6ft DisplayPort 1.2 to HDMI 1.4 Black Cable - 4K 30Hz

DESCRIPTION

This is a 6ft black DisplayPort 1.2 to HDMI 1.4 male to male cable. This DisplayPort 1.2 to HDMI 1.4 cable converts a DisplayPort source to an HDMI display, supporting 4K UHD (3840x2160) at 30Hz. It takes the HBR2 DisplayPort signal and outputs HDMI 1.4 at up to 10.2 Gbps, carrying video and audio over a single connection with no separate converter box to power. It is the right cable for connecting a workstation, mini-PC, or gaming PC with a DisplayPort output to a 4K or Full HD TV, monitor, or conference-room projector that uses HDMI input. The directional design routes from the DisplayPort source to the HDMI display in one clean run. A flexible PVC jacket keeps the connection tidy at the desk or in an AV rack while delivering a dependable signal.

FEATURES

- Connects a DisplayPort source to an HDMI display with a single male-to-male cable
- Supports Ultra HD 4K resolution at 30Hz (3840x2160)
- Converts DisplayPort 1.2 (HBR2) to HDMI 1.4 (10.2 Gbps)
- Carries digital audio and video over a single cable
- Backward compatible with 1080p HDMI displays

APPLICATIONS

- Connect a DisplayPort computer to an HDMI TV, monitor, or projector
- Output 4K video from a DisplayPort source to an HDMI 1.4 display
- Connect a DisplayPort workstation to a boardroom or classroom display

Audio Video Cable/Adapter Specifications

Connector Side 1	DisplayPort - Male
Connector Side 2	HDMI - Male
Cable Length	6 ft
Cable Color	Black
Maximum Resolution	4K 30Hz (3840x2160)
Protocol	DP 1.2 (HBR2) to HDMI 1.4 (10.2Gbps)
Housing/Shell Material	ABS
Jacket Material	PVC
Country Of Origin	Varies
