COVID-19
TEST TO TREAT

Vaccinate ALL 58

## WHERE CAN I GET TREATED?

Visit https://covid-19-test-to-treat-locator-dhhs.hub.arcgis.com/

Call 1-800-232-0233 to find a test to treat location near you.

WHAT IS TEST TO TREAT?

"One-Stop Test to Treat" sites provide faster, easier access to lifesaving COVID-19 treatments. Start by getting tested for COVID-19. If positive, you can receive and fill your prescription from a health care provider, all at one location.

WHAT TREATMENTS ARE AVAILABLE?

COVID-19 treatments options include two oral antiviral pills - Pfizer's Paxlovid and Merck's Lagevrio (molnupiravir) – that can help prevent severe illness and hospitalization when taken soon after symptom onset. To be eligible, you must test positive and have symptoms that started within five days or less. You must also be at increased risk of developing severe COVID-19.
