

## **ORDINANCE 2025-3**

### **AN ORDINANCE OF THE TOWN OF EATONVILLE, WASHINGTON, ADDING CHAPTER 12.01, COMPLETE STREETS POLICY TO EATONVILLE MUNICIPAL CODE TITLE 12, STREETS, SIDEWALKS AND PUBLIC PLACES, CREATING THE COMPLETE STREETS POLICY**

**WHEREAS**, a goal of Chapter 4 of the Town of Eatonville Comprehensive Plan is to maintain multi-modal transportation options and explore improvements to their access, efficacy, and safety in compliance with the Growth Management Act and alignment with the Regional Growth Strategy.

**WHEREAS**, the Town of Eatonville Comprehensive Plan supports multimodal transportation systems; and,

**WHEREAS**, the adoption of a complete streets program supports implementation of the Town of Eatonville's Comprehensive Plan and specifically implements Transportation Goal 1 to create a continuous network of non-motorized facilities; and,

**WHEREAS**, since 2007 the Town of Eatonville has completed 14 projects to improve multi-modal forms of transportation; and,

**WHEREAS**, the one-third of Americans that do not drive, disproportionately represented by older adults, low-income people, people with disabilities, and children, would greatly benefit from the equitable distribution of safe, alternative means of travel that will result from Complete Streets practices; and

**WHEREAS**, the Town of Eatonville wants to improve the safety of Town streets, enhance the quality of life of its residents, encourage active living, and reduce traffic congestion by providing safe, convenient, and comfortable routes for travel, walking, and bicycling;

**BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF EATONVILLE AS FOLLOWS:**

**Section 1.** Title 12. STREETS, SIDEWALKS AND PUBLIC PLACES, of the Eatonville Municipal Code is hereby amended to include a new Chapter 12.01, Complete Streets Policy, which reads as follows:

#### **12.01- Complete Streets Policy.**

##### **12.01.010 Purpose.**

The Town of Eatonville shall, to the maximum extent practical, scope, plan, design, construct, operate and maintain appropriate facilities for the safe accommodation of pedestrians, bicyclists, transit users, motorists, emergency responders, freight and users of all ages and abilities in all new construction, retrofit or reconstruction projects. Through ongoing operations and maintenance, the Town of Eatonville shall identify cost-effective opportunities to include Complete Streets practices.

### **12.01.020 Complete Streets Definition.**

A "complete street" is a road that is designed to be safe for drivers; bicyclists; transit vehicles and users; and pedestrians of all ages and abilities. The complete streets concept focuses not just on individual roads but on changing the decision-making process so that all users are routinely considered during the planning, designing, building and operating of all roadways.

### **12.01.030 Exceptions.**

Facilities for pedestrians, bicyclists, transit users and/or people of all abilities are not required to be provided when:

- A. Documented absence of current or future need exists;
- B. Non-motorized uses are prohibited by law;
- C. Routine maintenance of the transportation network is performed that does not change the roadway geometry or operations, such as mowing, sweeping and spot repair;
- D. The cost would be disproportionate to the current need or probable future uses;
- E. In instances where a documented exception is granted by the Public Works/Town Engineer.

### **12.01.040 Implementation**

- A. The Town of Eatonville will incorporate complete streets principles into the Town's Comprehensive Plan, Public Works Standards, parks and recreation master plan, traffic circulation plan and other plans, manuals, rules, regulations and programs as appropriate.
- B. As feasible, Eatonville shall incorporate "Complete Streets Infrastructure" into existing public and private streets to create a comprehensive, integrated, connected transportation network for Eatonville that balances access, mobility, health and safety needs of pedestrians, bicyclists, transit users, motorists, emergency responders, freight and users of all ages and abilities, ensuring a fully sustainable connected, integrated network that provides transportation options.

"Complete Streets Infrastructure" means design features that contribute to a safe, convenient, or comfortable travel experience for Users, including but not limited to features such as: sidewalks; shared use paths; bicycle lanes; automobile lanes; paved shoulders; curbs; accessible curb ramps; bulb outs; crosswalks; refuge islands; pedestrian and traffic signals; signage; street lighting, street furniture; bicycle parking facilities; public transportation stops and facilities and traffic calming devices.

- C. Complete streets may be achieved through single projects or incrementally through a series of smaller improvements or maintenance activities over time. All sources of transportation funding should be drawn upon to implement complete streets. Maximum financial flexibility is important to implement complete streets principles.

### **12.01.050 Intergovernmental Cooperation.**

The Town will cooperate with other transportation agencies including Washington State Department of Transportation, Pierce County and adjoining cities to ensure the principles and

practices of complete streets are embedded within their planning, design, construction, and maintenance activities. The Town will specifically cooperate to ensure the transportation network flows seamlessly between jurisdictions in accordance with local and regional road, transit, bicycle and pedestrian plans.

**12.01.060 Best Practice Criteria.**

The Town Administrator or designee shall modify, develop and adopt policies, design criteria, standards and guidelines based upon recognized best practices in street design, construction, and operations including but not limited to the latest editions of American Association of State Highway Transportation Officials (AASHTO), Institute of Transportation Engineers (ITE) and National Association of Town Transportation Officials (NACTO) while reflecting the context and character of the surrounding built and natural environments and enhance the appearance of such.

**12.01.070 Performance Standards.**

The Town of Eatonville shall put into place performance standards with measurable benchmarks to continuously evaluate the complete streets ordinance for success and opportunities for improvement. Performance standards may include transportation and mode shift, miles of bicycle facilities or sidewalks, public participation, number of ADA accommodations built, and number of exemptions from this policy approved.

**Section 2.** This Ordinance shall become effective after its passage by the Council, approval and publication as required by law.
