

## Introducing EarthWolf Farms

Introducing EarthWolf Farms, a cannabis brand bringing the best products from farms around Lillooet, BC.

What we love about EarthWolf Farms is that they are dedicated to making cannabis products accessible, not just for EarthWolf customers, but for all cannabis producers and consumers around the world. Their proceeds from the sale of products will mostly go towards research to make cannabis more effective and less expensive.

This is a Prairie Cannabis Sask-Exclusive Launch! To kick-off, we're celebrating with a launch sale.

We hope you love them as much as we do.

## WHAT'S NEW

### Lillooet Gold

Lillooet Gold is a cross of UK Cheese and Bubba Kush creating a hash powerhouse that packs a potent punch. It boasts lilac flowers with glittering trichomes and is grown outdoors organically with love and care. The spectacular purple flowers are processed using ice-water extraction, with no solvents, preserving the essence of the inflorescence giving us a total of 3.4% terpenes, dominated by caryophyllene and limonene.

THC: 59.3% CBD: 0.11%

Plant Type: Hybrid

Flavor Profile: Citrus, Earth

### Romulan Grape God

This delightful hybrid, a cross of Romulan and GrapeGod, was grown organically in the Fraser Canyon of BC. Whole plants were frozen at harvest, hand bucked, and gently agitated in ice water to isolate trichomes. The hash is dominated by B-Myrcene, A-pinene, and B-pinene, producing a fruity and piney aroma with hints of grape. This is a very limited release of only 1200 units produced from the 2020 season, get yours before it is gone!

THC: 52.2% | CBD: 0.2%

Plant Type: Hybrid

Flavor Profile: Fruit, Pine

**\$40**

## Tundra

This full melt bubble hash was made using organically grown fresh frozen flowers and contains only 73-90u trichomes from the first wash. Tundra is a cultivar bred from Passion #1 and Russian ruderalis, known for its' spicy and sour flavor, with giant white sticky trichomes. From the farm to the lab, our growers and processors are drawn to its unique aroma. With over 8% total terpenes, its profile is dominated by  $\alpha$ -Cedrene,  $\beta$ -Caryophyllene, and  $\alpha$ -Humulene.

THC: 58.0% CBD: 0.14%

Plant Type: Hybrid

Flavor Profile: Spicy, Sour

## Blue City Diesel

This full melt bubble hash was made using organically grown fresh frozen flowers and contains only 73-90u trichomes from the first wash. Blue City Diesel is a cross of blueberry and NYC Diesel which exudes a subtle sweet citrus berry aroma. This hash has 8% total terpenes with  $\alpha$ -Cedrene,  $\beta$ -Caryophyllene, and  $\alpha$ -Pinene being the most abundant. This cultivar was a favorite of our team, being grown organically and whole plants processed using ice water extraction, retaining its unique terpene profile.

THC: 56.5% CBD: 0.14%

Plant Type: Hybrid

Flavor Profile: Sweet, Citrus, Berry

**\$40**    **\$45**

## Live Rosin

A live rosin is a cannabinoid-rich oil that is so pure of plant contaminants that it can be dabbed.

When you see the word LIVE in the description, you can know that it was made with cannabis frozen immediately upon harvest and made using cold-processes to preserve as much of the plant's desirable constituents as possible.

### Gods Space Needle

The flavor is best revealed at low temperature; an initial blast of citrus leaves a lingering taste of tropical fruit. This rosin packs 5.5% total terpenes, dominated by Limonene,  $\beta$ -Caryophyllene, Ocimene, Caryophyllene oxide and Cedrol, a rare combination. From its appearance to flavor, this rosin is guaranteed out of this world!

THC: 53.4% CBD: 0.01%

### Venom OG

This live rosin was made using organically grown fresh frozen flowers, processed by ice water extraction, and gently pressed with heat and pressure using only 73-120u trichomes. This cultivar is a gassy masterpiece from Humboldt Seed Company with the rosin packing an impressive 11.8% terpenes dominated by  $\alpha$ -Cedrene,  $\beta$ -Caryophyllene, and D-limonene

THC: 70.7% CBD: 0.22%

### Tundra

This live rosin was made using organically grown fresh frozen flowers, processed by ice water extraction, and gently pressed with heat and pressure using only 73-120u trichomes. Tundra is a cultivar bred from Passion #1 and Russian ruderalis, known for its' spicy and sour flavor, with giant white sticky trichomes. From the farm to the lab, our growers and processors are drawn to its unique aroma. With over 10.3% total terpenes, its profile is dominated by  $\alpha$ -Cedrene,  $\beta$ -Caryophyllene, and  $\alpha$ -Humulene.
