

Defensive Driving Helping You Steer Clear

Why Schedule With MMIA?

Increased traffic and aggressive driving in your community can be a concern for employee safety and the preservation of municipal assets. MMIA will bring the 4-Hour NSC Defensive Driving Course to your location to learn the skills that identify driving behaviors that put your employees and the public at risk of bodily injury and the subsequent damage to municipal vehicles.

We Come to You!

MMIA instructors travel to your municipality, making it easier to schedule large groups of staff.

What to Expect

- How to identify personal driving behaviors and tendencies.
- How to evaluate choices and behaviors, then identify alternative driving choices.
- Recognize potential hazards when driving and make appropriate driving choices to avoid those hazards.
- How to choose safe, responsible, and respectful driving behaviors in different situations and conditions.
- Identify the 6 Deadly Choices of Driving and how to eliminate them.
- And much More!
