordered separately. TSI will provide an 80% refund for an order cancelled by the customer at least 14 days prior to the requested delivery date. A 100% cancellation fee applies to all other cancellations. A limited number of kits are available on a first-come first-served basis. Prices are subject to change. This order form should be edited and saved using any version of Adobe. Order form calculations are provided for convenience only. If a calculation error occurs, pricing based upon TSI's published master price list will prevail.
