Agility Recovery – Bringing Assistance During Times of Crisis and National Disasters

As a Partner in the National Discount Program, Agility Recovery offers the Farm Credit System preferred pricing and exceptional service on business recovery and continuity services.

To assist during times of disaster, Agility Recovery has created numerous resources on their website. You will find checklists, videos, case studies and other assistance materials. These apply to your organization and employees. [Click here](#) for their Resources Library.

Agility works with each individual entity to assess their specific risk exposure and develop an optimal recovery plan. When a member declares a disaster, Agility sets that plan in motion and handles the power, space, technology, and connectivity needs.

Is your office ready for the winter weather? [Click here](#) for a Winter Weather Checklist, one of the many resources available to the Farm Credit System from Agility Recovery.

For more information on the National Discount Program, contact Heather.Tseng@fccservices.com.
