

# ADD-DP14HD20MM6FBK

6ft DisplayPort 1.4 to HDMI 2.0 Black Cable - 4K 60Hz

## DESCRIPTION

This is a 6ft black DisplayPort 1.4 to HDMI 2.0 male to male cable. This DisplayPort 1.4 to HDMI 2.0 cable converts a DisplayPort source to an HDMI display, supporting 4K UHD (3840x2160) at 60Hz. It takes the HBR3 DisplayPort signal from the source and outputs HDMI 2.0 at up to 18 Gbps, carrying video and audio over a single connection so there is no separate converter box to power. It is the right cable for connecting a workstation, mini-PC, or gaming PC with a DisplayPort output to a 4K TV, monitor, or conference-room projector that uses HDMI input. The directional design routes from the DisplayPort source to the HDMI display in a single clean run. A flexible PVC jacket keeps the connection tidy at the desk or in an AV rack while delivering reliable 4K 60Hz signal integrity.

## FEATURES

- Connects a DisplayPort source to an HDMI display with a single male-to-male cable
- Supports Ultra HD 4K resolution at 60Hz (3840x2160)
- Converts DisplayPort 1.4 (HBR3) to HDMI 2.0 (18 Gbps)
- Carries digital audio and video over a single cable
- HDCP compliant for playback of protected content
- Backward compatible with 1080p HDMI displays

## APPLICATIONS

- Connect a DisplayPort computer to a 4K 60Hz HDMI display or TV
- Output high-frame-rate 4K video to an HDMI 2.0 monitor or projector
- Connect a DisplayPort workstation to a large-format HDMI display
- Drive 4K HDMI signage from a DisplayPort source

## Audio Video Cable/Adapter Specifications

Connector Side 1	DisplayPort - Male
Connector Side 2	HDMI - Male
Cable Length	6 ft
Cable Color	Black
Maximum Resolution	4K 60Hz (3840x2160)
Protocol	DP 1.4 (HBR3) to HDMI 2.0 (18Gbps)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
