Let's try to do a Family Project for PEACE Situation for All People...

What For Our Family Household Is The MOST WISHABLE To Try To UPDATE For PEACE Situation & JOYOUS Moments For All People?

And so Your Family Project (YourFamily.Pro™- | YourFamilyProject™-Initiative) may begin, with stating above question with Your Family Household.

You know that there is Family Business... and at the HIGHEST LEVEL it's not all about trade. On the contrary... many of Our Family Dealings are Family Community Dealings.

I've said in The Past that everybody needs a project.

And to clarify what I some meant is that a project ought to have Public Benefit... Public Family Benefit.

So Outward Focus to Society, not (only) Own Street thinking.

That brings me to Family Households... What could 2 or 1 adult(s) ((Step-)Parent(s))/Guardian(s) & their (adolescent) child(ren) do, to grow as a Family, to contribute to Family Society and may be as a side-effect generate financial income?

You could try to start working on a Household Family Project within a [YourFamily.Pro™-| YourFamilyProgram™-Initiative](#) with Nichè outward Focus, which could become a [Family Company](#) later.

You could start with a Project ([YourFamilyProgram™](#)) Goal (PEACE For All People) with Sub-Goals (Nichè(-Nichè(-etc.))), a Project Brief and Project Organisation.

This My Friend(s) is what is TRULY EVERGREEN...: FAMILY PROJECTS into INFINITY.
That I 100% (out of 100%) BELIEVE is SOMETHING WE'LL ALWAYS HAVE GOING.

To come back to a possible Family Project for Your Family Household, here are 16 Matters you may be directed to choose 1 or more from to Try to UPDATE To Attain PEACE Situation For All People:

1. Food
2. Beverages
3. Body Care
4. Clothes
5. Habitation
6. Travelling/Traveling
7. Education
8. Employment
9. Relationships
10. Communication
11. Events
12. Gardening
13. Equipment
14. Infrastructure
15. Decorating
16. Finances

A Family Project is preferably Attractive, rather than commanded by (a) Parent(s)/Guardian(s) or a Partner, for All Participants to have a sense of 'Ownership' of their part in a Family Project with a (more) Natural Motivation to participate.

For above 16 Matters, there are 9 Functional Layers I'll share with you:

1. Knowledgeability (ideally WISDOM): To try to improve Knowledge related Why, How & What for (a) Matter(s).
2. Homeyness: To try to improve sense of Homeyness related to (a) Matter(s) and Homey experience when things get done and are done
3. Effectiveness: To try to improve effectiveness of something(s) related to (a) Matter(s)
4. Efficiency: To try to improve efficiency of something(s) related to (a) Matter(s)
5. Aesthetics: To try to improve visual appearance of something(s) related to (a) Matter(s)

6. Attainability: Is the idea for improvement seemingly within reach.
For example: Are (Human) Resources seemingly available International, Continental &/or National?
7. Scalability: Can the product(s) &/or service(s) concept, if developed with Your Family Project,
be rolled out to more Family, whom are Family Members 1st, Customers 2nd?
8. Expandability: Can the product(s) &/or service(s) concept, if developed with Your Family Project,
be enriched with for example more features?
9. Wishable: Is it WISHABLE to try to develop (a) service(s) &/or (a) product(s) for the
chosen Matter(s) for Family, whom are Family Members 1st, Customers 2nd?

Things to try to plan &/or manage are:

- Time
- Bartering Means (like finances)
- Quality (of production) of (a) product(s) &/or service(s) concept.
- Organisation of Roles of your Family Project Team Members and their accepted tasks
- Information provided in- and outside Your Family Project Organisation.
(outside: for example Your Family Project Website)

With YourFamilyProject™-Initiative You may try to provide research material & links to (Human) Resources, Education & Information.

However also, [Companyzer™](#) (at this Site) shares some Info about Service-as-a-Product (Saap) You may create for Your Niche Community OR Product Idea and Start a Company (Sole proprietorship) with Your Family Household.

However, for Beginners it doesn't make sense to start too soon with a product, because there's research to be done and materials (like video, audio, images, text) to be collected, to base Service-as-a-product OR Product Idea on. Which may lead to (in between) conclusion that Your Family Project is either No OR Yes to pursue for that moment.
