

ADD-SSDVT512GB-D8

512GB M.2 2280 PCIe Gen 4 x4 NVMe 1.4 SSD

Features:

- Built-in LDPC ECC provides the most-powerful data correction level in use today
- End-to-end data path protection
- Global wear-leveling evens program/erase counts across data blocks to extend lifespan
- 512MB DDR4 DRAM
- SLC caching accelerates burst performance
- L1.2 power mode support for ultra-low power consumption
- NVMe Security Erase support
- NVMe Deallocate function support (NVMe equivalent of TRIM command)
- High-reliable 3D NAND Flash
- S.M.A.R.T. support
- User-upgradeable firmware
- Temperature sensor
- Operating Temperature: 0°C to 70°C
- Power Consumption (Idle): 0.1W
- Power Consumption (Active): Up to 7W
- Max sequential speeds and IOPS measured using CrystalDiskMark 8.0.1 x64
- RoHS, FCC, CE Complaint

Product Description

This Industry Standard 512GB SSD is 100% guaranteed to be compatible with your system and to work right the first time. Transferring large files or storing your data has never been easier. Our products are also guaranteed by federal law to not affect or void OEM warranties. We stand behind the quality of our products and proudly offer a 3-yr warranty.

AddOn's SSDs are RoHS compliant and lead-free.

Specifications

Parameter	
Form Factor	M.2 (2280)
Capacity	512GB
Memory Components	3D NAND Flash
Interface	PCIe Gen4 x4 NVMe 1.4
Controller	InnoGrit IG5236
Height	3.8mm
Width	80.0mm
Depth	22.0mm
Weight	7g
Maximum Sequential Read	Up to 6750Mbps
Maximum Sequential Write	Up to 2635Mbps
Maximum 4K Random Read IOPS	Up to 200,000
Maximum 4K Random Write IOPS	Up to 645,000
MTBF	1,500,000 Hours
TBW	250TB
Operating Temperature	0°C to 70°C
Storage Temperature	-40°C to 85°C
Maximum Shock Resistance	1500G
Power Supply	3.3V DC
Idle Power Consumption	0.1W
Active Power Consumption	Up to 7W

About AddOn Networks

In 1999, AddOn Networks entered the market with a single product. Our founders fulfilled a severe shortage for compatible, cost-effective optical transceivers that compete at the same performance levels as leading OEM manufacturers. Adhering to the idea of redefining service and product quality not previously had in the fiber optic networking industry, AddOn invested resources in solution design, production, fulfillment, and global support.

Combining one of the most extensive and stringent testing processes in the industry, an exceptional free tech support center, and a consistent roll-out of innovative technologies, AddOn has continually set industry standards of quality and reliability throughout its history.

Reliability is the cornerstone of any optical fiber network and is engrained in AddOn's DNA. It has played a key role in nurturing the long-term relationships developed over the years with customers. AddOn remains committed to exceeding industry standards with certifications from ranging from NEBS Level 3 to ISO 9001:2005 with every new development while maintaining the signature reliability of its products.
