

# To deliver on the promise of Technology and human ingenuity

**9,800 dedicated colleagues** and change makers, including 1,800 people in our San Antonio Advanced Technology Center and 900 veterans

Solving the toughest problems for **60+ federal agencies** across the country and around the world

With **multi-disciplinary specialists** trusted to design, deliver, and operate the solutions that agencies need

Bringing together **mission expertise with proven innovation** and leading practices

At the heart of the **nation's priorities** in defense, intel, citizen services, health, & public safety

# Making Shared Services and Cloud THE Priority

## Don't have to move but you can't stay here

- Schedule and Cost/Benefit
- Enterprise Alignment and Priority
- Approach (Lift/Shift vs Re-platform)

## Organizing the junk drawer

- Assets Management
- Managing Application Utilization
- Opportunity Costs

## People First finding a new balance

- Travel
- Safety
- Supply Chain

## Expecting.. the unexpected

- Access and Network
- Operational Readiness
- Schedule Contingency

# Shared Services Benefits

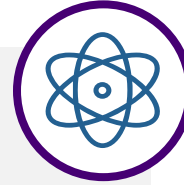

*Flexibility, guaranteed resource availability, enhanced security, and cost savings.*

## Objectives:

**Business  
& Market Strategy**

**Speed  
Flexibility &  
Availability**

**Business  
Continuity**

## Outcomes:

Improve business performance (e.g., financial quarter end processes)

Feature richness (e.g., cyber resiliency in days versus months)

Recovery Time and Recovery Point Improvements
