HOW

Choose the best format for your team. Our **Presentation Transformation Program** is delivered by a certified facilitator in both an in person (2 days) or live online (5, two-hour sessions) program. This Program provides an opportunity for leaders to work on a real presentation in a small group setting (limited to 10). Learners will participate in discussions, build a first draft of a presentation and practice critical skills in small groups. Our **Presentation Transformation Program** also works well as a blended virtual/in person. Let's discuss what works best for your group.
