

Marks Lumber Shiplap Siding

Marks Lumber's circle sawn shiplap siding is the perfect choice for anyone looking to create a stunning custom home. Marks Lumber's shiplap boasts a unique look, with our renowned circle sawn process creating contrast and texture on an otherwise clean, crisp siding. Made from Montana-grown Douglas fir, our shiplap siding is kiln dried and hand graded so you can be sure you're receiving a high-quality and durable product.

While commonly used for exterior siding, shiplap can also be used for soffit, paneling and wainscoting. Shiplap comes in a variety of sizes, surfaces and grades. If you have questions about which shiplap product you're looking for, contact our qualified sales team today.

Make Your Siding Last With Lifetime

Lifetime Wood Treatment is a non-toxic product that can be used for virtually any outdoor project, including siding, trim, fencing, and decks. This one-and-done weathering treatment effortlessly creates a beautiful silver patina look, similar to that of old barnwood. Save time and money by letting Marks Lumber pre-dip your siding for you!
