WELCOME TO WILD ROOTS!

Inspired by the ideas of minimal living and spending more time unplugged from the world, Wild Roots was brought to life to provide a relaxing, unique and affordable experience for those looking to spend quality time with friends or to celebrate a big occasion.

This property is home for us and we share it with our two dogs, Bauer and Lola. As your hosts, we are thrilled to share it with you and your favorite people as well.

Feel free to reach out to us at any point during your stay with anything you need. I respond the fastest to text or phone calls mainly because Mona loses her phone 5 times a day and rarely has the ringer on anyway.

Seriously, we are so excited you are here and want to make this experience a great one!

Property Overview

A FEW THINGS TO KEEP IN MIND

Wild Roots is a 45 acre property with barbed wire fencing on all sides so you won't accidentally wander off. As you pulled in you saw a road that heads to the right. That road leads you to the back of the property and our back fishing pond. If you are walking the trails and get lost, that road will lead you back to the front.

We are home to many different wildlife including birds, deer, gophers as well as your typical insects. It's best to use a flashlight when walking at night. Occasionally you may hear coyotes but they won't bother you. It's all part of the adventure of being outdoors!

As a courtesy to our neighbors, we ask that all amplified music be turned down a little after 10:30pm. Party on and have fun, just don't decide to have an electric guitar contest at midnight.

Smoking is only permitted in outdoor areas where fire pits are located. Wildfires are a risk that should be taken seriously so please make sure that anything you light is properly extinguished. There are fire extinguishers located in each space and kitchen just in case.

It's Texas, so yes, we love guns but you cannot fire yours here at Wild Roots. Also, our insurance company would like for you to know that there are no life guards on duty. Swim at your own risk and do not dive into the water.
