

INSIDE COVER

1 6x8 pattern paper

Trim $\frac{1}{2}$ off the top (or bottom if pattern prefers)

Score $\frac{1}{4}$ inch on each long side.

Trim down the middle at 3 inches to have two pieces that measure 3 inches wide and 7 $\frac{1}{2}$ inches tall.

Fold the score lines.

Round the inside corners.

Mark about 3 inches down and $\frac{1}{2}$ inch in on the inside edge of these newly cut in half papers.

Use that guide to punch a hole.

Using a hole reinforce punch or die to make 2 hole reinforce pieces. Adhere to the punched circles.

Add strong adhesive to the inside of the $\frac{1}{4}$ score marks and adhere to the page with a gate effect about a $\frac{1}{4}$ inch from the inside edge. Watch video for details on this.

Repeat with the other side of the gate. Use twine or ribbon to close the page.
