

ADD-6FCAT6-WHITE

6ft RJ-45 (Male) to RJ-45 (Male) White Cat6 Straight UTP PVC Copper Patch Cable

Features

- Color: White
- Supports IEEE 802.3af
- DTE power compliant
- 24AWG
- Copper Patch Cable
- Compatible with T568A and T568B wiring
- Provides performance up to 250 MHz
- Four times the rated PoE standard

Product Description

This is a 6ft RJ-45 (male) to RJ-45 (male) white straight unshielded twisted pair PVC copper patch cable. The Cat6 cable is a standardized twisted pair cable for Ethernet or other physical network layers. Cat6 standards specify performance of up to 250MHz. This PVC jacketed cable is best suited for LANs or SANs, and is recommended for connection between fiber patch panels, hubs, switches, media converters and routers. Unshielded twisted pair patch cables are perfect for data centers, LANs and other short range network connections. Our patch cables are 100% compliant for all of your networking needs. Our products are guaranteed by federal law to not affect or void OEM warranties.

Contact Information

Founded in 1999, AddOn Networks is North America's leading provider of transceivers and high-speed cabling. With a reputation for high quality products as well as an extensive custom design portfolio, AddOn has the connectivity solution regardless of the requirement.

At AddOn, 100% of the products we ship every day are tested in the specific application for which they are intended—never batch or spec tested only. We run bandwidth, distance and IOS network tests. We have documented an impressive 0.03% failure rate over the last 10 years. To continue this rate of success we invest millions annually in our own on-site testing lab.
