

# A Single Point of Entry for Families

BridgeCare's suite of tools work together to create an easy, more connected experience for families to find the care they need and the assistance to afford it. Families search for, apply, and enroll in quality care through one welcoming entry point, while states benefit from coordinated data, streamlined workflows, and better outcomes.

## HUB - Centralized Eligibility Screener

A unified where families explore services, check eligibility, and get matched with the support they need.

- Reduces confusion with one access point
- Increases awareness and participation in a variety of assistance programs
- Enables cross-agency referrals and data sharing

## Family Search

Connect families with the right care using smart filters and real-time provider info, while surfacing demand insights to inform decision-making.

- Transparent, localized search
- Increases program visibility and utilization
- Informs investments with data on gaps and demand trends

## Subsidy Application

Families apply for and manage child care assistance through a guided, mobile-friendly experience.

- Fewer drop-offs
- Increases utilization rates
- Less admin overhead
- Connects to HUB and Family Search for streamlined intake and easily accessible data
