Cover Page Assemblage

Taking the film strip die cut plus a 3x4 cut away we create a base for this paper assemblage.

Before adhering film strip add in the TIME vellum definition ephemera under one of the frames.

Pop up the frame with foam adhesive.

Tuck in foliage from the bottom edge of the frame.

Typewriter Cluster

The left side of the page is very simply adorned with vellum foliage.

The left side starts with a film strip die inked with Scorched Timber.

That amazing typewriter piece is then popped up with foam adhesive over the film strip.

A little tab is tucked in from the side along with foliage ephemera.

Tuck in a little notched tag to the top.

Finish with a sentiment strip along the top of the typewriter.
