STORMWATER MANAGEMENT AND EROSION CONTROL PERMIT APPLICATION

Stormwater management: <i>IMPERVIOUS AREA</i>	Erosion Control: <i>GRADED OR DISTURBED AREA</i>	Square footage of area to be affected: _____ sq. ft Permit \$ _____
a) $\leq 1,000$ SQ FT \$60.00	a) Graded or disturbed area $\leq 1,000$ SQ FT \$00.00	
b) $1,000$ SQ FT $\leq 5,000$ SQ FT \$120.00	b) $1,000$ SQ FT $\leq 5,000$ SQ FT \$60.00	
c) $5,000$ SQ FT ≤ 1 ACRE \$241.00	c) $5,000$ SQ FT ≤ 1 ACRE \$120.00	
Each additional acre/fraction thereof of \$60.00		
Resolution 2003-F		

DATE _____ PARCEL # _____ PERMIT# _____

PROPERTY OWNER: _____

Address: _____ Mailing: _____

City: _____ Phone: _____

CONTRACTOR: _____

Address: _____ City _____

Phone: _____ Phone: _____

Contractor license # _____ Expiration: _____

*** Please provide a copy of contractor's license with application ***

LOCATION OF PROJECT: (Include Parcel #, Street Address, Legal Description and Zoning):

Provide a **SITE PLAN DRAWN TO SCALE** with a description of the project, including the area to be graded, filled, excavated and cleared, amounts of fill, heights of cuts and slopes, type of material imported, and any impervious surfaces to be created. Plot plans must show drainage of the site and all proposed erosion and sediment controls to be used during entire development process. Show methods: silt fencing, fabric ground cover, silt pond, vegetative buffer, etc.

Is project within 200 feet of a shoreline? **YES** / **NO**

Will any lumber being cut be taken to market? **YES** / **NO**

How many board feet of lumber will be cut?

APPROVED _____ Date _____

Public Works Director

Conditions: _____

The undersigned have read, understand, and agree to follow all the instructions, procedures and conditions stated herein.

Applicants Signature: _____ Date _____

Stormwater Management and Erosion Control Permit Application Checklist

- ✓ A completed Stormwater Management and Erosion Control application
 - ✓ Application fee and Engineering Review deposit
 - ✓ Stormwater Management and Erosion Control Site Plot Plan drawn to scale with the project description. Refer to application for complete requirements.
 - ✓ A SEPA Checklist (and applicable application fee and review deposit) is required if the application is part of an overall change in land use, i.e., conversion of unbuilt lands to buildable lots. PLEASE NOTE that a SEPA application requires determination from the Town including a public comment period. Publication of a Public Notice is \$150.00. When SEPA is required, the checklist and subsequent determination must be completed prior to the commencement of any earthwork and as part of a plat of PUD application. SEPA may be done by combining these two procedures into one review or on two occasions with two separate reviews. A SEPA Checklist is NOT required for a Building permit application.
 - ✓ State of Washington Department of Natural Resources FOREST PRACTICES APPLICATION (\$500.00 fee payable to WA DNR) is required if:
 - You are cutting more than 5,000 board feet of lumber.
 - The lumber is being taken to market; or
 - The total amount of land (including all contiguous parcels) is greater than two acres.
- *Please go to <http://www.dnr.wa.gov> for instructions when filling out this application

The removal of hazard trees; that is a tree within 1.5 tree lengths from a structure, does not require a permit provided that the trees do not go to market and that the stumps are left in the ground.

The removal of (1) tree including stump – if none of the timber is taken to market and that the total area of disturbance is less than 1,000 square feet IS PERMITTED without a permit.

- ✓ If you submit a Forest Practices Application that needs to go to Washington State Department of Natural Resources, the cost of the envelope and postage will be added to the permit fees as Miscellaneous charges.
- ✓ Prior to issuance of the Stormwater Management of Erosion Control Permit, the Town must inspect and approve the installation of all erosion control devices installed as indicated on applicant provided site map.
