### Action-Driven Modules Reinforce Learning

The Gettysburg Leadership Experience integrates uniquely tailored, core learning modules with game-changing case studies to engage participants and encourage dialog.

This HR leader dedicated program is two-fold; first is to explore how an HR leader can anticipate the strategic needs of an organization and position/support the talent accordingly. Second is to focus attention on how HR leaders can be viewed as a transformational leader within the organization, while balancing the multiple roles and requests which are positioned by both leadership and personnel.

### Come Learn from the Best

Exceptional faculty. National leadership experts. Licensed field guides. A key distinction of the Gettysburg Leadership Experience is the depth and breadth of our faculty's knowledge and their passion for developing new leaders.

### Develop Your Network

The Gettysburg Leadership Experience offers individuals a way to develop existing skills while expanding influential connections. Enjoy dynamic dialog and powerful sharing with your HR leader peers.
