

3rd LEVEL OF MANIFESTATION

The third class of the Four Levels of Manifestation explores the 12 Organ Function Energy, how it was created and how it Interacts within. In this Level the Energy is circulating in a denser frequency and the disharmony on this level is perceived more as an effect than as a cause.

The students can feel in their own bodies the flow of the energy that creates, supports, protects and repairs the body and discuss their perceptions to better understand and support harmony on the body.
