

Oncology Foundations for the Pelvic Health Rehab Clinician: Frequently Asked Questions (FAQs)

Question: Who is this course for?

Answer: This beginner course is designed for pelvic health rehab clinicians (PT, PTA, OT, OTA) who want to confidently and safely work with cancer survivors. For those interested in taking the OncoPelvic PT intermediate course that builds on the basics you learn in this course, "[Pelvic Oncology Rehabilitation](#)", you must take this Oncology Foundations course or a similar basic oncology rehab course as a prerequisite. Bundled options for courses are available!

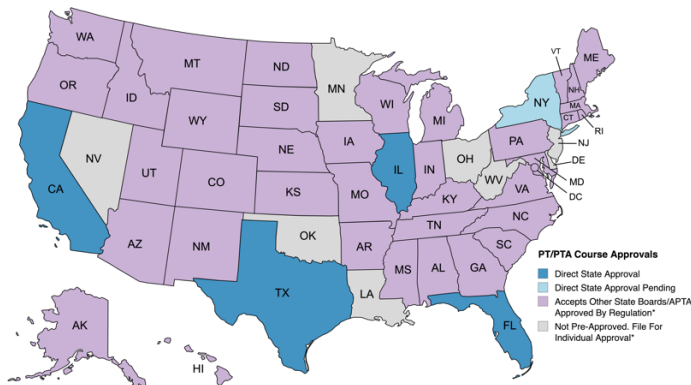

Question: What will I learn in this course?

Answer: This comprehensive on-demand course has 9 modules that includes topics on: cancer epidemiology and disparities, common cancer terminology, cancer pathophysiology, how cancer is diagnosed, common cancer treatments, the role of rehab providers throughout cancer survivorship, how to perform a comprehensive review of systems and examination, exercise prescriptions, and wellness and health promotion. These are the building blocks that all rehab clinicians need, but this course focuses on pelvic cancer concepts.

Question: Do I get continuing education units (CEUs) with this course?

Answer: If you're a physical therapist or physical therapist assistant in the United States, then YES, for 10.5 continuing education hours! This course is approved for 40+ states. Look at the map below to see which states are included. If your state is not listed, [follow these instructions to obtain CEUs](#). For additional questions, please email hello@oncopelvicpt.com.

****Pending state for CEUs: NY – updates will be made on the OncoPelvic PT website and sent out via electronic communications.****

Question: What if I have questions after the course?

Answer: Become a member of the OncoPelvic PT Clinician Community where you will have access to other pelvic health and oncology clinicians to ask questions and get continued support! You can also email us at hello@oncopelvicpt.com.

Question: Are there any pre-requisite courses I have to take?

Answer: No, this is a Beginner/Basic course for pelvic health rehab clinicians. *However, this course or another oncology basics course is a prerequisite for the intermediate level OncoPelvic PT course, [Pelvic Oncology Rehabilitation](#).*

Question: What if I want a refund?

Answer: Individual courses less than 2 (two) hours and all e-guides are non-refundable. The option for a refund is available for courses over 2 (two) hours only within 48 hours of purchase, however, it is non-refundable if more than 15% of the course has been completed or if you have already claimed your course certificate. No certificate of course completion will be provided if a course is refunded. We think you will learn and gain a lot from this course, but if you would like a refund, please email us at hello@oncopelvicpt.com
