OSFP-800GB-ADAC2M-AO

MSA and TAA 800GBase-CU OSFP to OSFP Direct Attach Cable (Active Twinax, 2m) Infiniband Only

Features

- Compliant to OSFP MSA Specifications
- Infiniband NDR Compatible
- PAM4 106.25Gbps Transmission Per Channel
- Enables Auto-Negotiation and Link Training
- 3.3V Power Supply
- Low power consumption
- Low Latency:
- Linear PAM4 Programmable Equalizer Optimizeed for 56GBaud Copper Link
- RoHS Compliant and Lead-Free
- Operating Temperature: 0 to 70 Celsius
- RoHS2.0 compliant

Applications

- 800GBase Ethernet

Product Description

This is an MSA Compliant compatible 800GBase-CU OSFP to OSFP direct attach cable that operates over active copper with a maximum reach of 2.0m (6.6ft). It has been programmed, uniquely serialized, and data-traffic and application tested to ensure it is 100% compliant and functional. This direct attach cable is TAA (Trade Agreements Act) compliant, and is built to comply with MSA (Multi-Source Agreement) standards. We stand behind the quality of our products and proudly offer a limited lifetime warranty.

AddOn's transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S.-made or designated country end products."

About AddOn Networks

In 1999, AddOn Networks entered the market with a single product. Our founders fulfilled a severe shortage for compatible, cost-effective optical transceivers that compete at the same performance levels as leading OEM manufacturers. Adhering to the idea of redefining service and product quality not previously had in the fiber optic networking industry, AddOn invested resources in solution design, production, fulfillment, and global support.

Combining one of the most extensive and stringent testing processes in the industry, an exceptional free tech support center, and a consistent roll-out of innovative technologies, AddOn has continually set industry standards of quality and reliability throughout its history.

Reliability is the cornerstone of any optical fiber network and is in engrained in AddOn's DNA. It has played a key role in nurturing the long-term relationships developed over the years with customers. AddOn remains committed to exceeding industry standards with certifications from ranging from NEBS Level 3 to ISO 9001:2005 with every new development while maintaining the signature reliability of its products.
