Governmental units and other entities joining the program are given an access code which identifies them as CPV members and permits them to access the OSP website to get information about commodities and/or services available on the State of Minnesota (State) contracts. Governmental units and other entities who are not members of the CPV program are not authorized to use the contract prices. The Contractor agrees to provide the contract to CPV members at the same prices, terms, conditions, and specifications. For additional information, visit the OSP website at <https://mn.gov/admin/osp/other-purchasers/cpv/>

 - c. **Ordering Entity.** This term applies to any State Agency or CPV Member when allowed in the Participating Addendum.
 - d. **State and State of Minnesota.** These two terms apply to the Minnesota Department of Administration, Office of State Procurement (OSP), representing the State of Minnesota as the contracting agency for the Participating Addendum.
 - e. **Contract Vendor and Contractor.** These two terms apply to the awarded vendor from the NASPO ValuePoint Master Agreement that OSP selects to receive a Participating Addendum.
 - f. **Contract.** Contract is defined as the NASPO ValuePoint Master Agreement and the Minnesota Participating Addendum.
- 0. Effective Date and Contract Period.** The Contract shall be effective upon the date of final execution by the State of Minnesota. The Contract term will begin on September 1, 2025, or on the date of Participating Addendum execution, whichever is later, to February 28, 2027, with the option to extend up to thirty-six (36) months, upon agreement by all parties.
- 1. Prompt Payment and Invoicing.**
- 1.1 Prompt Payment. The State will pay the Contractor pursuant to Minn. Stat. § 16A.124, which requires payment within 30 days following receipt of an undisputed invoice, or merchandise or service, whichever is later. Terms requesting payment in less than 30 days will be changed to read “Net 30 days.” Notwithstanding the foregoing, the State may pay the Contractor in advance for purchases as allowed pursuant to Minn. Stat. §16A.065.
- The payment for each order will only be made for goods received or services actually performed that have been accepted by the ordering entity, and meet all terms, conditions, and specifications of the Contract and the ordering document.

- 1.2 Invoicing. The invoice must be in the same format as the sample invoice form approved as Exhibit D, Supplement 1 with the Contract, unless an alternative format is approved in writing by the State Authorized Representative, or delegate. See Exhibit D, Supplement 1 for a list of minimum invoice requirements.

2. Assignment, Amendments, Waiver, and Contract Complete.

- 2.2 Assignment. The Contractor may neither assign nor transfer any rights or obligations under this Contract without the prior consent of the State and a fully executed assignment agreement, executed, and approved by the authorized parties or their successors.
- 2.3 Amendments. Any amendment to this Contract must be in writing and will not be effective until it has been executed and approved by the authorized parties or their successors.
- 2.4 Waiver. If the State fails to enforce any provision of this Contract, that failure does not waive the provision or its right to enforce it.
- 2.5 Contract Complete. This Contract contains all negotiations and agreements between the State and the Contractor. No other understanding regarding this Contract, whether written or oral, may be used to bind either party.

3. Termination.

- 3.1 Termination for Convenience. The State or Commissioner of Administration may cancel this Contract at any time, with or without cause, upon 30 days' written notice to the Contractor. Upon termination for convenience, the Contractor will be entitled to payment, determined on a pro rata basis, for services or goods satisfactorily performed or delivered.
- 3.2 Termination for Breach. If the Contractor fails to perform according to the contract terms and conditions, the State is authorized to immediately cancel the Contract or purchase order, or any portion of it, and may obtain replacement goods or services and charge the difference of costs to the defaulting Contractor. In the event of default, the State reserves the right to pursue any other remedy available by law. A Contractor may be removed from the vendors list, suspended, or debarred from receiving a Contract for failure to comply with terms and conditions of the Contract, or for failure to pay the State for the cost incurred on the defaulted Contract.
- 3.3 Termination for Insufficient Funding. The State may immediately terminate this Contract if it does not obtain funding from the Minnesota Legislature, or other funding source; or if funding cannot be continued at a level sufficient to allow for the payment of the services addressed within this Contract. Termination must be by written notice to the Contractor. The State is not obligated to pay for any services that are provided after notice and effective date of termination. However, the Contractor will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed to the extent that dedicated funds are available. The State will not be assessed any penalty if the Contract is terminated because of the decision of the Minnesota Legislature, or other funding source, not to appropriate funds. The State must provide the Contractor notice of the lack of funding. This notice will be provided within a reasonable time of the State's receiving notice.

4. Force Majeure.

Neither party shall be responsible to the other or considered in default of its obligations within this Contract to the extent that performance of any such obligations is prevented or delayed by acts of God, war, riot, disruption of government, or other catastrophes beyond the reasonable control of the party unless the act or occurrence could have been reasonably foreseen and reasonable action could have been taken to prevent the delay or failure to perform. A party relying on this provision to excuse performance must provide the other party prompt written notice of the inability to perform and take all necessary steps to bring about performance as soon as practicable.

5. Indemnification.

5.1 In the performance of this Contract, the Indemnifying Party must indemnify, save, and hold harmless the State, its agents, and employees, from any claims or causes of action, including attorney's fees incurred by the State, to the extent caused by Indemnifying Party's:

- Intentional, willful, or negligent acts or omissions; or
- Actions that give rise to strict liability; or
- Breach of contract or warranty.

The Indemnifying Party is defined to include the Contractor, Contractor's reseller, any third party that has a business relationship with the Contractor, or Contractor's agents or employees, and to the fullest extent permitted by law. The indemnification obligations of this section do not apply in the event the claim or cause of action is the result of the State's sole negligence. This clause will not be construed to bar any legal remedies the Indemnifying Party may have for the State's failure to fulfill its obligation under this Contract.

5.2 Nothing within this Contract, whether express or implied, shall be deemed to create an obligation on the part of the State to indemnify, defend, hold harmless or release the Indemnifying Party. This shall extend to all agreements related to the subject matter of this Contract, and to all terms subsequently added, without regard to order of precedence.

6. Governing Law, Jurisdiction, and Venue.

Minnesota law, without regard to its choice-of-law provisions, governs this Contract. Venue for all legal proceedings out of this Contract, or its breach, must be in the appropriate state or federal court with competent jurisdiction in Ramsey County, Minnesota.

7. Contract Use by State Agencies.

To the extent applicable, the Contract does not prohibit state agencies from using their delegated purchasing authority to procure similar goods and services from other sources.

8. Warranty.

The Contractor warrants to the ordering entity that materials and equipment furnished under the Contract will be free from defects not inherent in the quality required or permitted, and that the work will conform to the requirements of the contract. Work not conforming to these requirements, including substitutions not properly approved and authorized in writing may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, modifications not executed by the Contractor, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage. If requested, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment used.

All installation materials and labor shall be guaranteed for a period of one (1) year following the date of final acceptance. During the first year following acceptance, the Contractor shall, upon notification by the ordering entity of any malfunctions, make necessary repairs, including labor, travel, and materials, at the Contractor's expense.

9. Original Equipment Manufacturer (OEM Warranty).

The equipment offered must include the OEM standard warranty. The Contractor is responsible for the cost of any inspections, adjustments, warranted parts, and labor charges to repair or replace warranted parts that are a result of equipment failure(s) during the warranty period. This shall be performed promptly unless otherwise mutually agreed in writing by the Customer and the Contractor. This warranty shall commence when the unit is put into service.

9.1 OEM Extended Warranty Options. If the Contractor provides an OEM Extended Warranty Option, the Contractor must provide a copy of the applicable terms and conditions, including a detail of coverage, to the State upon request. The cost of an OEM Extended Warranty must include all associated costs.

9.2 Contractor (Add-On) Warranty Options. The Contractor may provide additional warranty options, which include, but are not limited to travel pickup, or delivery charges that are a result of equipment failure(s) prior to or during the warranty period or extended warranty period. This warranty option shall commence when the unit is put into service and is in addition to OEM warranty options stated above.

10. Cooperative Purchasing Venture (CPV) Members.

The Contract will be available to all CPV members. Minn. Stat. § 16C.03, subd. 10 authorizes the State, acting through its Office of State Procurement, to enter into purchasing agreements with one or more governmental units and other entities allowable by law, as described in Minn. Stat. § 471.59, subd. 1, to exercise jointly the purchasing powers and functions each has individually. This authority is referred to as the Cooperative Purchasing Venture program. For more information, see State website <https://mn.gov/admin/osp/>.

The Contractor agrees to extend the Contract to CPV members at the same prices, terms, conditions, and specifications. With the approval of the Contractor, a CPV member may add additional terms to its ordering document applicable to the CPV member's purchasing activities. Such additional terms shall not modify, diminish, or derogate the terms applicable to the State.

11. Delivery.

Contractor is obligated to deliver within the quoted lead times. If delivery is not made within that time frame, the State reserves the right to deem the Contractor in default.

Contractor must confirm delivery locations and requirements with the ordering entity. Prior to delivery, the Contractor is responsible for confirming in writing with the ordering entity that the delivery location will accommodate unloading the equipment. Contractor must notify the receiving entity at least 72 hours before delivery to allow for inspection and compliance. No delivery can be made on a State Holiday (as defined in Minn. Stat. § 645.44, subd. 5), on Saturday or Sunday, or after 4:00 p.m. Central Time on weekdays, without prior written approval by the receiving entity.

12. Risk of Loss.

The State is relieved of all risks of loss or damage to the goods and equipment during periods of transportation, installation by the Contractor, or while in the possession of the Contractor or its agent.

13. Purchase Orders and Purchasing Cards.

The parties agree that there is a \$50.00 Minimum Order Amount for orders placed by ordering entities in the Contiguous United States and Canada. Furthermore, the parties agree there \$1000.00 Minimum Order Amount for orders placed by ordering entities in Alaska or Hawaii. The Purchase Order number must appear on all documents (e.g., invoices, packing slips, etc.).

The Contractor must accept a purchasing card for order placement in addition to accepting a purchase order, without passing the processing fees for the purchasing card back to the State. The State's single purchase maximum on the Contract is \$5,000 on the purchasing card, but it may be increased with the State's and the Contractor's approval.

14. Equipment Specifications.

All equipment must meet the contract specifications and all federal and State safety codes and regulations in effect at the date of manufacture. All equipment must be Original Equipment Manufacturer (OEM) equipment unless otherwise stated in the contract.

15. Items Offered as New.

All products, materials, supplies, replacement parts, and equipment offered and furnished must be new, of current manufacturer production, and must have been formally announced by the manufacturer as being commercially available, unless otherwise stated in this Contract.

16. Product Changes During the Contract.

All product offered should be available during the initial term of the contract. The Contractor must notify the State's Authorized Representative immediately if the manufacturer discontinues or replaces a contracted model number. A replacement model number must meet the contract specifications. The State is under no obligation to accept a replacement model. Any change to a contracted model number must be confirmed in writing by the State through a written amendment. The State reserves the right to request documentation for any requested change under this section to evaluate how the specifications of the replacement product deviates from the specifications of the replaced product.

17. Product Returns.

17.1 Non-Defective Conforming Product. The Customer may return an unopened, non-defective product conforming to the specifications of an order within 60 calendar days of the invoice date with no additional fees. If the non-defective conforming product is returned within 60 calendar days of the invoice date after it has been opened, the Contractor may charge the Customer a restocking fee of up to 10% of the cost of the product. Return shipping costs to return a non-defective conforming product to the Contractor is the responsibility of the Customer.

17.2 Defective or Non-conforming Product. The Customer may return any product determined by the Customer as defective or not conforming to the specifications, order, or contract, within 60 calendar days of receipt with no restocking or return shipping fee.

The Contractor should provide the Customer with a Return Merchandise Authorization number (RMA) and must arrange for a "call tag" to be issued via a "carrier" to order pick up of the defective or non-conforming product from the Customer. The "carrier" must pick up the defective or non-conforming product at the address to which the product was shipped.

17.2.1 Replacement of Defective or Non-conforming Product. The Customer may request the Contractor provide a replacement product or cancel the order. If the Customer chooses to have the defective or non-conforming product replaced, the Contractor must replace a defective or non-conforming product at no cost to the Customer.

17.2.2 Return of Defective or Non-conforming Product (without replacement). The Customer's account must be credited within fourteen (14) calendar days of arrival of the returned product at the Contractor's location. The amount to be credited must be the equal of the price of the product plus all freight, shipping, handling, or ancillary charges associated with shipment of the product from and return to the shipping location. If, after inspection, the Contractor determines that the product is not defective or non-conforming, the Contractor may bill the Customer for the return shipping charges.

18. Subcontracting and Subcontract Payment.

18.1 Subcontracting Allowed. A subcontractor is a person or company that has been awarded a portion of the Contract by Contractor. Only subcontractors that have been approved by the State's Authorized Representative can be used for this Contract.

After the effective date of the Contract, the Contractor shall not, without prior written approval of the State's Authorized Representative, subcontract for the performance of any of the Contractor's obligations that were not already approved for subcontracting when the Contract was awarded. During this Contract, if an approved subcontractor is determined to be performing unsatisfactorily by the State's Authorized Representative, the Contractor will receive written notification that the subcontractor can no longer be used for this Contract.

The provisions of the Contract shall apply with equal force and effect to all approved subcontractors engaged by the Contractor. Notwithstanding approval by the State, no subcontract shall serve to terminate or in any way affect the primary legal responsibility of the Contractor for timely and satisfactory performances of the obligations contemplated by the Contract.

18.2 Subcontractor Payment. Contractor must pay any subcontractor in accordance with Minn. Stat. § 16A.1245.

19. Data Disclosure.

Under Minn. Stat. § 270C.65, subd. 3 and other applicable law, the Contractor consents to disclosure of its social security number, federal employer tax identification number, and Minnesota tax identification number, already provided to the State, to federal and state agencies, and state personnel involved in the payment of state obligations. These identification numbers may be used in the enforcement of federal and state laws which could result in action requiring the Contractor to file state tax returns, pay delinquent state tax liabilities, if any, or pay other state liabilities.

20. Government Data Practices.

The Contractor and State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (or, if the State contracting party is part of the Judicial Branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the State under this Contract, and as it applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contractor under this Contract. The civil remedies of Minn. Stat. § 13.08 apply to the release of the data governed by the Minnesota Government Practices Act, Minn. Stat. Ch. 13, by either the Contractor or the State.

If the Contractor receives a request to release the data referred to in this clause, the Contractor must immediately notify and consult with the State's Authorized Representative as to how the Contractor should respond to the request. The Contractor's response to the request shall comply with applicable law.

The Contractor agrees to indemnify, save, and hold the State of Minnesota, its agent and employees, harmless from all claims arising out of, resulting from, or in any manner attributable to any violation of any provision of the Minnesota Government Data Practices Act (and where applicable, the Rules of Public Access to Records of the Judicial Branch), including legal fees and disbursements paid or incurred to enforce this provision of the Contract. In the event that the Contractor subcontracts any or all of the work to be performed under the Contract, the Contractor shall retain responsibility under the terms of this article for such work.

21. Intellectual Property Rights.

21.1 Definitions. For the purpose of this Section, the following words and phrases have the assigned definitions:

21.1.1 “Documents” are the originals of any databases, computer programs, reports, notes, studies, photographs, negatives, designs, drawings, specifications, materials, tapes, disks, or other materials, whether in tangible or electronic forms, prepared by the Contractor, its employees, agents, or subcontractors, in the performance of this Contract.

21.1.2 “Pre-Existing Intellectual Property” means intellectual property developed prior to or outside the scope of this Contract, and any derivatives of that intellectual property.

Any such agreement or document must not be construed to deprive the State of its sovereign immunity, or of any legal requirements, prohibitions, protections, exclusions, or limitations of liability applicable to this Contract or afforded to the State by Minnesota law.
