

## Foundation

For best results, use a foundation brush. Sprinkle a small amount of foundation into the jar lid and swirl the brush in the lid to collect the powder. Lightly tap the brush handle to dust off any excess. Using circular motions, blend the foundation onto your skin, repeating to build coverage. For more controlled coverage, spritz your brush 2–3 times with Savvy Minerals Misting Spray before swirling in the powder.

## Blush

After applying foundation, sprinkle blush into the jar lid and swirl your blush brush in the powder. Not sure where to apply blush? A great place to start is at the apples of your cheeks and blend outward toward your cheekbones and temples.

## Eyeshadow

Using our eyeshadow brush, dip the brush in the eyeshadow powder, tapping to remove any excess. Apply to the lids and build and blend until you get the look you like!

## Misting Spray

Spray 2–3 pumps of Misting Spray onto a makeup brush and gently wipe off any excess moisture. Pick up mineral makeup using the brush. Apply mineral makeup to your face in desired area and reapply as needed.

## Eyeliner

Use our eyeliner brush to create any look, dramatic or natural with your Jet Setter Eyeliner. Spritz your eyeliner brush with Savvy Minerals Misting Spray for a liquid eyeliner effect or keep your look soft and simple with a dry brush. Whichever approach you choose, do your best to keep the liner as close to the lashes as possible.

## MultiTasker

Dip the brush into the MultiTasker powder, then lightly tap the brush handle against the side of the lid to remove the excess. Apply lightly where needed, building and blending color as desired. Can be applied to eyebrows, used as eyeliner or eyeshadow, or mixed with lipsticks or lip glosses to deepen color.

## Lipstick

Moisturize lips with Young Living lip balm, then apply lipstick to lips until you reach your perfect level of beautiful color.

## Lip Gloss

Use this gorgeous lip gloss on its own for a natural look or apply it over lipstick for more drama.

## Diamond Dust

For best results, apply Diamond Dust with a brush. Sprinkle a small amount of Veil onto its lid. Dip the brush into the lid to pick up the powder, then lightly tap the brush handle against the side of the lid to remove excess. Apply the powder on the brush to your skin in small circular motions, blending well.
