EZRA ADVENTURES

AUTHOR · EDUCATOR · HISTORY EXPLORER

Doug Hershey

He doesn't just talk about prophecy — he shows it, from the pages of Scripture to the streets of modern Israel.

BIOGRAPHY

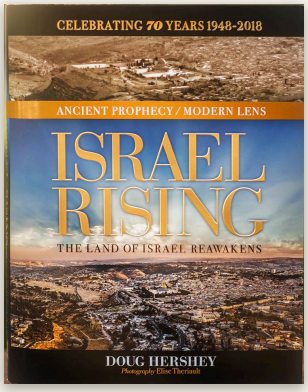

For over a decade, Doug has lived between the pages of Scripture and the streets of modern Israel, documenting hard evidence that ancient prophecies are being fulfilled in our lifetime. A biblical realist, guest lecturer at Hebrew University and the University of the Incarnate Word, and frequent TBN and CBN guest, he deals in facts, history and data.

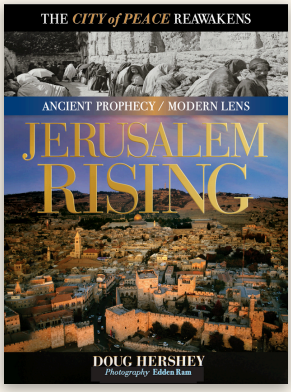

One trip turned into years of digging through archives, tracking down the exact locations in old photographs, and comparing then and now side by side with what the prophets wrote: people returning, deserts blooming, the waste cities being rebuilt. He isn't interpreting headlines from a studio in America. He's on the ground in Israel, documenting where and how it's happening today, just as the prophets foretold.

Rare then/now images and story from today's land bring these ancient prophecies to life in a way audiences never forget.
