

# HOOVER OUTFITTING

## Terms and Conditions

Being in good physical condition improves the success of your hunt dramatically but we also have properties that offer a great hunt with less challenging terrain. Being familiar, experienced, and accurate with your weapon also helps a great deal. Break action shotguns are strongly encouraged for your safety and ours. I STRONGLY encourage the purchase of vacation trip insurance, which can cover total trip cost, deposits, personal property, and personal injury.

### Deposit and Cancellation Policy

A deposit is required to secure a tentative booking. A \$2000 deposit is required to hold your reservation. Hunts are sold on a first come, first serve basis. No adjustments for late arrivals and early departures. Multiple deposits do not constitute a paid hunt. If you cancel for any reason, there are no refunds unless you or we can replace the space with another client. The balance of payment is due July 1. A 2.9% PayPal fee will be added to credit card purchases. Deposit insurance is highly recommended. *Deposits must be received within 14 days to guarantee reservation.* It is your responsibility to purchase proper hunting licenses.

### Transportation

The hunter must furnish his own transportation to Glasgow. If you fly commercially, plan to arrive in Glasgow, Montana one or two days prior to the beginning day of your hunt. You may also choose to rent a car in Billings, MT. The drive is approximately four hours. If you prefer to drive to our hunting area, we can supply you with simple directions.

### Harvested Game Preparation

We will clean and package birds. Please bring a cooler for transport. If you would like taxidermy service, we can recommend taxidermists but prefer you use your personal taxidermist.

### Wounding Policy

We must follow a code of hunting ethics each day. A wounded and lost bird will count toward hunter daily bag limit. Please use calibers and shot consistent with game size.

### Insurance and Responsibility

Although we spare no effort to assure a safe trip, an expedition of this type is not without risk. I cannot assume responsibility for injury to clients, illness, COVID19, loss of personal belongings, or for time and expense incurred. All use of horses will require additional signed waivers.

### Dogs

You are welcome to bring your own hunting dog. You must bring a portable kennel for transport and night. Your own transportation in the field may be necessary for multiple dogs. Hoover Outfitting is not responsible for any danger your canine may encounter in the wild. Bring dogs at your own risk!

Guide dogs: Shooting a guide dog is an automatic forfeiture of \$5000.
