

Crucial Conversations®

Tools for talking when the stakes are high

WHY

When you're not getting the results you're looking for, at work or at home, it's likely due to a crucial conversation you're not holding or not holding well. Whether it's a problem with poor quality, declining customer satisfaction, or a strained relationship – if you can't talk honestly – you can expect poor results.

Decades of research reveals that top performers are masters of dialogue. In crucial moments, they speak up, surface the best ideas, and make it safe for others to do the same—no matter how risky or unpopular their views.

The good news is these skills are replicable and learnable. In the **Crucial Conversations® Workshop** you'll learn to communicate when stakes are high, opinions vary, and emotions run strong.

Learn to speak up honestly and respectfully. Learn the skills of dialogue that help you get unstuck, improve relationships and get results.
