Integrated Solutions for

WoodWorks® Linear

Create bold, directional ceiling designs with integrated lighting tailored for WoodWorks® Linear Veneered Open system. Continuous lines of light emphasize the linear geometry of the ceiling while providing consistent, high-quality illumination below.

WOODWORKS® LINEAR VENEERED OPEN CEILING PANELS WITH 5.25" INTEGRATED LIGHTING

Integrated Solutions for

WoodWorks® Grille

Elevate the ceiling plane with fully integrated linear lighting designed specifically for select WoodWorks® Grille Systems. This solution unifies architecture and illumination, delivering clean lines of light that align seamlessly with wood slats for a refined, continuous aesthetic.

WOODWORKS® GRILLE FORTÉ SOLID CEILING PANELS WITH 1.50" INTEGRATED LIGHTING

WOODWORKS® GRILLE FORTÉ CEILING PANELS WITH 1.50" INTEGRATED LIGHTING

Integrated Solutions for

WoodWorks® Grille Walls

Define the wall plane with integrated linear lighting that complements the warmth and rhythm of WoodWorks® Grille Walls. Flush-mounted luminaires fit seamlessly between slats to highlight natural texture and feel like part of the architecture.

Customizable Configurations

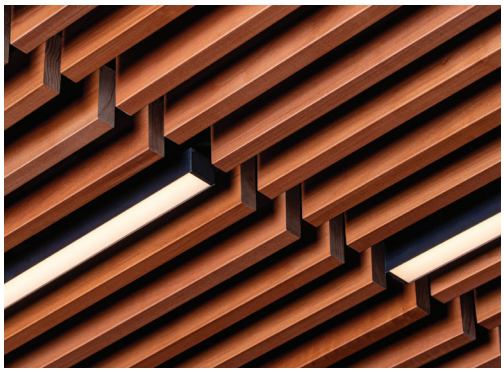

Specify lighting across a range of widths, placements, and ceiling systems to create unique visual expressions.

- Continuous runs that extend across panel joints
- Seamless transitions through ceiling planes
- Slat replacement or between-slat light positioning (Grille systems)

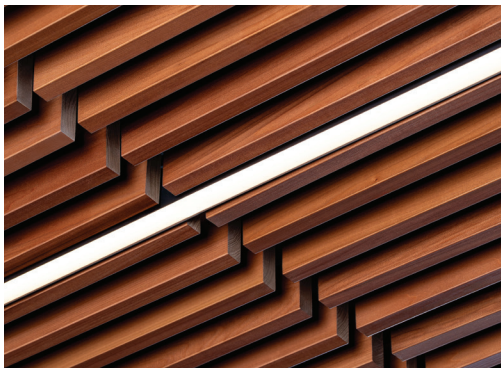

Designed for flexibility, the system supports long, uninterrupted runs — allowing light to define space without being constrained by panel dimensions.
