### Black Triangle

Black Triangle was the result of a study in extreme possibilities by taking the infamous 90's era Triangle Kush and crossing its genetics with the insanely dank, dark, and powerful '88 G13 Hashplant. Black Triangle produces an aroma with notes of lemon-citrus, pine, earth, kush, spice, marshmallow and overtones of dark roasted coffee.

### Kosmic Kush

Kandy Kush is a potent Indica-leaning Hybrid of California staples, OG Kush and Train Wreck, and is known for its high yields of very large and resinous flowers. This specific phenotype was selected from a pool of 120 unique candidates by our partners at Allele Genetics. Elevated terpenes include Limonene, Caryophyllene, and Myrcene.

### Starrberry (Banjo)

Starrberry is a super-terp strain at nearly 3%. Citrus notes and earthy aromas lend themselves to a beautiful clean smoke. The overall experience is uplifting, feel-good and strong. It is highly effective, without the bogged-down feeling of common Indica-heavy strains.

3.5g - Available at 8th Street and 22nd Street.  
*Black Triangle* is also available in 0.5gx3 Pre-Rolls.
