## HIEU 127 – The History of Sport in the Modern World

This course looks at the phenomenon of sport in all its social, cultural, political and economic aspects. Our starting point will be the emergence of modern sport in nineteenth century Britain, but our approach will be global. Our primary concern will be with elite sport rather than participation or physical culture. Because our approach will be topical rather than strictly chronological, students should already have a good knowledge of world history in the nineteenth and twentieth centuries as we will be attempting throughout the course to set sport in the context of the events of particular periods. Students who feel they lack the background may want to read Eric Hobsbawm's works – *The Age of Empire* and *The Age of Extremes*. Other works covering the nineteenth and twentieth centuries are also acceptable. .

There will be an in-class mid-term (25%), a critical essay (25%) (topics distributed week VI) and a take-home mid-term (50%)
