# ARTISAN 16' BEAM KITS New!

## INSPIRED BY NATURE

Our Artisan Faux Wood Beams are molded from real wood. We only use high-end rigid polyurethane to achieve strength and stability, delivering a maintenance-free faux wood ceiling beam.

All of our Artisan Beams are hand-painted by our incredible team of craftsmen providing unique pieces just for your home.

- **Material:** Polyurethane
- **For Interior Use**
- **Linear Coverage:** 15'-8"
- **Weight:** 8 lbs. per beam
- **3-Sided "U" Beam measures:**  
6" W x 6" D x 94" L  
**with 1 open end & 1 closed end**
- **Made in North America**

**Each Kit Includes:**  
(2) 94" beams  
(1) 20" x 1-5/8" beam strap

Additional straps, beam brackets and touch-up stain kits available.

### FINISHES

WALNUT

GREY

UNFINISHED

UNFINISHED BEAMS HAVE A PRIMER COAT

### TEXTURES

#### HAND HEWN

Distinguished by a hand-chopped texture with axe marks, this vintage look replicates reclaimed wood from the 1800's.

#### RIVER WOOD

Replicated from salvaged submerged wood in the Great Lakes, the quality of this water logged wood was enhanced during its long stay underwater. Exquisite and classic.

#### SAND BLASTED

Heavily sandblasted texture reveals swirling grain patterns that give a weathered, vintage look that dignifies any room.

New  
Medium Oak

Our **Rustic Beams** allow you to bring back that "Old World Style" and to any room with their rustic warmth and charm. These beams are lightweight and easy to install.

**Rustic Beams** were fallen logs, hewn into shape using a broad axe. Forging ahead and settling the new frontier, early settlers did not have access to mills and machinery. They shaped the beams used in their homes and business by hand, using their axes and small tools. This resulted in a beam with rugged texture and character.

# Unfinished Beam Program

## Create your own color

Simply make your selection from the many gel stain finishes that best suits your room.

*Brush  
on your  
stain and  
enjoy the  
Beauty*

## Why limit your choices of color?

### FREE

#### Unfinished Beam Sample Available.

Please call our Sales Dept.  
to request sample.

Sample piece  
Approx. 6"-8"

#### MINWAX GEL STAIN

One can of MINWAX Gel Stain  
will stain approximately 5 to 8  
Beams (13 ft. beams).

Visit your Home  
Centers for endless  
color selections

Hint:  
Water Base  
Gel Stains have  
a low gloss (flat)  
appearance.

#### Exterior Use:

It is Recommended when BEAMS are used for Entrance Ways  
or Over Terraces that an outdoor deck stain is applied.

- High Density Polyurethane.
- Light weight & Easy to install.
- Coordinating corbels and accessories available.
- Virtually impossible to distinguish from real wood.
- Will not rot, warp, decay or split.
- Our beams can be used indoors and outdoors. When using outdoors, a UV coating must be applied to prevent the pre-finished product from fading over time.

### EASY INSTALLATION

#### Instructions:

1. Secure a wood block to the ceiling every 4-5 ft.
2. Slide the opening of the beam over the wooden blocks.
3. Place a line of silicone caulk on the beam.
4. Attach two screws/nails into the side of the beam. This will secure the beam to the ceiling.

# TIN PLATED STAMPED CEILING TILES & CORNICES

LIGHTWEIGHT • TIN FREE STEEL • 30 GAUGE • .010 THICK

Our Stamped Ceiling Panels feature an impressive mix of texture and nostalgia, with contemporary and traditional styling and finely crafted details.

- **Steel** Ceiling tiles and cornices are shipped uncoated or choose from one of our pre-finished options below. Powder Coated, Lacquered, Brass, Copper, Chrome or Hand Painted Vintage.
- **Powder Coated:** Powder coating is a process of applying dry paint through an electrostatic process, then cured with heat.
- **Lacquer:** The Lacquer finish is also a powder coated process proprietary to us that allows for a baked on consistent clear finish.
- **Brass, Copper and Chrome:** Anodized finish over aluminum base metal. Tiles come with a protective peel off PVC sheet.
- **Hand Painted:** Hand painted vintage finishing process is where the base color is applied and then a formula is manipulated to create unique antique faux finishes.

200 PCS. PER BOX

**SM-CLIP**

# Decorative Stamped Steel Cornices

All cornice mouldings are available in 4' lengths and range in projection size from 1-1/2" to 15-1/2".

Recommended paints for uncoated steel are RUST-O-LEUM to maintain the natural metal appearance, or semi or high gloss oil based primer and paint. **DO NOT USE WATER-BASED PAINT.** Chromium treated for superior paint retention and easily cleaned with soap and water.

# FlexLam LITE CEILING TILES New!

## 2' x 2' Lay-In Patterns | Thickness: .013"

Bringing lightweight ceiling solutions to beautiful new heights! FlexLam Lite is our newest value-conscious ceiling solution. The original FlexLam Structures line has long been coveted as a durable, beautiful, and affordable option for designers and architects. With FlexLam Lite, we've successfully combined many FlexLam Lay-In Ceiling Tile patterns with 18 of our most

popular finishes into one sleek .013" thick package. This product line is ultra-lightweight, ultra-thin, easy-to-install, and even more cost-effective than our traditional FlexLam line.

### The Advantage of FlexLam Lite

- Same flexibility, durability, and versatility as FlexLam Structures
- Thinner and easier to cut and fabricate
- Our most cost-effective solution for ceilings

### Looking For A Drop-Out Ceiling Solution?

Our FlexLam Lite finishes in Gloss and Matte White are available as a Drop-Out Ceiling Tile, and are specifically designed to fall out when exposed to heat from a developing fire. Provide a sleek, seamless look for commercial ceilings by hiding fire sprinklers.

- Protect fire sprinklers from accidental knocks and tampering, both of which can result in water damage
- Make sprinkler system design and position easier and more cost-effective, as they completely eliminate the need to lower the sprinkler

Considered the fifth wall in interior design, FlexLam's wide variety of ceiling tile styles and sizes can add dimension, texture, and visual interest to any room. Available in 2x2 and 2x4 sizes, for laying into suspended ceiling grid, or as a direct glue-up application, these tiles have the power to define a space.

## Features:

- Compatible with 15/16" grid systems
- Lightweight & easy to install
- Waterproof
- Easy to clean
- Fire retardant
- High impact & abrasion resistant properties

Shown: Gloss White + Corrugated in Acoustic  
PCT22L-PERF-COR-WH

## Index

- G** **GLUE UP (2x2 Ceiling Tiles)**  
Designed with an overlap system (see BIO) to make installation easy, fast and forgiving. These tiles can be used on ceilings and walls.
- G** **GLUE UP (2x4 Ceiling Tiles)**  
Designed with an overlap system (see BIO) to make installation easy, fast and forgiving. These tiles can be used on ceilings and walls.
- L** **LAY-IN NON-TEGULAR (2x2 Ceiling Tiles)**  
Designed to fit most suspension grid ceiling systems and produces no sag. It is recommended that a standard mineral tile (old or new) be used on top of our lay-in tiles to hold them in place.
- L** **LAY-IN NON-TEGULAR (2x4 Ceiling Tiles)**  
Designed to fit most suspension grid ceiling systems and produces no sag. It is recommended that a standard mineral tile (old or new) be used on top of our lay-in tiles to hold them in place.
- T** **TEGULAR (2x2 Ceiling Tiles)**  
The embossed part of the design is lower than the suspension grid and the 4 edges are flat to fit nicely into the grid.
- A** **ACOUSTIC (Perforated 2x2 Lay-In Ceiling Tiles)**  
2' x 2' Lay-In tiles, perforated to increase sound absorption and offer acoustic qualities, as well as all other 2' x 2' Lay-In tile features.  
*Available only in Gloss Black and Gloss White*
- M** **MINERAL FIBER (2x2 Lay-In Ceiling Tiles)**  
Flexible mineral fiber ceiling tiles replace standard mineral fiber ceilings with a long-lasting solution. These thermoplastic ceiling tiles have a durable, waterproof surface that is easy to clean. Available in 2' x 2' for lay-in ceiling applications, this revolutionary tile is flat with tegular/revealed edges that allow the panel to drop below the grid.

### BIO (Built-In-Overlap)

Our BIO has flat edges on two adjoining sides of the FlexLam Ceiling Tile. By orienting all tiles in the same direction and

overlapping the tiles, the seams are less noticeable. The placement of the tile is also more flexible so that slight imperfections in the substrate will not affect the finished look. When overlapping four FlexLam Ceiling Tiles, it is necessary to a 1/2" notch in tiles 2 and 3 to avoid a bulge where the panels meet.

FLEXLAM CEILING ACCESSORIES

GRIDMAX™ IS A PATENTED, SNAP-ON GRID COVER designed to make grid systems invisible. It is cost effective and doesn't rust or scratch. GridMax is sized to fit over 15/16" T-bar suspension grid systems, with other sizes available by special order. Mains, Tees and mouldings are necessary to cover the entire grid system. They are packaged together, to complete 100 square feet of ceiling, and sold separately to use as needed.

15/16" (24 MM) GRIDMAX  
IN PAINTABLE

APPLYING GRIDMAX OVER T-BAR  
SUSPENSION GRID SYSTEM

GRIDMAX  
IN MOONSTONE COPPER

For the amount of GridMax needed, measure the perimeter and calculate the square footage.

- Great for full-ceiling direct use, and as border tiles in drop ceiling applications.
  - ▲ This tile may be trimmed and installed along ceiling borders.
- A BROKEN BOX FEE APPLIES FOR ORDERS UNDER 25 PCS.

# FlexLam Light Diffusers

*FlexLam Light Diffusers are designed to replace existing prismatic panels in suspended ceiling systems. Our diffusers are ideal for office work environments because the light is directed from side to side and does not shine downward onto computer stations.*

The panels are tegular which means the embossed part of the design is lower than the suspension grid and the 4 edges are flat to fit nicely into the grid.

**2' x 4' Sheets**

(23-5/8" x 46-1/2")

Tolerance +/- 1/4"

**.030"  
Thickness**

- Thermoplastic Panels
- Finish: Frosted Clear
- **Class A Fire Rated**
- 30% more light at eye level.
- Brighter light around perimeter.
- Softer light at desk height.
- Lightweight approximately 1.17 lbs each.

## **APPLICATIONS:**

- Offices
- Hallways
- Schools
- Homes
- Medical Facilities

**3 Contemporary designs  
to choose from!  
4 pc Minimum**

**PATENT  
Pending**

**Wavation: LD24-WAV-FC**
