

Couture Draping Class

The most important part of draping is knowing how to build the foundation of a garment. In this class we will be taking a new approach to creating a voluminous drape. We will be making a draped skirt that will form a beautiful but also dramatic silhouette. This class is perfect for those of you who LOVE couture design.

For those of you who also would like to know how to drape a corset, you will also get free access to my spiral corset course. That way you can get knowledge around both types of design. All of the techniques you will be learning can be applied to draped gowns and corsets.

Below is the list of materials and the zoom links.

Materials List

- Lining 3 yards (make sure the lining has the same amount of stretch as outside fabric.)
- CanCan 2-2.5 yards (which can be purchased online from Rosas fabric ATL instagram)
 - [Rosa Fabrics Peachtree \(@rosafabricsatl\) • Instagram photos and videos](#)
- Main Fabric 6-7 yards (recommendation - use a light to medium weight non stretch fabric or 2 way stretch fabric)
- Boning (Rigilene ½ inch) 10 yards
- Invisible Zipper 10-14 inches
