# Design Meets Integrated Lighting

Armstrong Integrated Lighting, powered by LightArt, integrates precision illumination into select Armstrong WoodWorks® Grille and Linear ceiling systems. One coordinated system delivers clean lines, visual comfort, and simplified specification.

Launching May 2026

Integrated  
Lighting

Available in four aperture widths—0.75", 1.5", 3.75", and 5.25"—the system creates seamless, architectural runs of light across the ceiling. A clip-in mounting design simplifies installation for a fully integrated, high-impact result.
