**BUSINESS COMPLIANCE EXHIBIT B,
STATE OF MISSOURI TAX COMPLIANCE**

STATE OF MISSOURI TAX COMPLIANCE

In accordance with section 34.040.7, RSMo, Purchasing is precluded from contracting with a vendor or its affiliate who makes sales at retail of tangible personal property or for the purpose of storage, use or consumption in this state but fails to collect and properly pay the tax as provided in chapter 144, RSMo.

In order to verify the vendor's State of Missouri tax compliance with the Missouri Department of Revenue (DOR), the vendor must provide "Vendor No Tax Due" certificate issued by DOR prior to award. By providing the "Vendor No Tax Due" certificate, the vendor is verifying the vendor is either registered to collect sales and/or use tax in Missouri or is not making retail sales of tangible personal property or providing taxable services in Missouri.

The DOR will issue the "Vendor No Tax Due" certificate if the vendor is properly registered to collect and have properly remitted sales and/or use tax, or if the vendor is not making retail sales in Missouri.

How To Obtain A Vendor No Tax Due Certificate

A "Vendor No Tax Due" certificate can be obtained from the Missouri Department of Revenue when a business pays all of its sales/use tax in full, up to date, does not have a sales tax delinquency or does not sell tangible personal property at retail in Missouri.

If taxes are due, depending on the payment history of the business, a cashier's check or money order may be required for payment before a "Vendor No Tax Due" certificate can be issued.

A "Vendor No Tax Due" certificate can be obtained by completing and submitting the Request For Tax Clearance, Form 943, to the Missouri Department of Revenue, Division of Taxation & Collection. This form is available at <http://dor.mo.gov/forms/943.pdf>. Make sure to select the appropriate "Reason for Request" on page 2 of the form.

For assistance, call (573) 751-9268 or e-mail taxclearance@dor.mo.gov. Additional information regarding section 34.040.7, RSMo, is available on the Department of Revenue's website at <http://dor.mo.gov/business/sales>.

NOTE: Make sure to request a "Vendor No Tax Due" certificate as there are other similar tax clearance forms that do not meet this verification requirement. The steps to obtain a "Vendor No Tax Due" certificate is outlined at <https://dor.mo.gov/taxation/business/tax-types/sales-use/hb600.html>.

BUSINESS COMPLIANCE EXHIBIT D, ANTI-DISCRIMINATION AGAINST ISRAEL ACT CERTIFICATION

Statutory Requirement: Section 34.600, RSMo, precludes entering into a contract with a company to acquire products and/or services “unless the contract includes a written certification that the company is not currently engaged in and shall not, for the duration of the contract, engage in a boycott of goods or services from the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel.”

Exceptions: The statute provides two exceptions for this certification: 1) “contracts with a total potential value of less than one hundred thousand dollars” or 2) “contractors with fewer than ten employees.” Therefore the following certification is required prior to any contract award.

Section 34.600, RSMo, defines the following terms:

A company’s statement that it is participating in boycotts of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel, or that it has taken the boycott action at the request, in compliance with, or in furtherance of calls for a boycott of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel shall be considered to be conclusive evidence that a company is participating in a boycott of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel; provided, however that a company that has made no such statement may still be considered to be participating in a boycott of the State of Israel; companies doing business in or with Israel or authorized by, licensed by, or organized under the laws of the State of Israel; or persons or entities doing business in the State of Israel if other factors warrant such a conclusion.

Company: any for-profit or not-for-profit organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company, or other entity or business association, including all wholly-owned subsidiaries, majority-owned subsidiaries, parent companies, or affiliates of those entities or business associations.

Public Entity: the state of Missouri or any political subdivision thereof, including all boards, commissions, agencies, institutions, authorities, and bodies politic and corporate of the state created by or in accordance with state law or regulations.

Exhibit E – Warranty and Recycling Plan

Recycling Program

Slate Solutions is committed to recycling 100% of the vests we replace. This valuable service is provided to all our military and law enforcement customers throughout North America. We securely destroy and recycle all indestructible material. We accept expired/used ballistic armor to be deconstructed and safely removed from ballistic circulation. Our goal is to have 100% of the byproduct scrap including para aramid/Kevlar to be used again for non ballistic end uses.

The recycling process includes an Enrollment Form, Receipt, and Destruction (ERD) Request with all specified information. Vests should be sealed in boxes using tamper-evident tape. The agency can then ship items via common carrier (for example, Fed-Ex, UPS, or DHL). All agency departments should retain tracking records for all shipments and provide this information, as necessary, to maintain a chain of custody of the material.

Once the items are received at our facility, your designated point of contact will be notified of the shipment's arrival in its entirety. At this time, the ballistics material is moved to a locked cage for serial number verification and accountability. We will reach out to the point of contact to verify the Accountability Report.

Ballistics materials remain in the secured area to ensure all discrepancies (if there are any) are resolved. Processing, Deconstruction, and Reclamation Once verified and approved, Kevlar®, Twaron®, Zylon®, and other para-aramid materials are removed from the vest carriers to be deconstructed and sorted.

Each material is designated for a specific end use. We never reuse materials for ballistics material manufacturing. Deconstructed material is broken down into fibers or pulp, then recycled to manufacture anything from car brakes to fire resistant gloves, etc.
