

## Retaining spacers 48 / 62 (blue) for DuoVero and Overo (50pk) Product datasheet

KIT001

USD5.00

PACK OF 50 SPACERS (CONH0021)

### Product Features

Each spacer, made of Nylon 6/6, fits between a Gumstix DuoVero COM or Overo COM (thickness 48 mils) and an expansion board of thickness 62 mils.

Recommended by Gumstix for use in any product designed for a mobile or handheld application that uses a standard 62 mil thickness PCB. Four spacers secure each configuration.

Can be used in a customer product designed with a Gumstix DuoVero COM or Overo COM and a custom expansion board with 62 mils thickness and 0-80 hole diameter.

These retaining spacers create an inter-board separation of 1.5mm.
