2026 Training Calendar

Training Title	Details	Dates	Cost
Quantifying Risks – A Practical Path to Smarter Decisions (4 hours)	Move beyond guesswork with our intensive 4-hour Quantitative Risk Register Training. Transform risks into measurable financial insights using Monte Carlo simulation, prioritise projects by ROI, and learn to stress-test your plans for resilience. Equip your team with the tools to present clear, defensible results that secure stakeholder buy-in. Essential for forward-thinking leaders and risk professionals.	February 10 March 17 April 14 May 12 June 9, 23	AU \$899 per seat* in Brisbane.
How to Make a Good Decision – Applying the SABUDI Framework (7.5 hours)	Through a practical business case, participants gain insight into applying SABUDI framework in real-world decision-making scenarios. By the end, you'll be equipped to make business decisions with confidence. SABUDI method is a structured, evidence-based framework for navigating complex decisions. Recommended for leaders (team leads, managers or executives), risk and decision analysis practitioners.	February 17 March 24 April 21 May 19 June 16	AU \$1599 per seat* in Brisbane.
Minimising Bias in Decision Making (4 hours)	Through real life examples and participants experience, this training will expose participants to how cognitive and motivational biases distort judgment and decision making in our organisations. From flawed heuristics to misaligned incentives, we will explore why even seasoned leaders make poor decisions, and what strategies we can have in place to minimise biases in decision making. Highly recommended for anyone serious about building bias-resistant, evidence-based decision systems in uncertain environments. Recommended for leaders (team leads, managers or executives), risk and decision analysis practitioners.	February 24 March 31 April 28 May 26	\$899 per seat* in Brisbane.

*Discounts apply for in-house training groups of 5 or more participants.
