WEXTECH 9782

Who we are

From concept to competition, WexTech9782 is a student organized team proudly representing Wexford Collegiate School for the Arts in Scarborough, Ontario. Starting in 2024 with eight members, with limited funding, and minimal knowledge of FIRST® Robotics Canada (FRC), we have since grown to a team with over 40 members with several impressive achievements in our rookie year alone. Our dedicated members pour time and effort into laying the foundations and making sure our team continues to succeed.

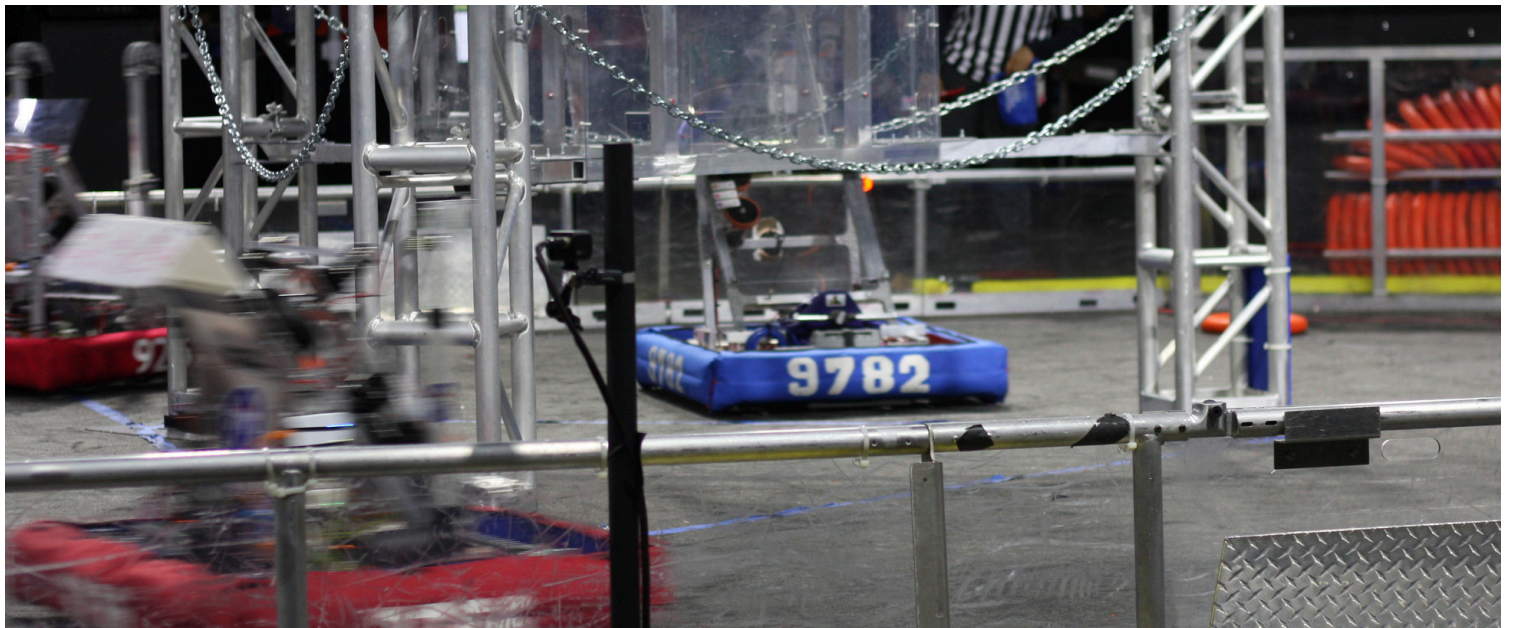

Beyond our commitment to robotics, many of our members are actively involved in Wexford's distinguished Arts Program. As a team, we are dedicated to integrating the principles of STEAM with the creativity of the arts, fostering a multidisciplinary approach. We aim to build a welcoming community that cultivates our students talents in multiple fields of study, encouraging them to solve problems using innovative and creative strategies.

As we aim higher, we hope our sponsors can come on this journey with us. Your support helps us with registration fees, robot materials, travel expenses, and will help us sustain future years. FRC is a global event reaching over 3.2 million youth participants since 1989. At our events we compete against hundreds of high school students from across Ontario.

One of our goals is to make it to World Championships where over 87,000 industry executives, leaders, students, and mentors participate annually at Houston, Texas. This event is advertised to news outlets like CTV, CBC News, Daily Plant, Nasa webcast and the Discovery Channel. Your support will help us to achieve bigger and better heights. Be a part of the contribution to the next generation of success in STEAM exploration and innovation. Together, we can engineer opportunity, inspire minds, and build what's next.

FUEL THE FUTURE.

Demographics

In Canada, women make up less than 23% of the STEAM workforce. At WexTech, 52.5% of the team is consisted of women. We work to cultivate our women in STEAM and create an inclusive environment.

Finalists at Georgina College, Barrie ON

Many of our students are in the Arts Program. They are well-rounded and possess strengths across many areas of expertise. Our students consistently balance extracurriculars while maintaining a good academic track record. 70.6% of our students are in VMA (visual arts program) and 29.4% in PA (performing arts).

We invite you to partner with us as a valued sponsor and be part of something impactful. Your support will not only help us improve our team to new heights but also offer your brand meaningful exposure to a dedicated audience. By sponsoring us, you demonstrate a commitment to community, innovation, and shared success—gaining recognition while making a difference. Join us, we want you on our team.

Sponsor may choose to donate tier value “in kind” (services, materials, products, etc.).

Sponsors can email high res. logo to our Guardian / Parent Support - JMathesonZettel@gmail.com

DYK: Your charitable tax receipt may help you receive as much as 49% of the amount you donated back at tax time. That could mean a \$494 tax credit on a total of \$1000 donated in a single year in some provinces. Visit CanadaHelps.org for more information.
