To

NASPO Value Point CLOUD SOLUTIONS 2016-2026 PARTICIPATING ADDENDUM

(State Contract NO. MA 18P 18022600000000000092)

This Amendment No. 3 ("Amendment") to the Participating Addendum to the NASPO Value Point Cloud Solutions 2016-2026 Master Agreement #AR2472, MA 18P 18022600000000000092 ("the Participating Addendum") is entered into between the State of Maine (hereinafter "the State") and Carahsoft Technology Corp. (the "Contractor" or "Provider"), collectively referred to as "the Parties" and is dated as of April 15, 2025.

WHEREAS the Contractor and the State entered into the NASPO Value Point Cloud Solutions 2016-2026 Participating Addendum to Master Agreement #AR2472, MA 18P 18022600000000000092 on or about August 31, 2018, and

WHEREAS, the Parties now desire to amend the terms and conditions in the manner stated herein to include clarifying provisions regarding cloud service providers, the Contractor's use of fulfillment partners and incorporating new statutorily mandated cybersecurity and prohibited technologies language.

NOW THEREFORE, in consideration of the mutual covenants and agreements set forth herein, the Parties hereby agree to amend the Participating Addendum as follows:

1. Insert after Section 1, the following new language:

   1.1 Order of Precedence: In the event of a conflict between the terms and conditions of this Participating Addendum or the Master Agreement, the following order of precedence applies:

   i. The Participating Addendum;
   ii. The Utah NASPO ValuePoint Master Agreement #AR2472;
   iii. The Solicitation;
   iv. The Contractor's response to the Solicitation, as revised (if permitted) and accepted by the Lead State; and
   v. A Service Level Agreement and/or Statement of Work issued against the Participating Addendum.

   These documents shall be read to be consistent and complimentary. In the event of any conflict between the terms of the documents comprising the Agreement, the conflict shall be resolved by giving priority to these documents in the order listed above.

2. Insert in Section 5, PARTICIPATING STATE MODIFICATIONS OR ADDITIONS TO MASTER AGREEMENT, the following new language:

Docusign Envelope ID: 326FFB82-238A-448A-B1E2-BA228D856591

5.1 In Section 1 (**Master Agreement Order of Precedence**), subsection (a) is hereby deleted and replaced with:

"a. Any Order placed by a Purchasing Entity shall consist of the documents listed in Section 1.1 (Order of Precedence) of the Participating Addendum between the State of Maine and Contractor."

5.2 In Section 30 (Data Privacy) the following is hereby added after the last sentence:

"Contractor and Purchasing Entity will determine whether any sensitive or personal information will be stored or used in the Cloud Solution that is subject to any laws, rules, regulations, or policies (e.g., the HIPAA Security Rule set forth at 45 CFR Part 160 and Subparts A and C of Part 164; the Family Educational Rights and Privacy Act of 1974, as amended; the United States Department of Justice, Federal Bureau of Investigation's Criminal Justice Information Services Security Policy, Version 5.6 or current (the "CJIS Security Policy), including, where applicable, signature on the FBI's CJIS Security Addendum in the form set forth in the CJIS Security Policy; Section 6103 of the Internal Revenue Code and guidance issued by the Internal Revenue Service with respect to compliance thereof, including IRS Publication 1075 or its replacement, as amended from time to time; and any other laws, rules, regulations or other legal authority set forth elsewhere in this Participating Addendum, Agreement), or any contractual provisions regarding data security or privacy. Contractor and Purchasing Entity will review the applicable Cloud Solution specifications to determine whether the Cloud Solution is appropriate for the level of sensitivity of the Data to be stored or used in the Cloud Solution, and to document how Purchasing Entity and Contractor will comply with applicable laws, rules, regulations or policies. Upon request, Contractor will provide results from penetration tests or other internal reviews of the Cloud Solution specified in an applicable Order placed by Purchasing Entity.

In the event that a Purchasing Entity requests Contractor or Contractor's subcontractors to sign any document identifying applicable security standards (e.g. NIST 800-53, NIST SP 800-171, ISO. standards, and FIPS 200), or mandating compliance with statutory or regulatory requirements (e.g. HIPAA, FERPA, CJIS Security Policy, PCI Data Security Standards, IRS Publication 1075, FISMA, etc.), Contractor will sign, and require its subcontractors to sign, such document. In addition, in providing the Cloud Solution, Contractor will, upon request:

a. partition Purchasing Entity Data from other data in such a manner that access to it will not be impacted or forfeited due to e-discovery, search and seizure or other actions by third parties obtaining or attempting to obtain Contractor's records, information, or data for reasons or activities that are not directly related to Purchasing Entity; and

b. if available to Contractor, include in all Orders or statements of work a list of all third-party hosting services which will be used in the provision of the Cloud Solution to Purchasing Entity."

5.3 In Section 31 (Warranty), the following are added after subsection 31(f):

"g. Contractor represents and warrants that the Cloud Solution will be provided in accordance with industry standards.

h. Unless provided to the Purchasing Entity free of charge for internal evaluation purposes only, Contractor represents and warrants that the Cloud

Solution will not contain any software designed to disable a computer program automatically with the passage of time or at the control of a person or entity other than the Purchasing Entity.

5.4 In Section 32 (Transition Assistance), the following is added after subsection 32(c):

"d. The Contractor will allow Purchasing Entity to export its Data in an agreed-upon file format any time during the term and for a period of sixty (60) days thereafter. Sixty (60) days after the termination or expiration of the Order or statement of work or upon Purchasing Entity's earlier written request, Contractor shall at its own expense destroy and erase from all systems which it directly or indirectly uses or controls all tangible or intangible forms of the Purchasing Entity Data, in whole or in part, and all copies thereof except such records as are required by law. Contractor shall, upon request, send a written certificate to Purchasing Entity certifying that it has destroyed the Purchasing Entity Data in compliance with this section. In the event that Contractor must maintain any Purchasing Entity Data to comply with applicable laws, regulations, or standards, Contractor must obtain Purchasing Entity's written consent and shall hold such Purchasing Entity Data in accordance with the confidentiality and security obligations in this Agreement until such time as it is destroyed and erased."

5.5 Modifications to **Exhibit 1: Software-as-a-Service, Exhibit 2: Platform-as-a-Service, and Exhibit 3: Infrastructure-as-a-Service**. Exhibits 1 through 3 are hereby modified as follows:

a. Section 4 (Security Incident or Data Breach Notification) is hereby deleted in its entirety and replaced with:

"i. Security Incident or Data Breach Reporting Requirements: If Contractor knows or has reason to know of a security incident or data breach that may affect the security of Purchasing Entity Data, Contractor shall notify such Purchasing Entity as soon as practicable from the date of the security incident or data breach, and in no event more than 24 hours, and shall cooperate with the Purchasing Entity to meet any requirements under applicable state or Federal law.

ii. Security Incident or Data Breach Resolution: In the event of a security incident or data breach, Contractor will take commercially reasonable steps to mitigate the effects of the security incident or data breach, to resolve the security incident or data breach in a timely manner, and to put commercially reasonable measures in place to prevent the reoccurrence of similar security incidents or data breaches in the future. Contractor shall provide the Maine Office of Information Technology's Chief Information Office with a written root cause analysis of the breach and the specific steps that Contractor will take to prevent the recurrence of the breach or potential breach will not recur.

iii. Security Incident or Data Breach Notices: As required by applicable Federal or state law (including but not limited to 10 MRSA c. 210-B), Contractor will provide notice as soon as practicable to those individuals whose data was affected or may have been affected by a security incident or data breach. For the avoidance of doubt, when any such breach or potential breach of security involving the data for which notification to the State customers or employees or any other individual or entity is required by law, the State will have sole control over the timing, content, and method of such notification, subject to Contractor's obligations under applicable

Docusign Envelope ID: 326FFB82-238A-448A-B1E2-BA228D856591

law. If the security incident or data breach is due to the negligence of Contractor, Contractor shall provide all requested and/or required notices at its sole expense. Any violation shall entitle the Authorized Purchaser to terminate the Contract, and to pursue any or all of the remedies available under the Contract, at law, or in equity."

b. Section 16 (Responsibilities and Uptime Guarantee) the following is hereby added after the last sentence:

"Unless specifically agreed to in writing by the Contractor and Purchasing Entity, Contractor must provide a SLA that contains the following: (1) a specified guaranteed uptime percentage of at least 99.0%, (2) a maximum of ten hours of scheduled maintenance per month, which will in no event occur during Purchasing Entity's regular business hours; (3) Contractor's commitment to provide at least five days' advance notice of scheduled downtime; (4) notification of unscheduled downtime no later than twenty four hours after its occurrence; (5) response and resolution times for defects; (6) applicable performance metrics (e.g. latency, transaction time) based on industry standards; (7) remedies for failure to meet the guaranteed uptime percentage and response and resolution times, which will be issued by Contractor with no action required from Purchasing Entity; and (8) remedies for repeated or consistent failures to meet SLA metrics. Contractor will provide Purchasing Entity with credit amounts or refunds in connection with downtime that was otherwise not agreed-upon. In the event that Purchasing Entity's access to the Cloud Solution falls below an agreed-upon percentage in any given month during the applicable term, in addition to other rights and remedies provided in the Agreement, Purchasing Entity may terminate the applicable Order or statement of work with no further liability to Contractor and Contractor will provide a pro- rated refund of prepaid fees to Purchasing Entity."

c. Section 19 (Business Continuity and Disaster Recovery) is hereby deleted and replaced with the following subsections:

"i. Upon request, Contractor shall provide a Disaster Recovery Plan and ensure that the Purchasing Entity's recovery time objective ("RTO") of 24 hours is met. Contractor and Purchasing Entity may agree in writing to a different RTO. In the event of a Cloud Solution failure, Contractor must ensure that Purchasing Entity's recovery point objective ("RPO") of 24 hours is met. Contractor and Purchasing Entity may agree in writing to a different RPO.

ii. Upon request, Contractor will work with the Purchasing Entity to perform an annual Disaster Recovery test and take action to correct any issues detected during the test in a time frame mutually agreed by Contractor and Purchasing Entity. If Purchasing Entity, in its sole discretion, designates the Cloud Solution as mission-critical: (1) Contractor shall review and test the Disaster Recovery plan regularly, at minimum twice annually; and (2) Contractor shall back up Purchasing Entity Data no less than twice daily in an off-site hardened facility located within the continental United States."

3. Following Section 7 of the Participating Addendum, insert the following new Sections:

8. Contractor Business Models; Roles and Responsibilities. Contractor may use one of three models, or a combination thereof, to provide cloud solution Products and Services to the State under this Agreement: (A) direct provision of Contractor's Products and Services, with or without Subcontractors, (B) offering of Fulfillment Partner Products and Services or (C) pass through of cloud service provider solutions. “Fulfillment Partners” or Authorized Resellers are available for this Participating Addendum if and to the extent approved by the State Chief Information Officer (each an “Authorized Reseller”). Any Authorized Resellers or Fulfillment Partners will be listed on the Contractor’s NASPO

Docusign Envelope ID: 326FFB82-238A-448A-B1E2-BA228D856591

ValuePoint Webpage listed above.

A. Regardless of the model used and whether prior approval is required or given, Contractor shall remain primarily responsible to the State for all Products and Services provided to the State under the Agreement including, but not limited to: (I) performance; (II) compliance with all of the terms and conditions of the Agreement and Participating Addendum and (Ill) compliance with the requirements of all applicable laws. Furthermore, Contractor's use of one or more Subcontractors, Fulfillment Partners, Resellers, or cloud service providers does not create privity of contract between any of the Subcontractors, Fulfillment Partners, Resellers, or cloud service providers and the State.

B. Contractor shall be responsible for successful performance and compliance with all requirements in accordance with the terms and conditions set forth by this Agreement and the Participating Addendum, regardless of who is providing or licensing the Product or performing the work.

C. Contractor promises that each of the third parties whose Products and/or Services are available for purchase under this Participating Addendum understand and agree that the terms and conditions applicable to their Products and/or Services are as set forth in the Master Agreement, as amended, and are subordinate to the terms of this Participating Addendum and the Agreement.

D. The Purchasing Entity does not agree to, and is not responsible for, any terms and conditions which it does not agree to in writing.

E. Contractor agrees that the Purchasing Entity will not be required to affirmatively accept additional terms and conditions to use or access any Product or Service purchased under this Participating Addendum, whether by electronic means (e.g., click-through) or otherwise. No click-through, or other end user terms and conditions or agreements required by the Contractor, Subcontractors, Fulfillment Partners, Resellers, or cloud service providers (“Additional Terms”) provided with any Products and Services hereunder shall be binding on the State as a Participating Entity, even if use of such Products and Services requires an affirmative “acceptance” of those Additional Terms before access is permitted.

F. Any external information incorporated by reference within any of the documents comprising the Agreement, including, without limitation, software license agreements or service level agreements, are subject to the terms and conditions of this Participating Addendum. In the event of a conflict, the terms of this Participating Addendum shall prevail.

G. Any reference in Contractor's documents to website URLs that contain additional terms and conditions are subject to the terms and conditions of this Participating Addendum. In the event of a conflict, the terms of this Participating Addendum shall prevail.

H. Contractor and Purchasing Entity may agree to the terms and conditions of Purchasing Entity's use of such products or services in the applicable Order or statement of work.

I. All orders must be placed with the Contractor and reference the Participating Addendum Contract Number and Contractor Name. All orders must include the following language: THE TERMS AND CONDITIONS CONTAINED IN THE PARTICIPATING ADDENDUM APPLY TO THIS PURCHASE AND TAKE PRECEDENCE OVER ALL OTHER CONFLICTING TERMS AND CONDITIONS, EXPRESS OR IMPLIED.

J. Contractor will be the sole point of contact with regard to Participating Addendum

Docusign Envelope ID: 326FFB82-238A-448A-B1E2-BA228D856591

contractual matters, reporting, and administrative fee requirements.

K. Notwithstanding any contrary language anywhere, in no event shall the terms of this Agreement or any document furnished by Contractor, Fulfillment Partner, Reseller, cloud service provider, or any third party in connection with performance under this Agreement obligate the State to (except to the extent as required by law): (1) defend or indemnify the Contractor or any third party, reseller, fulfillment partner, or cloud service provider; (2) otherwise be liable for the expenses or reimbursement, including attorneys' fees, collection costs or other costs of the Contractor, Fulfillment Partners, Resellers, cloud service providers or any third party; (3) constitute an implied or deemed waiver of the immunities, defenses, rights or actions arising out of State's sovereign status; (4) require the State to maintain the confidentiality of the Contractor, Fulfillment Partner, Reseller, cloud service provider, or any third party without regard to the laws of the State of Maine; (5) establish new or different payment obligations of the State than are established under the Agreement; 6) reduce or diminish the obligations regarding the security, confidentiality, and integrity of the State's data as are established under the Agreement; (7) establish rights in the use of, or access to, the State's data for any reason other than performance of the product or service; or (8) establish rights of ownership in the State's data.

L. The Contractor is required at all times to comply with all applicable federal and state and regulations.

9. Additional Terms and Conditions**.**

a. Information Security Policy and Procedures. All IT systems, solutions and applications developed by, or for the State must conform to the Maine Office of Information Technology's (OIT) Policies, Standards, and Procedures promulgated by OIT as they exist at the effective date of the applicable Order or statement of work. The terms and conditions of these Policies, Standards and Procedures are hereby incorporated by reference and made a part of this Participating Addendum as if attached herein and shall apply to the purchase of solutions, products or services made under this Participating Addendum as specified by an applicable Order or statement of work. Terms can be viewed on the Maine Office of Information Technology website (https://www.maine.gov/oit/policies-standards).

i. Contractor's delivery of cloud solutions, systems and applications that fail to conform to the applicable OIT Information Security Policies and Procedures, absent the State CIO's (or his/her designee's) grant of written permission, shall constitute breach of any Order or statement of work. The State may choose to require the Contractor, at its own cost, to re-engineer the non-conforming solution, system or application for the purpose of bringing it into compliance with OIT Information Security Policies and Procedures.

b. Confidential Information. Notwithstanding anything in this Agreement to the contrary, Contractor acknowledges that this Agreement and any and all information obtained by the State from the Party in connection with this Agreement are subject to the Maine Freedom of Access Act (1 MRSA §400 et seq.).

c. Generative Artificial Intelligence (Genai) Reporting. Upon request by the State, Contractor must complete a GenAI reporting fact sheet provided by OIT to identify if their solution or service includes, or makes available, any GenAI including, GenAI from third parties or subcontractors. During the term of the contract, Contractor must notify the State in writing if their services or any work under this contract includes, or makes available, any previously unreported GenAI technology, including GenAI from third parties or subcontractors. At the direction of the State, Contractor shall discontinue the use of any new or previously undisclosed GenAI technology that materially impacts functionality, risk or contract performance, until use of such GenAI

Docusign Envelope ID: 326FFB82-238A-448A-B1E2-BA228D856591

technology has been approved by the State. Failure to disclose GenAI use to the State and submit the GenAI reporting factsheet may be considered a breach of the contract by the State at its sole discretion and the State may consider such failure to disclose GenAI and/or failure to submit the GenAI factsheet as grounds for the immediate termination of the contract. The State is entitled to seek any and all relief to which it may be entitled to as a result of such non-disclosure.

i. The State reserves the right to amend the contract, without additional cost, to incorporate GenAI special provisions into the contract at its sole discretion and/or terminate any contract that presents an unacceptable level of risk to the State.

d. Cybersecurity and Prohibited Technologies. Through the execution of this contract, the Contractor certifies that the aforementioned organization, its principals and any subcontractors named in this Contract:

i. is not a foreign adversary business entity, https://www.maine.gov/oit/prohibitedtechnologies Title 5 M.R.S. §2021 (3); and

ii. is not on the list of prohibited companies or does not obtain or purchase any information or communications technology or services included on the list of prohibited information and communications technology and services https://www.maine.gov/oit/prohibitedtechnologies, Title 5 M.R.S. §2030-B.

Contracts entered into by a state agency in violation of Title 5 M.R.S. §2030-B are void. A person who executes this contract in violation of this section commits a civil violation for which a fine may be adjudged in an amount that is twice the amount of this contract or $250,000, whichever is greater, (Title 5 M.R.S., §2030-A).

e. Non-Appropriation**.** Notwithstanding any other provision of this Contract, if the State does not receive sufficient State, Federal, or other sources of funds to fund this Contract and other obligations of the State, if funds are de-appropriated, or if the State does not receive legal authority to expend funds from State or Federal legislative, executive or judicial bodies, then the State is not obligated to make payment under this Contract.

f. Tariffs**.** Any price increases implemented by the provider due to the imposition of tariffs shall remain in effect only for the duration that such tariffs are in place. In the event of the repeal or reduction of any applicable tariff(s), the provider shall immediately return to the original price list or make a proportional reduction in the price to reflect the decrease in tariff(s). Price adjustments under this clause shall be made in good faith and without undue delay upon confirmation via documents reflecting tariff changes.

4. NO CHANGE OTHER THAN AMENDMENT. Except as amended herein, all terms and conditions of the Participating Addendum shall remain in full force and effect.

5. SEVERABILITY If any term or condition of the contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law, the validity of the remaining terms and conditions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the contract did not contain the provision held to be invalid or illegal.

6. INTEGRATED AGREEMENT; MODIFICATION. This Amendment constitutes the entire agreement and understanding of the Parties with respect to the subject matter and supersedes all prior negotiations and representations. In the event of a conflict between the terms of this Amendment and any terms of the Participating Addendum, this Amendment will prevail with regard to the subject matter herein. This Amendment may not be modified except in writing signed by the Parties.

Docusign Envelope ID: 326FFB82-238A-448A-B1E2-BA228D856591

7. AUTHORITY. Each party to this Amendment, and each individual signing on behalf of each party, hereby represents and warrants to the other that it has full power and authority to enter into this Amendment and that its execution, delivery, and performance of this Amendment has been fully authorized and approved, and that no further approvals or consents are required to bind such party.

17. Laws and Regulations: Any and all Services offered and furnished shall comply fully with all applicable Federal and State laws and regulations.

The federal and state laws, regulations, policies, standards, and guidelines that Contractors doing business with the Participating Entities must be aware of, include, but not limited to: Criminal Justice Information Services (CJIS) Security Policy; Federal Educational Rights and Privacy Act (FERPA); Federal Information Security Management Act (FISMA); National Institute of Technology Standards; Gramm-Leach-Bliley Act (GLB) Act; Health Insurance Portability and Accountability Act (HIPAA); Health Information Technology for Economic and Clinical Health Act (HITECH); IRS Publication 1075; Payment Card Industry Data Security Standard (PCI DSS); Sarbanes-Oxley Act (SOX); Electronic Communications Privacy Act, Stored Communications Act and the PATRIOT Act. The list is intentionally United States-centric, and is not intended to be all-inclusive. Further, since laws, regulations, requirements and industry guidelines change, consulting definitive sources to assure a clear understanding of compliance requirements is critical. Many State Entities have additional program compliance requirements that must be considered in addressing compliance. (e.g., DMV Privacy Act, Public Service Law, etc.).

20. Participants and Scope

a. Contractor may not deliver Services under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.

d. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions.

e. NASPO ValuePoint is not a party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the NASPO ValuePoint cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states, the District of Columbia and the territories of the United States.

f. Participating Addenda shall not be construed to amend the terms of this Master Agreement between the Lead State and Contractor.

g. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the approval of participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.

h. Resale. Subject to any explicit permission in a Participating Addendum, Purchasing Entities may not resell goods, software, or Services obtained under this Master Agreement. This limitation does not prohibit: payments by employees of a Purchasing Entity as explicitly permitted under this agreement; sales of goods to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities under cooperative agreements and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this

The NASPO ValuePoint Administrative Fee shall be submitted quarterly and is based on sales of the Services. The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.

Additionally, some states may require an additional administrative fee be paid directly to the state on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee. The NASPO ValuePoint Administrative Fee shall be based on the gross amount of all sales at the adjusted prices (if any) in Participating Addenda.

28. System Failure or Damage: In the event of system failure or damage caused by Contractor or its Services, the Contractor agrees to use its best efforts to restore or assist in restoring the system to operational capacity.

1 Introduction

This document provides a general overview of the SAP Fieldglass security and hosting infrastructure. It is effective as of the revision date indicated below. However, as security needs continue to evolve, the specific information relating to the topics covered may be subject to change over time.

Security

The SAP Fieldglass solution was architected to be the most reliable and secure Vendor Management System available today.

SAP Fieldglass is proud to offer our customers, subject to review and acceptance by our audit partner, the following assurances:

- ISO 27001 certified since 2011
- SSAE 16/ISAE 3402 Type 2 SOC1 audits conducted since 2005
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
- Security – the system is protected, both logically and physically, against unauthorized access
- Availability – the system is available for operation and use as committed or agreed to
- Processing Integrity – system processing is complete, accurate, timely, and authorized
- Confidentiality – information that is designated as “confidential” is protected as committed or agreed
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Annual third party pen testing of our network and application

This document provides an understanding of how SAP Fieldglass handles the following areas across its global operations:

- Scope of Operations
- Security Management
- Application Security
- Physical Security
- Network Security
- Data Management

The terms "active" and "passive" designate which of the production hosting environments is being used as the primary (active) and which is being used as the backup (passive or disaster recovery). These designations are not static and SAP Fieldglass will occasionally fail over the active hosting environment to the passive hosting environment. This practice ensures that SAP Fieldglass is capable and ready in the unlikely event a disaster occurs and we need to fail over to the passive site.

1.2 Security Management

SAP Fieldglass' Security Team is responsible for implementing and maintaining the security controls to ensure that SAP Fieldglass information systems are secure. SAP Fieldglass has based its security program on industry standards and best practices. For our established datacenters, these practices are audited annually by a third party with results available to customers in October.

1.2.1 Security Policies, Standards and Procedures

SAP Fieldglass maintains a comprehensive set of policies that define the information security goals and objectives. Each policy may be supported by a standard that dictates the required security requirements to ensure the uniform application of technologies and processes.

1.2.2 Risk Management

SAP Fieldglass manages risk by the identification of threats and vulnerabilities to its information systems and through a control selection process. Controls selected fall into the following categories:

- Policy
- Physical and Environmental Security
- Organizational Security
- Communications and Operations Management
- Acceptable Use
- Access Control
- Third Party Access
- Information Systems Acquisition, Development and Maintenance
- Asset Management
- Incident Management
- Personnel Security

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

- Compliance

As an element of our ISO 27001 compliance, SAP Fieldglass conducts an enterprise-wide risk assessment. Key individuals from every department are interviewed so that risks can be identified. Risks are then evaluated and entered into a risk treatment plan. This plan is managed by the Security team with oversight by the Security Steering Committee. The Security Steering Committee meets on a quarterly basis.

1.2.3 Assessments

SAP Fieldglass periodically assesses the security controls to review the effectiveness of each control in addressing risk. If SAP Fieldglass' assessment suggests a need for changes, the baseline standard may be changed to include additional controls.

Internal Audit

SAP Fieldglass conducts quarterly internal audits for critical controls. Evidence is reviewed by our Sr. Compliance Analyst and a formal assessment report is prepared. Failed controls are made visible by this process so they can be remediated. Executive sign off on the internal audit reports is required.

External Audit

SAP Fieldglass also contracts with third parties on an annual basis to perform formal security audits on the following:

- ISO 27001 surveillance audit
- SSAE 16/ISAE 3402 Type 2 SOC1 audit
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
- Security
- Availability
- Processing Integrity
- Confidentiality
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Network penetration test
- Application penetration test

These assessments allow SAP Fieldglass to maintain an appropriate security posture in order to protect the company and its systems, as well as its customers' data.

We are currently working with our third party audit partner in bringing our EU datacenters into scope for our 2015 ISO 27001 audit and SSAE 16/ISAE 3402 Type 2 SOC1 and SOC2 examinations.

1.3 Application Security

Our application provides application-level security through a combination of encryption, page-level access checking, document envelopes, and activity logging. Application security is handled through a combination of programming checks, application server configuration, and database server configuration. SAP Fieldglass uses 128-bit SSL (HTTPS) encryption for all data transmissions over the public Internet, including data shared between the product and end users and data shared between the product and back-end systems.

Passwords are encrypted using a one-way hash with salt based on the SHA-256 encryption algorithm. The hash value is saved within the database; not the password.

The base SAP Fieldglass application does not require data that would require breach notifications if compromised. If the customer chooses to store sensitive data, custom fields may be defined by the customer that can be encrypted with AES-256. These fields can also be optionally masked from view while entering and viewing the fields in the application.

1.3.1 Encryption

By default, the application utilizes SSL encryption for all data transmissions over the public Internet.

In addition, the SAP Fieldglass hosted application encrypts sensitive data stored on the database so that only properly authorized users (or systems) will be able to decrypt the data. Because no state information is stored on the application server, in the unlikely event of unauthorized access to the database, the sensitive data is still encrypted.

1.3.2 Database Segmentation

SAP Fieldglass is a SaaS and utilizes a multi-tenancy database. Each customer is assigned a unique company code. Every record written to the database is keyed using this company code. After a user authenticates into the system, a session ID is generated which holds vital information about the user including their company code, user role, and data visibility restrictions. The session ID is cached server side to eliminate any ability for a malicious user to modify its contents.

1.3.3 Document Envelopes

Throughout the system, there are a number of events that generate “documents.” These are digital representations of their real-world counterparts. For example, job postings, work orders, time sheets, and invoices are all represented in the system as documents.

Each document in the system has an accompanying digital envelope that stores all access to that document. For example, when a job posting is created, an envelope entry is added for creation that records the date, time, and person. When it is submitted, another entry is added recording the date, time, and person.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

1.3.4 Page-Level Access Checking

The application has been designed so that every single web page checks for access rights before displaying itself. Additionally, each page performs a second check to ensure that an authorized user will only have access to those data elements and functionality that has been expressly authorized by the system administrator.

The post-authentication session ID that is generated and cached server-side is validated prior to showing each page. SAP Fieldglass stores a non-persistent cookie in the browser and compares back to the server-side session ID. If they no longer match due to malicious activity, the user is redirected to a "You are not authorized" page.

Authorization is handled through the use of user-defined User Roles. User Roles provide the customer, through its designated administrators, the flexibility to specify the type of access given to a member of that user group based on the definitions configured by the administrator. The User Role controls what areas of the application are accessible to the user group and what actions they can perform in those areas (e.g. job posting create, time sheet approve, etc.).

1.3.5 URL Encryption

SAP Fieldglass does not pass any sensitive data in its URL query strings. Parameters that are used to identify users in the system are protected by anonymizing the field variable and then encrypting the associated value using AES-256.

1.3.6 Activity Logging

As users access the system, all of their business significant activities are tracked and logged including failed login attempts, successful logins, approvals, submissions, etc. This activity log provides a full audit trail of what actions a particular user performed within the system and the timestamp as well.

1.3.7 Application Testing

Upon request, SAP Fieldglass will provide customers with a sandbox environment where system testing can occur outside of production. This is useful when testing out configuration changes, new integrations, and/or new reports prior to making the changes live in the customer's production instance.

Upon request, customer's data can be anonymized. SAP Fieldglass has the ability to scrub the data such that it is unrecognizable. Data element replacement is accomplished by an automated SAP Fieldglass utility that replaces the customer's company code, user names, business units, cost centers, and sites from a store of random variables. Any or all of these elements may be chosen for replacement.

Sensitive data that has been designated by the customer to be stored in the SAP Fieldglass application is encrypted with AES-256. The encryption and decryption keys are different between production and test environments and are different between the US and EU datacenters. These keys are stored in the corporate password vault and are accessible only by the Database Administrators and the Lead Architect.

Once customer testing has been completed, the Environment Management team (a team within Professional Services) destroys the environment. The database is purged and the VM is returned into circulation.

1.3.8 Password Management

The SAP Fieldglass application provides each customer the ability to define a Password Policy. This policy contains custom-defined password rules that each user in the customer's instance must adhere to. The policy provides 20 different password rules such as minimum length, user lockout preference (hard lockout vs. time-based reset), days to expiration, minimum password age, etc. Also included is the ability to specify a regex pattern(s). This pattern dictates the password value syntax that each user must follow.

When customer chooses to use a test instance ("sandbox"), all user password values remain unchanged from their production values. All passwords and visibility restrictions remain unchanged to ensure that users in the test instance are not able to gain access to data they're not privileged to see in production. Also, the password policy that is enforced in in the production instance is also enforced in the test instance.

New user invitations are sent via email. Recipients enter their 1-time passcode and are then forced to specify a new password that complies with the customer's password policy rules. User invitations expire after 21-days.

1.3.9 Email Approvals

In order to better support our growing mobile workforce, SAP Fieldglass offers customers a supplementary method for approving their work items. Via email, approvers are able to submit their approval or rejection response by simply replying to the approval work item that was sent to them. This method has been proven to reduce approval cycle times by several days since the approver does not have to be in the office. This feature has been architected with the following security controls:

- Only the original recipient can approve/reject the work item. If the recipient forwards the email to another person, the system will not accept the response.
- Email spoofing is not a risk. A unique ID is generated for each approval request. This unique ID along with the person ID of the intended recipient is stored encrypted with AES-256. So even if the email address sending the approval/rejection response is legitimate but the sender is not, the system will detect this anomaly and not accept the response.
- A SAP Fieldglass approver can identify another user as their Proxy and/or Delegate when they will be out of the office and unable to handle the approval requests. By design, neither of these roles receive approval work items via email. So only the original recipient can ever submit an approval/rejection response via email.
- If the customer created custom fields where sensitive information is stored encrypted, those fields and associated values are not allowed to be selected for inclusion in these email approval notifications.
- The system audit trail is updated with all user actions including approval/rejection activities via email. This audit trail is accessible by privileged customer users and can be used to monitor user activity.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

In order to compromise the security of our email approval feature, a malicious user would need to hack into another user's email account, locate the SAP Fieldglass approval request email, and then submit the approval/rejection response.

1.3.10 Application Penetration Testing

SAP Fieldglass uses a combination of manual and automated testing to ensure the application is secure. Various automated commercial tools are used prior to each major release of the SAP Fieldglass system (three times per year).

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services against our application. This is in addition to SAP Fieldglass' own internal penetration testing efforts.

SAP Fieldglass has several test environments available for customers to conduct their own application penetration testing if requested.

1.4 Physical Security

The SAP Fieldglass data center provides physical security through its secure hosted facilities. The application is hosted within a secure unmarked cage. SAP Fieldglass manages everything from the cage in. Meaning, SAP Fieldglass manages all servers, devices, and software in the cage. The hosting provider provides physical security, internet connectivity, and HVAC.

1.4.1 Internet Data Center Construction

Exterior perimeter walls, doors and windows are constructed of materials that afford UL Standard #752, Level V Ballistic Protection.

1.4.2 Access Control

The data center uses an Access Control System (ACS), which supports a networked card reader and alarm system. The ACS uses proximity card readers to control access into perimeter doors, shipping/receiving areas, storerooms and other areas. Biometric hand scanners are installed to control access into the network control center, telecommunications node room and customer vaults. Additional access control measures include:

- Designated with signage as controlled access areas
- Areas within the internet data center are designated as restricted
- Access into the internet data center and restricted areas is controlled by biometric hand scanners, and is limited to authorized personnel
- Card access badges or contractor/visitor badges are required to gain entry
- All employees, customers, vendors, contractors and visitors must be sponsored by a facilities pre-approved sponsor to gain access
- Visitors are escorted at all times within the controlled access area perimeter

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

1.4.3 Man Traps

The system includes the following key features:

- Anti-passback
- Integrated metal & explosive detection
- Video monitored / recorded
- Two-way intercom audio to Security Control Room
- Level V ballistic protection
- Weight sensors limit entry to one person at a time (no tailgating)
- ADA compliant
- Intrusion / tampering alarm monitoring by Security Control Room
- Integrated card access & biometric access control systems limits access to persons verified by hand geometry
- All systems are supported by redundant power management system (generators).

1.4.4 Key Control

Facilities security staff is the custodian of all security and cage keys. These keys are maintained and tracked through a comprehensive issue, retrieval, audit, and storage process. The listing of all customers, customer employees and cage assignments is updated in real-time maintained to ensure that cage access is restricted to authorized personnel.

1.4.5 Alarm System

The ACS is used to monitor and log security alarms. The ACS monitors all:

- Perimeter doors
- Restricted Area doors
- Shipping / receiving doors

1.4.6 Closed Circuit Television System

Facilities employ an extensive closed circuit television system to monitor the exterior and interior of the internet data center. Exterior cameras provide views of critical support equipment and perimeter doors. Interior cameras are positioned to monitor all internet data center aisle ways, requests for entry and entry into the internet data center, shipping / receiving areas, high-security vaults and the internet data center lobby. All cameras are recorded on digital video recorders 24 x 7.

1.4.7 Background Checks

SAP Fieldglass requires background checks be performed at the time of hiring on all personnel. These background checks are performed by a nationally recognized third party company. SAP Fieldglass initiates the background check request for all potential employees and independent consultants. If the independent contractor is placed through

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

an agency, the agency will conduct a background check and confirm with Human Resources whether the results were completed with/without discrepancies. If the independent contractor is placed directly, SAP Fieldglass will conduct the background check.

Background checks include the following:

- Social Security Trace
- Statewide & National Criminal Report (7 years)
- Sex Offender Registry & Terrorist Watch
- Compliance Authorities Database Checks – Global (OFAC level verification)
- Education verification
- Employment verification (7 years)
- Global Sanctions & Prohibited Parties
- Credit (only for specific finance roles)

1.4.8 Hosting Facility Security Personnel

The security office duties include:

- Response to calls for assistance
- Security facility inspections
- Fire and safety patrols
- Shipping / receiving security
- Physical security audits and assessments

1.5 Network Security

The SAP Fieldglass network infrastructure includes redundant components, firewalls, and 24/7 monitoring.

1.5.1 Redundant Components

Most network components are internally redundant. For example, routers have redundant power supplies; servers have redundant drives, power supplies, and NIC cards. Additionally, all network components are redundant to provide redundancy and security in the event of a component failure.

1.5.2 Private Virtual LANs

The application network architecture has been designed with multiple private virtual LANs using redundant Cisco routers. Every major network layer is placed on its own virtual LAN with rules about which protocols and ports are accessible.

1.5.3 Firewall

SAP Fieldglass has implemented dual-vendor redundant firewalls between the public internet and the SAP Fieldglass private network, as well as between each virtual LAN. This

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

firewall has been configured to enforce protocols and ports that are able to cross LANs with a default deny stance.

1.5.4 24/7 Monitoring

SAP Fieldglass provides 24/7 monitoring of suspicious activity. Any failure is promptly reported and, after an initial analysis, escalated to the next appropriate level.

1.5.5 Enterprise SIEM

Our security incident and event management (SIEM) tool has been configured to collect logs and events from all systems and devices within the SAP Fieldglass network. Forwarders are used to collect, filter, normalize and forward relevant data to an Indexer. Each installation listens for Syslog data and actively pulls WMI information from its respective environment. Security related issues are monitored and alerted on where required.

1.5.6 Network Pen Testing

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services on our network.

1.6 Data Management

1.6.1 Data Backups and Replication

SAP Fieldglass has a highly available backup solution that guarantees data can be restored as expediently as possible. Our solution performs a continuous replication of data to our passive production hosting facility. SAP Fieldglass takes incremental SQL backups every 15 minutes and full backups on a nightly basis. Backups are transferred to the passive production hosting environment over a secure channel. SAP Fieldglass' solution offers continuous protection of customer data geographically without imposing performance degradation or scaling limitations. Data is encrypted both at rest and in transit with AES-256.

Data backups and replication are performed between the active and passive production environments. The US-based active production environment replicates data to the US-based passive environment. Likewise, The EU-based active production environment replicates data to the EU-based passive environment.

Also refer to section 3.1 Disaster Recovery.

1.6.2 Data Archiving

Data is archived throughout the year. Eligible transactional and reporting data are moved from the active database to an archive database after 24 months. Archived data can be accessed only by customer users with a user role of Administrator. Archive data is accessed using the same login screen and user interface that is used to access current data. Reports can also be generated using archive data from the standard interface.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

The criteria for archiving data are as follows:

- Data remains in the active database for 24 months, at which point eligible data is moved to the archive database.
- Data remains in the active report database for 24 months, at which point eligible data is moved to the archive report database.
- Archiving begins with the worker. When a worker's end date is more than 24 months old, the worker and all associated data including the worker's work orders, job seeker record, job posting, time sheets, expense sheets, and payment-related items such as invoices are archived.
- The archive process is run as a batch job on a weekly basis to move data from the active databases to the archive databases.
- Data cannot be moved back from the archive database to the active database.

SAP Fieldglass does not delete data from its archive databases and has data older than 7 years. In the future, if SAP Fieldglass decides to delete archived data, we will ensure that a minimum 7 years of data is retained.

1.6.3 Data Deletion

Data deletion occurs only when required by a customer. SAP Fieldglass' data deletion capabilities allow customers to remain compliant with data privacy, data protection, and other related data directives.

- Deletion logic is based solely on a customer's business requirements. A custom script is developed by SAP Fieldglass.
- Results are verified in a non-production environment by both SAP Fieldglass and the customer prior to executing in production.
- A "Preservation" flag is available for use. Customers can set this flag on any data to override logic that would otherwise delete the data. This is useful during times when litigation or eDiscovery efforts are in progress and certain data must be preserved.
- Script execution frequency is determined by the customer.

SAP Fieldglass is contractually obligated to retain at least 7 years of data for customers.

1.6.4 Data Usage

Customer data is required in non-production environments for various reasons:

- Second level help desk support for customer defect investigation and resolution.
- Supporting customer requests for updating data, whether it be for desired changes or corrections for data modified by the customer in error.
- Customer sandboxes – these are non-production environments configured only with the customer's data (customer's data is "sliced" out from the multi-tenancy production database). These sandboxes are required for many

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

reasons, including testing of new or changed integration connectors, reports, and/or application configuration changes such as revised approval workflows. New application features can also be turned on and reviewed in the sandbox before turning on in the live production instance.

- Any data deletion scripts that are developed between the customer and SAP Fieldglass must be tested in a non-production environment prior to executing in production.
- Customer Preview testing – this is an opportunity for customers to gain early access to a future upgrade of the SAP Fieldglass application. This allows customers to gain confidence that the system is working as expected prior to the release date. Customer participation is optional.
- SAP Fieldglass regression testing – the SAP Fieldglass application is offered in a Software as a Service (SaaS) model. One of the services we provide is testing of the application prior to each production release. To ensure a customer's configuration, integrations, and reports are working as expected with the new codebase, SAP Fieldglass Quality Assurance uses a scrubbed production copy of the database in our regression testing. Regression testing is where we execute test cases against the current production codebase and the future codebase using a common data input. Output files from each test are compared to ensure any changes are expected.

Customers may opt out of this process. However, all responsibility in ensuring the customer's SAP Fieldglass instance is properly working and maintained is transferred to the customer.

To date, all SAP Fieldglass customers have declined to assume this responsibility.

1.6.5 Data Scrubbing

In order to properly service our customers, access to production data is required. All customer data is classified as Confidential. SAP Fieldglass takes every possible precaution to ensure data is protected from unauthorized access and misuse.

Data is protected in the following ways:

- First names and last names of buyers, suppliers, and workers are anonymized by replacing with a test value.
- Email addresses of buyers, suppliers, and workers are changed to a single false email address such as qatest8@SAP Fieldglass.com which is configured to automatically purge all email sent to it.
- Buyer and supplier company names are anonymized.
- Any custom fields created by the customer remain unchanged. Custom fields that contain sensitive data are encrypted with AES-256 and optionally display masked when entering and displaying values in the user interface. There is no way to decrypt these values since the decryption keys between production and test are different. Keys are stored in the corporate password vault and

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

access is limited to only select senior members of the technology team. This access list is reviewed quarterly by the internal audit team and by a third party in our annual SSAE 16 / ISAE 3402 Type 2 SOC1 and SOC2 audits.

The data scrubbing process is:

- A backup of the data is taken at the location where the source database resides
- Data is filtered where only the most recent 3 months of data remain
- Data is scrubbed as described above
- Data is then securely transferred from the production system to the test system

Once scrubbed, all personally identifiable information (PII) has been removed and any sensitive custom field data cannot be read.

Our test systems reside in secure third party data centers with the same controls as our production data centers.

1.6.6 Data Access

Direct access to production data is required in specific cases. Access is provided based on business need and not by role alone. Access reviews are conducted monthly and reviews are subject to recurring quarterly reviews by the SAP Fieldglass internal audit team. Executive review and sign off is performed for all quarterly reviews.

Access is required for the following puposes:

- Professional Services Data Services team – this team receives a customer's master and/or worker data and executes data uploads into test and/or production environments. Once the data are successfully uploaded and customer has signed off on the accuracy and completeness of the upload, the data are destroyed.
- First level help desk – when customers call our help desk, the caller may require the help desk agent to to view data or log in as the caller in order to help them with their problem. This is only performed when authorized by the caller.

Merlin-IT Hungary Information Technology Services Kft. Vagohid u. 2., 4034 Debrecen, Hungary	Merlin Information Systems Philippines Inc. 6th Floor C ommerce and Industry Plaza Building, McKinley Hill Cyberpark, Taguig City, Philippines

The SAP Fieldglass Security team conducted an onsite security audit in 2014 at Merlin Hungary. Contractually, Merlin must meet SAP Fieldglass' security requirements. The following security controls are in place:

- Help desk agents are not able to cut/paste using their secured workstation.
- External media including any USB drive is disabled.
- Printing is not supported.
- Help desk agents have been background checked by Merlin using SAP Fieldglass' background check requirements (see section 1.4.7 Background Checks).

1.6.7 Data Loss Prevention

Our DLP solution has been installed and configured for use on devices subject to exposure to sensitive information. It has been implemented to guard data at its endpoints and to ensure leakage of information classified as Confidential does not occur. Policies can be pushed from the central management console or pulled from an individual endpoint client. Client installs are configured to update (pull) policy changes every 90 minutes.

Our enterprise SIEM tool is configured to pull data in real time from the DLP database. Dashboards are created to allow quick overviews of agent statuses/details, alert details, and logging details.

The SIEM is configured to notify the Security Team in real time when an alert is detected. The Analyst then logs into the SIEM and investigates the alert to determine whether it's legitimate or a false positive.

1.6.8 Customer Termination

If a customer were to terminate their contract with SAP Fieldglass, the customer's data could be sliced out of the production database and delivered to the customer on a media of their choice. The size of the data will determine what media is appropriate.

2 Release Management

2.1 Release Management Process

The SAP Fieldglass Release Management team is responsible for the management of all delivables required in upgrading the production SAP Fieldglass system. This team is comprised of key members from the Development, Quality Assurance, Product Management, Professional Services, and executive teams. SAP Fieldglass customers benefit from our release management in that the release deployment schedule repeats itself year over year; releases are deployed over the same weekends of predetermined months.

SAP Fieldglass has several different release types:

Major Releases

In the US, Major releases occur on the second Fridays in March, July, and November. In the EU, Major releases occur on the third Fridays in March, July, and November

These releases can include new product features, new or changed functionality, user experience enhacements, and changes to the user interface. These are our most formal releases and the only type of release that requires an extended maintenance window. The Release Manager and the Release Management team closely monitor all phases of the Software Development Lifecycle and analyze PKIs at each phase transition. Release notes are provided as well as an opportunity for customers to optionally participate in a customer preview opportunity. This is where users can log into a non-production environment that is running the future codebase. The benefit of participating is that customers can gain confidence the system is behaving as expected prior to the official release date.

Minor Releases

Minor releases occur on the second Fridays in January, May and September.

These releases do not require the formalities of major releases. This type of release is used when deploying customer-specific product features and integrations to production. These releases are deployed to both US and EU customers at the same time.

Service Packs

Serivce packs are deployed as required to resolve product defects. These releases are deployed to both US and EU customers at the same time.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

All releases are deployed to production by a central deployment team located in the US. During the deployment process, the codebase is replaced with the new codebase and data transformation scripts are executed. During this process, customer data is not viewed or accessed. Upon completion of the deploy, the Quality Assurance team executes a post-deploy verification checklist to ensure the system is ready for general availability. One such verification is verifying an MD5 hash to ensure the certified codebase was installed in production without modification. Test companies are used in conducting all testing.

3 Disaster Recovery and Business Continuity Plan

3.1 Disaster Recovery

SAP Fieldglass maintains a disaster recovery plan with backup, hardware repair, and data restoration, along with the ability to bring up the SAP Fieldglass application at a hot backup site in the event of a declared disaster (as described in the SAP Fieldglass disaster recovery plan) where the primary site is destroyed or disabled. This plan is tested on a yearly basis. Lessons learned are recorded in the test results and the plan is adjusted and improved accordingly.

SAP Fieldglass has the concept of active and passive production hosting facilities. The active environment is the live production hosted facility that all SAP Fieldglass users are actively using. The passive environment is a hot production hosting environment. Our data replication solution ensures that the passive environment is ready at anytime to be failed over to. In a disaster scenario, SAP Fieldglass changes the DNS to the passive hosting center's set of IPs. Users are then seamlessly routed to the other datacenter. There is not multi-day data migration that has to occur due to the ongoing data replication that is in place.

SAP Fieldglass proactively conducted a datacenter failover from the active datacenter to the passive datacenter in April 2015. The entire failover process was conducted in just over 8 hours with zero data loss. SAP Fieldglass plans to repeat this proactive datacenter failover between 1 and 3 times per year.

Also refer to section 1.6.1 Data Backups and Replication.

3.2 Business Continuity

The primary objective of our business continuity plan (BCP) is to enable SAP Fieldglass to recover all functions within their respective Recovery Time Objectives (RTOs) after any type of disruption occurs which prevents SAP Fieldglass personnel from engaging in ongoing business operations. A Recovery Point Objective (RPOs) has also been defined to identify our tolerance for any data loss. This Plan is designed to support the employees responsible for leading recovery efforts to enable SAP Fieldglass to resume daily operations following a disruption.

A business impact analysis (BIA) has been developed to fully quantify and prioritize restoration of mission-critical processes.

Security Policies and Procedures

I. Virtru

Virtru may be referred to as "**Company**."

A. Document control

A staff copy of this document is available with the Information Security Officer (ISO), Will Ackerly, willackerly@virtru.com (202) 577-3683, and Assistant Information Security Officer(AISO), Jordan Duggan, jordan@virtru.com (202) 577-3683.

B. Security Document Library

These policies and procedures and related security practice information will be kept in our **Security Documentation Library** (SDL). The **SDL** is located in google drive and backup to the Synology NAS.

Documentation about security practices (logs of activities, etc.) will either be kept in this SDL (or Notebook) or in a short file in the SDL that will describe where the security practice documentation resides. The intended result is that anyone with access to the SDL will be able to locate any piece of documentation associated with our security program.

Outdated and superseded materials from the SDL will be kept in an archive (the Security Documentation Archive) for at least seven (7) years after the date when they are first outdated or superseded.

II. Preface and Background Material

A. Overview

It is vital to the reputation and profitability of **Virtru** that our information and our clients' information, in all forms, be protected from unauthorized use, modification, loss, copying, etc. This document sets out the default standards, which must be met to ensure that control.

Our information may exist on paper, in voice systems, on IT systems and networks, in the minds of our people, and in other forms. The information which needs protection includes, but is not limited to:

1. Client information (both for customer companies and for people as individuals)
2. Financial information, including credit cards, salaries, banking, transactions and more
3. Medical information of all types
4. **Company** patents, business plans and other intellectual property

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

5. **Company** business records and planning materials, including our customer list, marketing and sales efforts, product line plans and more
6. Copyrighted materials, both which our **Company** creates and those which we obtain under license from others

B. Policy

Compliance with these standards is mandatory. Any deviation from these standards must be approved beforehand by the ISO.

III. Key Concepts

A. Information Security Principles

The protection of information can be described in several key dimensions:

1. Confidentiality
2. Integrity
3. Availability
4. Provability

In this document, the standards given are the **Company** defaults. They must be applied where appropriate, but always balanced against the cost of implementing the control, and the value of the information involved.

B. Definitions

To prevent confusion, these are the definitions used throughout this document.

Policies: Corporate documents which set out **Virtru's** position regarding business processes, behavior of personnel and similar topics. Policies are a high-level statement of **Virtru's** position. Some of **Virtru's** policies, which relate to information security are:

1. Information Security Policy
2. Privacy Policy
3. Acceptable Use Policy for IT Systems Users
4. Employment Policies

Standards: Rules that must be followed to enable an effective information security program. Compliance with the Standards is mandatory, but deviation is possible if approved by the ISO.

Standards define the minimum baseline procedures, practices and configurations for systems, applications, controls, networks and related topics. Standards are designed to provide a single reference point for use during software development and adoption,

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

installation of systems and tools, and during the contracts process with vendors and service providers. Standards do not, however, give detailed command-line instructions on how to meet the **Virtru's** policies. Those are given in the guidelines.

Guidelines: Built for each application and platform; to be followed when implementing that particular tool. A Guideline may vary a bit from one implementation to another, as long as the Security Standards are met and justification is given and properly documented.

Combined, these three levels of documents provide a method for **Virtru** to audit itself and ensure proper controls are in place, without excess cost or risk. They also provide a means for **Virtru** to explain to regulators, examiners, external auditors or investors how our **Company** is safe, trustworthy and efficient.

IV. Using These Standards

A. Audience – Who will use this document

This document applies to **Virtru's** employees, business units and any Business Associate Subcontractor supporting **Virtru**:

1. Technology and business process providers should comply with these Standards as a matter of contractual obligation
2. Employees and Business units within Virtru should comply, unless a Risk Assessment has been done and a deviation is approved by the ISO

B. How the document is used

This Standards document is a reference point to ensure a consistent framework of protections is in place. Implementing these standards involves:

1. Review of existing controls, procedures and tools against the Standards
2. Documenting compliance or deviations
3. Gap Analysis to determine where improvements are needed
4. A Risk Assessment to validate that the improvements are justified against the costs of the controls and the value of the information involved
5. Creation of a plan to close the gaps OR signoff of a deviation
6. Documentation of the new controls, procedures and tools

No signoff or approvals are needed if a level of protection higher than what is given in this Standard is determined to be needed for a given information asset.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

C. Maintaining this document

This document must be reviewed at least once a year or anytime there are significant changes in software or security. Updates must be made to keep it in accord with **Virtru's** overall business goals and risk position. The document will be reviewed by the ISO or AISO. Any updates, improvements or suggestions should be sent to the ISO.

V. Roles and Responsibilities

A. Rules for ownership of information

The information and systems provided by **Virtru** to workforce members, contractors and representatives are owned by **Virtru**, which also determines appropriate usage and access rules. All data on **Virtru's** systems and networks is owned by **Virtru**, with the exception of software that the ISO has approved to be open sourced or otherwise transferred to another entity through code escrow or code exchange and/or trade.

In this document, the words 'information owner' refer to the person who owns the responsibility for the information. The information itself remains the property of **Virtru**.

B. Information users

Every user of **Virtru's** information must protect that information and ensure that it is used for **Virtru's** business purposes only. Any incidents or questionable issues in the security of our information must be reported to the ISO or AISO.

Information users may not assign access rights, authorize destruction or copying of information, or change the protections given to information assets. Information users must comply with all laws, regulations and **Virtru's** policies and procedures.

C. Information Security Officer

Virtru's ISO and AISO will:

1. Manage awareness programs relating to security and privacy topics
2. Maintain a central record of exceptions to this Standards document
3. Manage changes to this Standards document
4. Provide leadership relating to new security risks, controls and technologies
5. Oversee and approve the sharing and reuse of Personal Identifiable Information (PII) collected by or processed by the company

See Appendices for further information and *Information Security Committee* for a current listing of members.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

VI. Information Classifications and Requirements

A. Overview

Information is classified by system to ensure that the controls applied to it are sufficient and also to ensure that the controls applied do not impair **Virtru's** business, ability to compete or **Virtru's** image.

All information must have a classification for security and must have requirements set for business continuity.

B. The Security classification process

Each information asset will go through the following classification process. Information assets include, but are not limited to:

1. IT platforms such as servers and workstations
2. IT applications including database transaction processing and email
3. Data sets
4. Paper copies of information
5. Information types typically known to workforce members, such as customer information

In general, an information asset includes both the raw information itself (paper, oral or data entry), the location where it resides, the business processes which handle it and the systems and tools that handle it.

Information assets will also be reviewed during:

1. Development, acquisition or deployment of software
2. Connections of computers or networks to outside systems or networks
3. Granting of access to any outside organizations

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to the Company's business.

C. The classes of information for Security and Privacy

This policy applies to all workforce members, management, contractors, vendors, business partners and any other parties who have access to Company or client data.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Data Types

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to **Virtru's** business. **Virtru** deals with two main kinds of data:

1. **Company-owned data** that relates to such areas as corporate financials, employment records, payroll, etc.

2. **Personally Identifiable Information (PII)** that is the property of our clients or workforce members, such as Protected Health Information, social security numbers, credit card information, contact information, etc.

D. Setting requirements for business continuity

The requirements for an information asset relating to business continuity are not set by classification, but are specific to that asset. They include:

1. Required uptime for the information asset
2. Required restoration time if the data must be restored
3. Required frequency of backups
4. Requirements for storage of backups
5. Requirements for testing of the recovery process

The default requirements for business continuity are listed in the information handling rules' section. See *Handling rules for the information classifications* in this document and *Disaster Recovery Plan* for detailed information.

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

E. Enforcement

It is the responsibility of everyone who works at **Virtru** to protect our data. Even unintentional abuse of classified data will be considered punishable in accordance with the extent and frequency of the abuse.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

VII. Handling Rules for the Information Classifications

A. Overview

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

B. Inventory of Information Assets and Electronic Asset Management Log

An inventory is maintained of all significant information assets belonging to, or used by **Virtru**. This inventory includes:

1. Serial numbers/license numbers
2. MAC Addresses
3. Model
4. Device Type
5. Manufacturer
6. The information owner
7. Username
8. Location
9. OS Version
10. The custodian of the information and repository location (database, file cabinet, etc.)
11. Purpose in our systems
12. Asset value in dollars or other suitable measurement
13. The sensitivity of the asset, due to regulations, laws, customer expectations or other requirements
14. Requirements for the asset regarding availability, uptime, etc.
15. Contact information for one or more parties who can repair, restore, replace, or recover this asset. Examples are hardware/software vendors, IT support vendors, and/or staff members

This asset list contains information that is restricted to executives and super-admins, and therefore is stored securely on the Synology NAS, which itself is backed up to AWS Glacier.

This inventory will be reviewed and updated quarterly, or as new assets and devices are added. Logs are maintained as the *Inventory of Information Assets Log* and the

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Organizational Chart/Electronic Asset Management Log. A current copy of this inventory will be kept at a separate location as described in our *Disaster Recovery Plan.*

C. Rules for access to information assets

If any given security incident involves a breach of Personally Identifiable Information (PII), the ISO will follow our security policies and *Incident and Breach Policy* for handling such a breach.

If a security incident includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the client to notify affected persons of this event, in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

VIII. Access Control Policy

A. Overview

This policy defines how **Virtru** manages access to electronic information and systems. **Virtru** provides access to electronic data relative to the workforce member's job requirement. We limit access to categories of data and systems that each person needs to do his/her job. We require that each workforce member restrict his/her access to only those specific records and functions needed to carry out his/her job. For the purposes of this policy workforce members are anyone in **Virtru** who has access to Personally Identifiable Information (PII).

B. Access levels

The ISO will qualify the workforce member to have one of these forms of access based on the job role (in order of increasing access permissiveness):

1. Low Access to Corporate Email and Salesforce Data
2. General Access to product metrics
3. Admin Access to all front end products as well as product metrics
4. Super Admin Access to all front and backend products as well as product metrics

The access will match the person's job responsibilities The ISO will keep a record of the type of access provided to each workforce member. The record will include a date and justification and will be kept in our *Employee Access Request Log* in the **Security Documentation Library.**

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

The granting of access to Business Associate Subcontractors will be done in the same way as it is done for workforce members.

C. Granting access

The ISO will provide accounts with the matching technical privileges and give the workforce member the account information including a one-time-use password that the user must change to a private password upon first use of the account.

1. Only the person assigned to an account will be allowed to use that account.

2. Each time a user logs in to a system, a log will be maintained by that specific program with the following information
    a) When the user accessed the system
    b) What information the user accessed while in the program
    c) Tracking will be done by using the User ID and IP Address
    d) The ISO will maintain this log for a period of 1 year

3. The ISO and AISO will each have a special account that allows them to create new accounts. The accounts will be used:
    a) In an emergency when all other accounts have been disabled or locked out;
    b) To either reset the passwords on locked accounts; or
    c) To create new accounts that provide needed access.

4. When a change in the role of a workforce member requires a change in access privileges, the ISO will reassess the needs and provide new access privileges based on the policy in Access Levels in this section.
    a) If a workforce member leaves **Virtru**, the ISO will remove that member's access as soon as the access is no longer needed.
    b) If a workforce member takes a leave of absence and is not expected to require access, the ISO will disable the workforce member's account when he/she leaves and re-enable it upon his/her return to work.
    c) For other people who work around protected electronic information but are not qualified to access it, the ISO will decide which of the following two steps to take:
        1) Train the person to understand his/her responsibilities
        2) Supervise while he/she is exposed to the data
    d) For cases in which the provision of individual accounts is not feasible {e.g. access by any one person of a large help desk staff of a vendor}, the ISO will make:
        1) A serially reusable account and provide a one-time-use password to the vendor's representative for each time that access is needed; and

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

2) The password will be changed by the ISO on the account after each use of the account to a value not known to the vendor.

D. Vendors, contractors and other outsiders

Any outside organization that wishes to gain access to our or our client's Private/Internal, Confidential or Protected information must:

1. Sign a Business Associate Subcontractor Agreement; AND
2. Be willing and able to show that their privacy and security controls are at least as stringent as **Virtru's** controls.

See *Business Associate Subcontractor Agreement* for details of Agreement.

A written history of incidents reported by Business Associate Subcontractors (BAS) will be maintained. If the ISO becomes aware of a pattern of activity in which the BAS is not carrying out the contractually required safeguards, then the ISO will do one of the following:

1. Attempt to remedy this failure
2. Terminate the contract, if attempt to remedy is not feasible
3. Report the situation to the U.S. Secretary of Health and Human Services, if terminating the contract is not feasible.

If any given security incident involves a breach of Personally Identifiable Information, the ISO will follow our privacy policies and incident management plan for handling such a breach.

If a security incident reported by a BAS includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the BAS to notify affected persons of this event in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

E. Individuals

Individual persons who work for such an organization must also be bound to the outside organization's controls. Such individuals must:

1. Have Business Associates Subcontractor Agreement with their own company; OR
2. Have a contract with their company; AND
3. Have appropriate background checks and bonding in place.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

F. Policy

Virtru will not knowingly accept any confidential information belonging to third parties until that information is reviewed against our protections and the appropriate agreements put into place and signed by the information owner. The agreements should include all requirements for controls over the third-party information and the processes to be followed.

IX. Rules by Data Classification

A. Public/unclassified data

This type of information does not require special marking or storage, except to ensure that it is available when needed. It does need to be kept safe from unauthorized modification.

B. Private/internal data

Access is granted on a need-to-know basis, as authorized by the manager of the user of the information. Some types of jobs are automatically granted access to data in this class.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known printers located in secure areas on secure networks.
2. Encrypting or physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

This class of information is not released to anyone outside **Virtru** without a non-disclosure agreement, a Business Associate Subcontractor Agreement, and/or without the approval of the information owner. Private/Internal use information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails or secured packaging for paper copies.

C. Confidential or protected data

Access to this type of information is on a need-to-know basis, as approved by the ISO or information owner.

This class of information is not released to anyone outside the Company without a non-disclosure agreement and without the approval of the information owner.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Confidential or Protected information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails, or secured packaging for paper copies.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known, secure printer
2. Encrypting and physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

D. Managing data sources

The key to managing **Virtru's** business' media and documents is to first consider the source of the information, then the media type. **Virtru's** media and documents containing Protected Information (PHI, CJIS, or other) require protection from inception through disposition. Regardless of the owner relationship, the Company will be cognizant of the following Media Types:

1. **Hard Copy:** paper printouts, printer and facsimile ribbons, drums, etc.
2. **Electronic:** the bits and bytes contained on hard drives, flash drives, phones and tablets.

E. Retention of media

Retention: The length of time documentation and/or information is retained according to the level of confidentiality and to the business continuity requirements. System/ information owners should consult with the ISO to ensure compliance with the record retention regulations.

Virtru's hard copy record retention policy is as follows:
We will digitize and encrypt these records for secure storage on the Synology NAS, which will be backed up to AWS Glacier.

Virtru's electronic record retention policy is as follows:

1. Agent of Record letters and Letters of Authorization requests are held for no less than ninety (90) days
2. New Business Group documents are held for no less than ninety (90) days
3. General documents are held for no less than ninety (90) days
4. Banking statements are held for seven (7) years
5. Workforce member records are held for seven (7) years

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

F. Sanitization of Media

When media (hard copy and electronic) becomes obsolete, is no longer required or no longer usable, it is critical that proper sanitization is accomplished.

Sanitization Types

Disposal: the act of discarding media. This is often done via recycling paper containing "non-confidential" material.

*Reinitializing***:** Re-formatting drives so information cannot be retrieved by recovery utilities or any other forms including keystroke recovery attempts. This is achieved by overwriting the disk with zeros for no less than one (1) time.

Purging: exposing the magnetic media to a strong magnetic field in order to disrupt the recorded magnetic domains, this is also known as degaussing.

Destroying: destruction of media so it cannot be reused as its original purpose.

Virtru's electronic disposal policy is as follows:

1. Hard-drives are purged, reinitialize or destroyed
2. CD or DVD disks are destroyed
3. Flash drives are re-initialized or destroyed
4. Backup tapes are purged, reinitialized or destroyed

Any systems that are leased must be securely sanitized of all Company data prior to being returned to the leasing company. Any additional media (e.g. hard drives, USB drives etc.) will be reformatted then written with zeros for no less than one (1) time to ensure that the data contained on the media has been destroyed.

Virtru shall maintain appropriate records of sanitization. This entails validating how, where and when media is sanitized. See *Media Sanitization*.

G. Information sharing and privacy

In most cases the sharing and reuse of Personally Identifiable Information is governed by law, regulation and customer expectation. To ensure **Virtru** meets those requirements, no Personally Identifiable Information will be shared with outside companies, vendors or personnel without written approval from the ISO.

Personally Identifiable Information includes:

1. Names
2. Addresses

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

3. Phone Numbers
4. Email Address
5. Dates of birth
6. Social Security Numbers
7. Ages
8. Gender
9. Personal Financial Information
10. Personal Medical Information
11. Criminal History Information
12. Personal Employment Information
13. Personal Buying Histories
14. IP Addresses

Aggregated and statistical data developed from this personal information is not personally identifiable and, thus, does not need the approval of the ISO for sharing and re-use.

Virtru will comply with all applicable laws and regulations regarding the privacy of personal information, including such laws as:

1. Health Insurance and Portability and Accountability Act (HIPAA)
2. Health Information Technology for Economic and Clinical Health (HITECH)
3. Family Educational Rights and Privacy Act (FERPA)
4. Criminal Justice Information Systems (CJIS)
5. Federal Information Security Management Act (FISMA)

Virtru's workforce members, contractors, vendors and suppliers may come into possession of Personally Identifiable Information as a part of their relationship with **Virtru**. Each person must comply with all laws, regulations and policies and ensure such information is properly protected.

H. Release of company information

Virtru's information may only be released with the approval of the ISO or the information owner. This includes the posting of **Virtru's** information of any type onto bulletin board systems, public networks, social media or other open sharing tools. Any information released must contain proper copyright, trademark, disclaimer and patent notices as appropriate.

X. Risk Analysis and Management

Risks to **Virtru's** assets and environment should be addressed proactively rather than reactively. The controls applied to the risks must also be periodically reviewed to ensure the controls are working properly and efficiently.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Security Policies and Procedures

A. Risk reviews

The job of reviewing risks and setting requirements for controls is the ISO's. Risks should be reviewed or assessed when:

1. Developing or deploying new applications, systems, networks or software
2. When significant changes are made to that same list
3. When business processes change
4. When **Virtru** enters a new geographical area of business
5. When **Virtru** enters a new line of business
6. When incidents occur or new risks emerge
7. When new regulations or standards are set

B. Risk management

Risks may be accepted, avoided or mitigated.

Accepting the risk is appropriate when the cost of avoiding or mitigating the risk is greater than the expected loss. The losses considered should include the less tangible items such as **Virtru's** reputation, loss of market share and loss of public trust in **Virtru**. Acceptance of a risk requires complete documentation of the risk analysis and approval by the information owner.

Avoiding the risk is appropriate when the cost of insurance is less than the cost of incremental controls. However, basic controls must always be in place.

Mitigating the risk is appropriate in most situations. These situations are those where compensating controls are possible, cost-effective and manageable. These mitigating controls may include:

1. Increasing a protection to a level higher than what is listed in this document
2. Improving oversight or monitoring of the risk to limit impact and minimize response time
3. Limiting transactions or other events to minimize the possible impact of the risk event

The method chosen for managing the risk (acceptance, avoidance, mitigation) must match the business value and costs involved and must be approved by the information owner.

For further detail, see the *Risk Management Policy* and the *Disaster Recovery Plan*.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

XI. IDs and Accounts

A. User IDs

Each user shall be assigned a unique identification, called the User ID. This User ID is not considered to be sensitive, unless the User ID relates to an authentication process, systems or application management role.

On sensitive systems or applications the User ID should not be easily identifiable, thus making unauthorized usage more difficult.

Sharing of User IDs is not permitted, unless justified by business requirements and approved by the ISO. For any such shared User ID, the password will be shared using LastPass, and the password will not be shared with the additional user. If this password is shared, it must be changed immediately after the User ID is used to keep the shared User ID from becoming generally available and a risk to **Virtru**.

Guest and anonymous User IDs are not allowed, unless the system involved is not connected to any of **Virtru's** networks and the system does not have any **Company** information on it. Typically, these guest or anonymous User IDs are only used during development or during marketing/sales demonstrations.

B. ID and account creation

User IDs are only to be created following a process approved by the information owner. This User ID creation process should include:

1. Expiration dates for the User ID
2. Renewal process for the User ID
3. Documentation of the role, business process and job function relating to the User ID

User IDs are to be created for the purpose needed and not in a manner to compromise segregation of duties.

A record of all User IDs and their owners will be maintained by the ISO. See the **Change Control Logs for Security** for further detail.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

C. Account management

A periodic check will be made of all User IDs and any redundant, dormant or unused IDs will be removed. The ISO must review the privileges set up for User IDs no less than once every year.

D. Application Specific IDs

Application Specific IDs and logins are used in support of automated applications, transactions, processes or batch jobs. These have non-expiring passwords.

1. Application Specific IDs must not be used by individuals.
2. Application Specific IDs must be created only with the approval of the ISO, must be documented and have strictly limited access rights.
3. Application Specific IDs must not have ad hoc or interactive capabilities on the applications, systems, transactions or data involved.

XII. Authentication and Passwords

A. Overview

All systems, applications, databases or other information repositories shall require users to authenticate themselves prior to granting access. Authentication may be via an approved password scheme or via an access control device. All systems that support 2-factor authentication must have them enabled.

The authentication method used must suit the value of the information asset, matching the cost of the authentication method against the level of protection required. In general, administrative and other high-value User or Service IDs will use the most secure methods of authentication.

B. Password format

Must be at least twenty (20) characters in length and must contain characters from all of the following four (4) categories:

1. English uppercase characters (A through Z)
2. English lowercase characters (a through z)
3. Base 10 digits (0 through 9)
4. Non-alphabetic characters (for example, ! , @, #, $)

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

C. Rules

Users are forced to create a new password every 3 months. Users must not write down on paper or store any passwords; they must also never share their passwords with other users. Software is provided to securely store user passwords, with encryption.

A maximum 5 attempts will be permitted prior to disabling the account. New passwords must be different from the previous three (3) passwords. Passwords must be changed immediately upon first use of a new ID. Passwords must never be stored or transmitted in clear text. Systems must not echo back the password as it is entered.

Passwords must not be retained by any system or application longer than is needed to grant access. Initial passwords must be transmitted separately from the ID.

XIII. Authorization and Rights Management

A. General Access Roles

Access roles are defined as:

1. *Super Admin Access:* Access to all front and backend products as well as product metrics
2. *Admin Access:* Access to all front end products as well as product metrics
3. *General Access:* Access to product metrics
4. *Low Access:* Access to corporate email, sales, and marketing data only

Amazon Web Services (AWS)
Users who have access to AWS have Super Admin Access. User sessions will expire after one (1) hour of inactivity

Cloudant
Users who have access to Cloudant have Super Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Github
Users who have access to Github have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

ELK Stack
Users who have access to ELK Stack have Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Mixpanel
Users who have access to Mixpanel have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Users who have access to Kissmetrics have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Salesforce
Users who have access to Salesforce have General Access. User sessions automatically time out after twenty (20) minutes.

Segment.io
Users who have access to Segment.io have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

B. Access Rules

User IDs and accounts must be authorized to access only those elements needed for the user's role, including:

1. Limiting access to datasets and types
2. Limiting access to operating systems
3. Limiting times of access

Access to operating systems, ad hoc transaction capabilities, software development tools, and other system devices must be controlled and limited to only those User IDs which require that access.

Segregation of duties shall be established for all information asset controls to minimize the possibility that one person is responsible for an entire asset.

A user (and hence User ID) that changes role or job function must have access rights updated to match the new job role or function. Any changes will be documented in the *Responsibility Change Log*.

C. Temporary Privileged Users and Accounts

Temporary privileged users are defined as those who:

1. Have any control over security tools on an application, system or network
2. Can update operating systems or similar tools
3. Can directly modify data within a database or application
4. Have any special capabilities built in by the vendor of the application software, operating system or platform

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Access at a temporary privileged user level shall be granted only on a need-to-know, need-to-perform basis, and then only to the assets required. Temporary privileged user access shall only be granted to those supporting **Virtru's** applications, networks and systems.

D. Assignment and Revocation Procedure

The ISO shall electronically complete:

1. An Employee *Access Log* for all new hires and/or workforce member change of status.
2. An *Exit Checklist* for all terminations.

E. Logout After Inactivity

The ISO shall verify that all users have activated a password-protected screensaver that automatically prevents unauthorized users from viewing or accessing electronic protected information from any system or device that can be used to access electronic information systems. After a maximum of 10 minutes of inactivity the system should log off and lock the device, making information inaccessible. Once logged off a user must re-enter a password to gain access to electronic protected information.

XIV. Breaches or Impermissible Uses/Disclosures

A. Definitions

Incident is defined as any breach of security, privacy, continuity, legal or regulatory controls over information assets of any type. Examples of such incidents include but are not limited to:

1. Penetrations of systems, applications, networks or databases
2. Denial of service attacks
3. Misuse or mishandling of assets
4. Virus or other malware contamination
5. Transaction errors
6. Breaches of confidentiality agreements or contracts
7. Legal or regulatory violations

Breach is defined as an impermissible access, use or disclosure, which compromises the privacy or security of PHI.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

XV. Breach Response

A. Overview

Virtru will maintain an effective method so that all information users, custodians and owners can readily report incidents.

Incidents will be reported to the person's immediate manager or the ISO. Once the ISO has been notified, said Officer will then follow the directions in the *Incident and Breach Policy*.

The ISO will investigate incidents and will log or report significant losses or threats immediately. The appropriate authorities will be contacted by the ISO depending on the severity of incident.

Incidents involving misuse by workforce members will be investigated by the ISO.

Depending on the severity of the incident, the Emergency Contact list may provide additional contacts. See the *Emergency Contact List* located in the *Disaster Recovery Plan*.

Confidential Reporting:

Confidential reporting may be done either by:

1. Calling (may leave voice message) the ISO or AISO
2. Sending an email to the ISO or AISO, or;
3. Google Form for anonymous reporting

XVI. Personnel Security

A. Screening for newly hired personnel, third parties, vendors

Proper verification checks must be made prior to granting any new workforce member, contractor, vendor, agent or affiliate access to Private, Internal, Confidential or Protected information. These verification checks will meet the requirements set forth by the **Company** and may include:

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

1. Professional qualifications
2. Identity checks
3. Criminal checks
4. Confirmation of academic and professional experience

The ISO is responsible for ensuring that background checks are made biannually on parties who are not newly hired workforce members. A third party will conduct background checks.

B. Training and Awareness

Virtru will provide security awareness training to each new member of our workforce with access to electronic **Company**-owned or private data (Refer to Data Types information Classifications) whose activities in the business we directly control. The training will be provided prior to that person assuming his/her duties. The training is designed to inform the person of his/her responsibilities under **Virtru's** security policies. At a minimum, this training will include the workforce member's role in:

1. Managing malicious software (e.g. viruses)
2. Using workstation(s) securely
3. Managing passwords and
4. Monitoring and reporting suspicious use of account(s)

Virtru's employees will also be trained annually on **Virtru's** Policies and Procedures. A record of successful completion of this training and annual retraining will be kept online by **Total HIPAA Compliance**.

Within 30 days of starting, individuals who are employed as developers will receive training on the security measures and mechanisms used to protect the company's systems and service. All new developers will be required to take and pass online training modules covering secure coding when using Node.js. Developers who will be managing or developing operational aspects of the company's systems will also be required take the Security Operations on AWS training course from Amazon.

A record of training will be kept of training that lists the employee, type of training, date of completion, the employee's signature, and an admins signature asserting successful completion of the training.

C. Terms of employment

Compliance with **Virtru's** policies regarding security and privacy are a condition of employment.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

D. Acknowledgement

All users shall be required to sign an acknowledgement after being trained on **Virtru's** security and privacy policies.

E. Exit process for users

Upon exiting employment or any relationship with **Virtru**, all users who have been granted access to any information asset shall:

1. Relinquish all access to control devices
2. Report all User IDs in use by the person
3. Relinquish all information stored, whether on paper or on backup media
4. Relinquish all information processing devices, including workstations, all **Virtru**-owned mobile devices and others

All systems access will be revoked.

The ISO will verify termination is completed, and document this procedure has been followed. See *Exit Checklist*.

F. Security Sanction Policy

Virtru's security policies call for the workforce that has access to electronic Protected Employee or Client Data and others to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

If the infraction involves the unauthorized use or disclosure of electronic Protected Employee or Client Data, the sanctions below apply to the designated workforce members including managers, supervisors, and staff who have access to Protected Employee or Client Data.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions. The process below is intended as guidance for our business management in sanctioning Security Policies and Procedure infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

First Security Infraction

If the infraction is:

1. A simple infraction, and
2. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Second Security Infraction or First Serious Infraction
If the infraction is:

1. A serious infraction, or
2. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Third Security Infraction or Second Serious Infraction
If the infraction is:

1. A second serious infraction within 3 years, or
2. A third infraction of any type within 3 years

The sanction will be dismissal from the workforce.

XVII. Legal and Regulatory Issues

A. Legal processes

Responses to subpoenas, deposition requests and other legal issues will be referred to and handled by the CEO. The ISO will not respond to such legal processes without company legal counsel.

B. Copyrights and licenses

Virtru may have agreements in place governing the use and handling of software, information and other tools that are owned by other entities. All users and information owners will comply with those agreements.

Users are responsible for complying with copyrights regarding any material obtained via the Internet. This includes files, graphics, software, audio and video materials.

Users may not agree to a new copyright license, unless given permission by the ISO.

Licensed software must be used in accordance with the license agreement and only the number of copies licensed must be created or used.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

C. Export controls

Information may not be exported across country boundaries without prior written approval of the **Company**'s ISO.

XVIII. Malware and Antivirus

A. Definitions

Anti-Malware: malicious software that may reside on a computer, steal information or cause destruction. This can include a virus, trojan horse, keylogger, hijacker or dialer.

Sandbox: A highly controlled area where programs and software can be tested before being allowed access to the rest of the system.

B. Operating system anti-malware requirements

Macintosh, Linux and iPhones:
Virtru has determined that software for anti-malware scanning on Macintosh, Linux and iPhones is not necessary due to the low probability of encountering malware, the demand on computer processing power, and loss of productivity by the user. This policy will be reviewed annually or as needed to determine if this is still valid.

PC Operating Systems:
Data entering **Virtru's** Window-based systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, disks, backup media, USB memory devices and other data carrying tools must be scanned before they are downloaded or allowed access to the system. All incoming data must be sandboxed by the anti-malware program before it is allowed access to the system. The anti-malware pattern files must be regularly updated.

Android and Windows Phone Operating Systems:
All such devices must have anti-malware tools in place prior to being connected to **Virtru's** networks. These systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, and SD cards must be scanned before they are downloaded or allowed access to the system.

C. Affiliates

Virtru and all of its affiliates, contractors, consultants, vendors, representatives or other service providers must make certain that adequate controls are in place to guarantee that data coming from their systems and networks is free from malware.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

D. Infected devices

The ISO will use approved tools to monitor and remove malicious software from **Virtru's** assets. Virus-infected computers, tablets or phones must be removed from the network immediately until they are verified as virus-free.

E. Employees' Requirements

1. Workforce members will not load software on our **Company's** information equipment without permission from the ISO.
2. Workforce members will not open electronic files from unfamiliar sources.
3. Will exercise best practices when using the **Virtru** network. The employee will not:
    a. Circumvent user authentication on any device
    b. Sniff network traffic
    c. Access data, servers, or accounts they are not authorized to access
    d. Cause a disruption of servers
    e. Violate copyright law by transmitting copyrighted pictures, music, video and/or software

XIX. Change Control Logs

A. Preface

The ISO is required to maintain logs of systems that document any changes and access users may have to sensitive systems. The following are the retention policies for these logs.

B. Policy

Audit logs will be retained for at least one (1) year in raw format, preferably electronic, to preserve evidence. Audit logs must be configured to prevent overflow, erasure or tampering. Audit logs will be configured to record information such that:

1. Sufficient information is available for proper investigation of use, misuse, incidents and performance
2. User ID, event type, date and time are maintained
3. Time is according to a known time stamp so that events across systems can be coordinated
4. End-to-end accountability is always maintained

Events to be recorded include, but are not limited to:

1. Login and activity by any other privileged accounts
2. Changes to operating systems, application code or other tools
3. Backup and restore events
4. Changes affecting any cryptographic keys or devices
5. Stop or start of critical processes
6. Transaction failure, retry or duplication

All systems and tools involved in the protection process are required to always have change logs enabled and properly configured. This includes:

1. Firewalls
2. Email servers
3. Anti-malware tools especially the administration tools
4. Security administration tools such as password resets and account modifications
5. Monitoring tools
6. Routers and other network devices
7. Github

Logs will be reviewed and analyzed by delegates of the ISO.

Reports of problems and incidents will follow the incident reporting method, listed in the *Incident and Breach Policy*.

XX. Encryption

A. Preface

Encryption is the process of encoding messages of information is such a way that only authorized parties can read it.

B. Application Encryption Policy

Virtru encrypts all client data using NIST-approved cryptographic modules. **Virtru** uses AES 256 encryption for its application. **Virtru's** key length requirements shall be reviewed annually as part of the yearly security review and upgraded as technology allows.

The use of proprietary encryption algorithms is not allowed for any purpose, unless reviewed by qualified experts outside of the vendor in question and approved by the ISO.

C. Key Rotation Policy

Virtru requires the following key rotation policy to protect all external systems. The following is the list of policies for the following keys:

1. **Secure Socket Layer (SSL)Keys**
   Virtru uses SSL keys to enable Transport Layer Security (TLS) traffic between clients and **Virtru's** servers.

   Rotation Policy

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Rotation of SSL Keys is done upon SSL Key expiration. They are set to expire at 1 (one) year and rotated at that time. If there is an incident or the security keys are thought to be compromised, the keys will be rotated immediately.

2. **Secure Shell (SSH) Keys**
   The SSH keys provide a layer of authentication to get into the production servers. SSH Keys are used as the authentication mechanism to remotely login to a server. They are also used as the first factor of authentication to assume root access on the production servers. Each developer has his/her own SSH key and is responsible for keeping this key secure.

   Rotation Policy
   All SSH keys are rotated at a minimum of every three (3) months. If there is an incident or the SSH keys are thought to be compromised, keys will be rotated immediately.

3. **Amazon Web Services (AWS) Access Keys**
   Unique AWS Access Keys are given to each developer with a unique AWS Login. This allows the developer to make Application Protocol Interface (API) calls to AWS. Currently, 1-2 AWS Access keys exist per developer. Where are these stored? How do you know how many keys each developer has?

   Rotation Policy
   These keys are rotated at a minimum of every 90 days. If there is an incident or the AWS keys are thought to be compromised, keys will be rotated immediately

4. **Application Keys**
   Virtru uses these keys to encrypt sensitive key data stored in the CouchDB database managed by IBM. There is only one copy of this key.

   Rotation Policy
   No rotation requirement.

   Backup Policy
   Backup of the key is kept with **Virtru's** Super Administrators.

The export of encryption technologies is restricted by the U.S. government. Residents of countries other than the United States should make themselves aware of the encryption technology laws of the country in which they reside.

D. Device Encryption Policy

Virtru requires devices have encryption enabled for any files, folders, drives, databases, or other stored data that may have sensitive information including protected personally identifiable information.

The implementation of any encryption scheme is performed by the user and the deployment of the encryption tool, including all keys, must meet industry best practices and be properly documented. Currently the minimum standard is 128-Bit encryption. Encryption keys will be managed by the user and a log will be maintained by the ISO.

Mac OS Devices:
Mac OS devices that store Protected Information (PHI, CJIS, etc), are required to use full disk encryption using FileVault 2. Users must provide a copy of their key to the ISO; both will maintain the key in a secure location.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Windows OS Devices:
Windows OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption with the program Bitlocker. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Linux OS Devices
Linux OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption. This will be encrypted at a minimum of 128 bit encryption. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Android Devices
All Android devices that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

Windows Phone
All Windows Phones that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

iPhone
iPhones are natively encrypted. These devices are required to be password protected and/or biometrically protected at all times.

E. Wi-Fi network encryption

All wireless access points owned by **Virtru** are required to be protected using Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES). This password will be changed quarterly and will not be shared with users that are not employees or authorized Business Associates. Any outside users are required to use guest access points.

Employees that access **Virtru** resources from home are required to use Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES) to protect their devices. This password should be changed quarterly.

F. Email encryption

Virtru requires the use of its secure, encrypted email service to communicate with our employees about their Personally Identifiable Information, and to communicate any sensitive data. All email communication that includes personally identifiable data, and potentially sensitive data will be encrypted.

Virtru uses only its secure, encrypted email service to communicate with clients about their Personally Identifiable Information.

Virtru forbids the use of chat, texting or instant messaging programs by devices that store PHI.

G. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.
See *Sanction Policy*.

Any 3rd party who handles or holds sensitive data or who provides a service which is critical to operations shall be required to assert that their own security practices and procedures meet or exceed that of the company's. Each 3rd party shall be assessed for conformance annually.

XXII. Use of Email, Internet, Messaging, Public Sites, Blogs, Social Media

A. Policy

Confidential, Private or Protected information and Internal Use information must not be transmitted across any unsecured outside network or path without proper controls. **Virtru** requires encryption for files and emails, or secured packaging for paper copies.

Users are responsible for ensuring that their use of these tools complies with all of **Virtru's** policies, and with applicable laws and regulations. This includes all employment policies such as sexual harassment, stalking, ethics and appropriate use.

These tools may not be used to access, send or receive, store or display:

1. Sexually explicit material
2. Confidential, Private or Protected Information or Internal Use material, except as meets the *Handling Rules* section

XXIII. Hardware

A. Definitions

Workstations: PCs, desktop computers, tablets and mobile computing devices that are located at **Virtru's** home office, or at remote locations. These devices are easily attacked and therefore must have access controls and anti-malware as specified in those sections of this document.

Servers: Devices that may or may not be housed at **Virtru** locations. Regardless of their location, these must secured in a manner that prevents them from being physically accessed without the appropriate level of security clearance.

B. Policy

A current copy of the *Organizational Chart/Electronic Asset Management Log* (**Risk Assessment**) will be kept at an off site location so it can be accessed quickly in the case of theft, fire, flood or other events that may make inventory information useful.

The ISO will keep a log of events noting when a physical security mechanism is repaired, replaced, installed, removed, modified, or maintained. This *Maintenance Log* will contain the: who, what, when, where, and why of the change and be kept in the **Security Documentation Library**.

Users of these devices are required to ensure that all appropriate protections are in place, including:

1. Physical security to prevent theft or misuse
2. Access controls suitable for the class of information on the device
3. Anti-malware
4. Keeping the devices locked to a desk or other secure location when outside

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

5. Keeping control over backup media, as to minimize the possibility of theft or loss
6. Ensuring that the transport of these devices is secure and is safe from damage - for example, these devices should only travel in padded containers and should be locked and shut down during transit
7. Keeping all operating systems and tools up-to-date, with all updates and patches. Specific requirements for these topics are in the appropriate sections of this document

Virtru's devices must not be used by people who are not authorized, including family members and friends.

Software loaded onto such devices must follow the rules in the *Software* section of this document. In general, only approved software may be loaded, and shareware, games and other such software are not permitted.

International travel with these devices may require special approvals or configurations, especially in regards to encryption and licensed software. Before traveling internationally, users must contact the ISO to determine if such special considerations exist.

Connecting these devices to **Virtru's** networks must follow the rules in the *Networks* section of this document. In general, all such devices must be approved prior to connecting.

Remote access from these devices to **Virtru's** networks and devices must meet the controls specified in the *Networks* section of this document. In general, such access must be approved, and must have adequate controls over the security of information in transit.

Devices of these types that are owned by contractors, vendors or other third parties must meet all **Virtru** requirements prior to being connected.

C. Asset management

The ISO is responsible for maintaining an inventory of devices; as such he shall employ software to aid in the management of hardware and software asset. See *Handling Rules for the information classifications*

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

D. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

XXIV. Networks

A. Overview

Virtru's networks and devices shall designed, deployed and operated in a manner so as to provide proper levels of protection for the data being accessed and transported. Significant changes in network designs must be piloted before deployment.

Mechanisms must be in place to alert the ISO of possible attacks and breaches, to include:

1. Denial of service attacks
2. Improper access
3. Virus infections
4. Unauthorized software installations, email, FTP or other improper usage

Analysis must be conducted at least annually to validate the failure mode and recovery for all devices, network circuits and protocols. See *Change Logs* for details.

Responsibilities must be defined for:

1. Administration of network and communications connections
2. Operations of all devices
3. Monitoring
4. Timely review of audit logs and response to alerts or alarms
5. Review of unusual patterns of usage or activity

To minimize risks, any network connections or network segments should be disconnected when not in use.

B. Monitoring

Virtru uses AlienVault's Unified Security Management System to monitor all traffic on their network. Notifications are set to alert the IT staff of any unusual traffic and vulnerabilities, as well as log any security events that may occur.

C. Access control and physical security

Sites where **Virtru's** network equipment or communications lines exist are considered to be high-value and are subject to the access control and physical security rules

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

outlined in the *Physical Security* section of this document. In general, these rules will require:

1. Access limited to authorized personnel only
2. Physical security, including RFID or passcode controlled locks, are in place

D. Modifications, updates

Changes to the network architecture which affect the protections must be approved by the ISO. Examples of such changes include firewalls, wireless configurations, ports and proxies.

E. Documentation

The ISO shall maintain an accurate set of documentation of the networks and their components. This documentation is considered to be highly valuable and will be classified "Protected".

F. Network design

The goal for network design is to facilitate **Virtru's** business, while still providing protection for **Company** assets.

G. Segmentation

Virtru's networks will be segmented, in order to limit access to Confidential and Protected Information, without impacting the **Company's** business. There will be a guest network that will have no access to **Virtru's** Network Attached Storage, and other vital network resources.

H. Firewalls

Virtru's network and workstations in the DC office is protected using the Fortinet FortiGate 100D Firewall appliance. This device is configured to monitor and log all unusual traffic and warn **Virtru** of any network irregularities or attacks.

Definitions

Firewall: A part of the computer operating system or network that is designed to block unauthorized access while permitting outward communication. There are two different types of firewalls.

1. *Software Firewall:* Part of the operating system or can be a software add-on.
2. *Hardware Firewall:* Built into a router or a stand alone device. All computing devices will access a network through this point.

Firewall Settings

1. *Whitelisting:* Blocks all incoming traffic, and only allows traffic from good, or known IP addresses. The user will be required to authorize connections to their device.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

2. *Blacklisting:* Authorizes all traffic as a default, and the user is responsible for denying unauthorized connections to their computing device from unrecognized or unknown IP addresses.

Software Firewall Policy

Virtru requires every device to have their internal software firewall activated at all times, and set to only allow whitelisted traffic. This will require the user to authorize any connections to their device. Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

I. Internet

Connections to the Internet must be:

1. Approved by the ISO
2. Periodically reviewed and tested for vulnerabilities
3. Protected by firewalls, intrusion detection systems and anti-malware tools

Some Internet tools, such as FTP, Internet Relay Chat, Telnet and Remote Procedure Call are restricted in use and must be approved for use by the ISO.

J. VPN-remote access

Virtual private networks (VPNs) will be used for traffic flowing over public networks to ensure the proper level of protection of **Virtru's** data.

K. Wireless

All wireless connections must have WPA2 with Advanced Encryption Standard (AES) turned on. This applies to all networks for **Virtru's** home office, and all telecommuting employees.

L. Telework Policy

If a staff member is allowed to telework/telecommute, they must comply with the **Virtru's** various employment policies, remote security measures and use the provided web portal via HTTPs, VPN and SSL. They must also make sure their home WI-FI is encrypted properly.

If they are accessing sites while on an unsecure router, they must make sure the sites they visit have a valid SSL certificate before proceeding.

M. Patching of systems and applications

Microsoft Windows OS Patches

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Security Policies and Procedures

To manage the patching of Microsoft Windows operating systems (OS), Windows Software Update Service (WSUS) is used. The WSUS server automatically checks for patches once a day not during business hours. Then downloaded patches are manually released from the WSUS server to be downloaded and applied on the workstations. The ISO will evaluate all patches before they are applied; workstations will not automatically download OS patches from the WSUS server and updates will not be automatically installed. Installation of OS patches is done within a planned downtime.

Apple OS Patches
All Macintosh Operating System (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. These should be applied within one (1) week of release from Apple.

Linux OS Patches
These patches should be applied and tested in an app staging environment before they are applied systemwide. The User is required to document where they received the patch, who downloaded it, what version of patching they are using, and when the patch was applied to the system. This documentation should be submitted to the ISO upon completion of the patching.

iPhone iOS Patching
All iPhone (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Apple.

Android Phone Patching
All Android patching will be done through the Google Play Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Google.

Windows Phone Patching
All Windows Phone patching will be done through the Windows Phone Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Windows.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Patching of applications is done on a weekly basis, unless a zero-day exploit is found in an application that is used within the domain. If such an exploit is found and a patch is released for said exploit, an emergency planned downtime will be called for at the conclusion of the business day to patch the application in question.

N. Network hardening

Upon adding new devices to the network, installation procedures and set-up must be followed. Hardening will be done on network devices as well as systems (e.g. laptops, workstations and servers) and handled by the ISO or AISO.

Hardening will be broken down into the following categories which include, but are not limited to:

1. Preparation and installation
2. Updates to: software, firmware and hardware
3. Setting of appropriate account and auditing rules
4. Setting of appropriate security rules
5. Turning on the internal firewall
6. Turning on full disk encryption (If device will have access to PHI)
7. Other internal operations such as:
    a. Installation of appropriate software for workstation, server or laptop

The ISO will notify all affected staff when making changes to the hardening policy and will update the Security Policies and Procedures at that time. Written approval for hardening procedures above and beyond what is currently mandated is not necessary.

XXV. Physical and Environmental Protections

A. Definitions

Secure sites: These are locations that require the highest level of protection. These sites include:

1. Computing centers
2. Network connection points
3. Media storage locations
4. Locations containing platforms which carry high-value or critical information or transactions

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Physical Security: These may occur within **Virtru** where the overall building is operated to a lower level of security, but a certain area is more controlled due to documents, assets or processes which occur in that area.

B. Secure Sites Policy

Secure sites shall be established for all computing centers and other locations where there is a concentration of high-value or sensitive information, systems or networks.

Sites will be designed and operated according to best practices and in consideration of threats appropriate to the site such as hurricanes, tornados, power outages and intruders.

This standard is not to be construed as a complete list of requirements for a secure site. It should be used in conjunction with expert advice, architects, fire marshals, OSHA and other regulations.

Separate, isolated areas will be created within the secure site for:

1. Media libraries
2. Electrical supplies and controls
3. Environmental and mechanical controls

Access to these sub-areas will be on a need-only basis. Critical assets and operations must be conducted in a secured area or secured site, with protections implemented in accordance with the risks and value of the assets, information and operations.

C. Data Centers

All data centers used by the company must provide proof that they meet or exceed the security requirements and standards of the company.

XXVI. Physical Security Policy

A. Entry Policy

All **Virtru's** workforce members are allowed access to the physical site at any time of the day, and any day of the week. The site is secured with an electronic door lock that accepts RFID cards and a numeric passcode. RFID cards are issued by the ISO or AISO by request and after approval.

B. Loss of RFID key

If a workforce member loses their RFID key, they will notify the ISO or AISO as soon as possible so the key may be deactivated. Any workforce member found to have violated

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

this policy may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

C. Mobile devices

Mobile devices (laptops, netbook, tablets, iPhones, iPads, etc.) must have the appropriate encryption. Devices must have a power-on password or PIN, data encryption, auto-lock and role-based access per user. See *BYOD Policy* (**Forms for Employees**).

D. Video monitoring

Virtru's main office is monitored by a video camera. The data is stored in the Network Attached Storage which is physically secured in a locked cage in the IT closet. This data is stored for up to one (1) month.

E. Alarm system

Virtru's main office is monitored by an alarm system. It is attached to all doors and windows, and requires a 4-digit pin plus a modifier to deactivate. Once triggered, there is a 45-second delay before the local authorities, ISO and CEO are notified by the monitoring company. ADT is the company that is responsible for monitoring **Virtru's** main office.

The alarm pin code is changed quarterly, or at the time that an employee is fired or leaves the Company.

Virtru requires that this alarm be set by the last person to exit the office, and should be active anytime there is not an authorized employee on the premises.

F. Fire protection

Fire protection meet all regulations, including federal, state and local. Fire extinguishers shall be deployed in accordance with regulations of OSHA and fire inspectors. Periodic testing of alarms, fire extinguishers and fire evacuation procedures shall be conducted.

XXVII. Software

A. Overview

This section outlines the standards applying to operating systems, applications, databases and other software tools.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

B. Acquisition of software

It is up to the developer to decide which software tools they will require for their workstation. All regulated software will only be download from trusted sources, such as the Apple App Store, Windows Store, or directly from reputable websites, etc.

Unregulated software is allowed, but must be fully documented and approved for use by the ISO. Documentation will include:

1. The source of the software
2. When it was downloaded
3. Who downloaded it for use and;
4. The date the ISO approved the use of the software

All software for Windows OS devices is required to be screened for malware prior to installation.

Any unauthorized software must be approved and validated, or removed.

Users of workstations, netbooks, wireless and other personal devices must not install unapproved software.

C. Open Source Software

The use of open source shareware or open source freeware may only occur if:

1. It is not used in a production environment OR
2. Prior to use it is fully tested, documented and **Virtru's** personnel are assigned to support it. Checks to be performed include:
    a. Verify usage license (no strong or weak copyleft licenses)
    b. Review open CVEs and available patches
    c. Perform internal security evaluation
    d. Flag for external security evaluation during next penetration test
3. The source of the software is documented
    a. URL
    b. Project lead
    c. Contributors
    d. Whether the project is actively maintained
4. The ISO approves of the use

D. Documentation

Documentation for sensitive applications and the operating systems which run those systems shall be stored securely. Backups of all documentation shall be maintained off

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

site. Access to the documentation for sensitive applications and the operating systems will be on a need-to-use basis.

E. Change Control and Maintenance

All proposed changes to production systems must be registered in the companies issue tracking system. Changes shall be categorized as standard, normal, or emergency. Standard changes are those that are performed frequently and considered low risk. Standard changes are reviewed quarterly and pre-approved for the following quarter. Normal changes are those which are not performed frequently and may pose some risk to the business. Each normal change must be reviewed by a minimum of two super-admins, the CTO and/or VP of engineering prior to being made. Reviewers are responsible for assessing the impact of the change in regards to the functionality, availability, durability, and security of the system. If a consensus among reviewers is reached, the proposed change is sized, sorted, and executed through the standard engineering workflow. Emergency changes are those that are required to rectify some form of degradation of the system. Emergency changes must be reviewed by a minimum of two super-admins. If a consensus is reached, emergency changes can bypass the standard engineering workflow and be made immediately. All changes to production systems must be captured in the company's issue tracking system without exception.

F. Operating Systems

Only approved operating systems will be loaded onto **Virtru**-owned assets. Before major upgrades to systems, authorization by the ISO and AISO will be required.

Default settings must be reviewed prior to installation to identify any security vulnerabilities. These settings will be communicated with all workforce members, or they will surrender their devices to the ISO or AISO for configuration.

G. Applications

All applications, whether developed or purchased, must comply with **Virtru's** policies and protection standards. The information owner is responsible for ensuring that these requirements are included during the development or acquisition of software.

The protection requirements for applications include:

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

1. Access control
2. Authorization
3. Information classification
4. Storage controls
5. Backup and restoration
6. Confidentiality and integrity requirements
7. Audit logs
8. Privacy, export control and other such requirements

All product associated applications must use HTTPS to communicate with all remote hosts, both Virtru hosted services and external third parties. HTTP and other non-encrypted communications are not allowed under any scenario.

Virtru applications shall treat user credentials with the utmost sensitivity and must follow security best practices for storing and transmitting user credentials. All credentials which are shared with a client device must be sent over HTTPS or another encrypted communication channel. All user credentials which are stored in a data store, must be stored in a benign state so that leakage of information from the data store does not compromise user accounts.
All application logs must be sent to a central logging cluster for aggregation and analysis.

H. Configuration Management

Where possible, Virtru applications and infrastructure follow an immutable paradigm. All changes to production infrastructure and application code is deployed on a brand new Amazon Machine Image (AMI). This allows all changes which are deployed to be tracked and audited. This also means that no configuration or application code will be modified on a production instance. All application servers have osquery installed and configured to monitor key files on the system for any change (File Integrity Monitoring). Any changes to configuration are logged and sent to AWS Cloudwatch Logs, where they trigger an alarm and cause an email to be sent to the Virtru DevOps team for further investigation.

Where possible, Virtru utilizes Terraform, Ansible, and other similar tools to define their infrastructure as code. This allows the production infrastructure to be versioned in a git repository and easily audited for change over time.

I. Asset management for software

The ISO is responsible for maintaining an inventory of software; as such it shall employ software to aid in the management of software assets.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

J. Enforcement

Any workforce member found to have violated these policies may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

XXVIII. Removable Media Device Policy

A. Purpose

The purpose of this policy is to minimize the risk of loss or exposure of Confidential or Protected Information maintained by **Virtru** when it is stored, transferred or accessed on a removable media device. This policy also aims to reduce the risk of acquiring malware infections on computers operated by Company. Any questions or comments about this policy should be directed to the ISO

B. Scope

This policy covers all removable media that contains **Virtru's** data or that is connected to **Virtru's** network.

C. Definitions

Removable media: devices or media that is readable and/or writable by the end user and are able to be moved from computer to computer without modification to the computer. This includes flash memory devices such as thumb drives, SD cards, cameras, MP3 players or any other storage medium; removable hard drives (including hard drive-based MP3 players); optical disks such as CD and DVD disks.

Encryption: a procedure used to convert data from its original form to a format that is unreadable and/or unusable to anyone without the tools/information needed to reverse the encryption process.

Malware: software of malicious intent/impact such as viruses, worms, and spyware.

D. Policy

Workforce members may use removable media in their work computers if they take all reasonable and prudent measures to ensure the safety and confidentiality of all information that is downloaded to any removable media or portable device

E. Using Removable Media Devices

PHI should be stored on removable media only when required in the performance of assigned duties or when responding to legitimate requests for information. When

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

Protected and Confidential information is stored on removable media, it must be encrypted in accordance with **Virtru's** Encryption Standards.

The workforce member shall take all reasonable and prudent measures to physically secure all removable media or to portable devices. Users shall not open or attempt to open the encasement of any removable media or portable devices nor otherwise circumvent any lock system that secures the device or its components. Users should take reasonable measures to secure device at all time and report any lost or stolen removable media or portable devices immediately.

Workforce members may not copy information or other sensitive data onto personal devices, unless approved by management in conjunction with the *Confidentiality Agreement for Employees*.

F. Exceptions

Exceptions to this policy may be requested on a case-by-case basis by petition to the ISO.

G. Refusal

Virtru reserves the right to refuse the ability to connect removable media devices to the Company network if such media is being used in such a way that puts **Virtru's** systems, data, users and customers at risk.

H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

XXIX. Application Recovery Plan

A. Overview

Virtru backs up of all production data hourly and stores it remotely on two separate Amazon Web Server (AWS) Accounts. These backups are a combination of both differential and full backups. These backups are durable a the same rate as S3 data, each snapshot is 99.99999% durable.

B. Scope

These policies apply to all production servers and data that **Virtru** is responsible for maintaining on behalf of our clients.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

C. Data durability and reliability

Virtru uses Amazon S3 to provide a highly durable storage infrastructure designed for mission-critical and primary data storage. Amazon S3 redundantly stores data in multiple facilities and on multiple devices within each facility. To increase durability, Amazon S3 synchronously stores **Virtru's** data across multiple facilities before confirming that the data has been successfully stored. In addition, Amazon S3 calculates checksums on all network traffic to detect corruption of data packets when storing or retrieving data. Amazon S3 performs regular, systematic data integrity checks and is automatically self-healing.

D. Encryption

Virtru uses Server-side encryption to protect data at rest. Server-side encryption with Amazon S3-managed encryption keys (SSE-S3) employs strong multi-factor encryption by encrypting each object with a unique key. As an additional safeguard, it encrypts the key itself with a master key that it regularly rotates. Amazon S3 server-side encryption uses 256-bit Advanced Encryption Standard (AES-256) to encrypt **Virtru's** data.

E. Load balancing

Virtru uses Amazon Web Services' Elastic Load Balancing (ELB) to automatically distribute incoming application traffic, to automatically route traffic across multiple instances. and multiple Availability Zones. This is used to insure that only healthy servers are receiving traffic.

F. Restoration of data

Restoration of production data is done on an as-needed basis. The following employees are responsible for restoration of the application if it is needed:

1. Reuven Gonzales, Lead Developer, or
2. Conor Gilsenan, Developer Ops.

The needed backup data will not be restored "on top of" the current "bad" data. The restores will be redirected to a new location, and first verified. Upon verification, the "bad" data will be removed from the drive, and stored and relabeled as "old data." Then the backup data will replace the "old data" on the drive. Once the restored data has been verified once more, the "old data" will be destroyed.

G. Testing and revision of plan

Once every quarter, after doing a full backup, **Virtru** will recover the saved data. During hours when the business is closed, we will operate the application using this recovered data in a test mode. The tests will consist of a set of tasks that are designed to exercise the main system functions to confirm that the data is usable and as up-to-date as we expected given the backups that were used to do the recovery. This testing process

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

should take an hour. The restore process should take an hour or two, once the files are retrieved.

If the process does not work as documented in our policy, it will be updated to reflect the actual procedure we need to implement to achieve successful recovery and operation.

Whenever we make changes to software or hardware, we will create/update and test using our *Inventory of Devices/Software Assets* and store this checklist in the **Security Documentation Library**.

XXX. Network Attached Storage and Workstation Backup Plan

A. Overview

Virtru recognizes that the backup and maintenance of data in the Network Attached Storage (NAS) and individual workstations are critical to operations. It is essential that certain basic standard practices be followed to ensure that data files are backed up on a regular basis.

B. Policy

Virtru will be using a Synology DS1515+ Network Attached Storage for backing up all workstations, firewall logs, and video surveillance footage. This data will also be backed up to a Amazon Web Services Glacier account.

C. Backup software

Virtru uses Cloud Station software to perform all backups. This will be installed on all workstations and must not be disabled by the user for more than one (1) business day. The software will maintain one month of file versions for restoring purposes

D. Remote backups

Virtru will provide a Virtual Private Network (VPN) for employees to login to for backing up their devices. Credentials for the VPM will be provided to remote employees, and they will be expected to configure their devices properly. If they are unsure, or have issue in setup, the IT department will be available for configuration assistance.

E. Local backups

Virtru encourages all users to do daily local backups of their data. These backups are to be encrypted using the encryption standards listed below. Any local backups must be surrendered at the time an employee no longer is employed by **Virtru**.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

F. Encryption of backups

The backups of data will be encrypted on the NAS using AES 256 bit encryption. Any local backups that employees make must be encrypted at a minimum of 256 bit encryption.

G. Restoring data

In the event that a workstation fails, is stolen, or is damaged whether physically or by malware. It is the policy of **Virtru** that this device will be replaced within 24 hours. The IT department will be responsible for reprovisioning this device, and testing that the workstation is functioning properly before giving the device to the employee.

H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

XXXI. Information Integrity Management Policy

A. Overview

The other policies in this document contribute to the integrity of the data in our systems. Notably, the Data Backup Plan, the Access Control Policy, and the Malware Management Policy contribute to data integrity. In addition to these, we add the following policy elements.

B. Policy

Virtru will configure our applications software to use the available edits on data that is entered into our systems. These edits will check for internal data consistency, reasonableness of data, and logical relations among data items.

XXXII. Security Incident Management Policy

A. Overview

Virtru recognizes that, despite having reasonable security safeguards, we may have security incidents.

B. Procedures

To manage these incidents, **Virtru** will do the following:

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

1. We will train each workforce member to recognize the common telltale signs of a security incident. When a member of the workforce detects one of these signs, he/she will be responsible for notifying the ISO.
2. The ISO will maintain a set of tests to detect events in the system logs that may indicate security incidents. These tests will be written into a script and run against the system log on a daily basis or whenever needed. The tests currently are:
    a) Account creation/deletion
    b) High volume of unsuccessful logon attempts
    c) Alerts from our malware monitoring systems
    d) High volume of file or database access/creation/deletion activity for the time of day, or for day of the week
    e) Account activity at unusual times of the day or night
    f) Absence of expected log records of activity when expected
    g) Unusual level of record access for a given account
    h) Daily logs will be tested by the firewall in real time,
    i) User data will be reviewed weekly
    j) Logs for the past month will be retained. When anomalies are discovered, the script will provide a report that is immediately brought to the attention of the ISO or designee as a potential security incident.
    k) Account lock out due to excessive password retry failure.

The ISO will determine, in consultation with others if needed, whether an event is a security incident.

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associates as needed. The security incident will be tracked in JIRA and treated as an application defect. A log of relevant actions taken to contain and repair the damage will be stored in JIRA. The permanent home of this log will be in the **Security Documentation Library**. The ISO will determine if the event involves a workforce member action that is covered under the sanction policy and will follow that policy. The ISO will determine if the event represents a security incident for which a Business Associate is responsible. If so, the ISO will follow our *Incident and Breach Policy* in this area.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

C. Policy

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associate relations in order to further deter future incidents of the same type.

XXXIII. Security Plan Review Policy

A. Overview

We recognize that our underlying security risk will change and our ability to manage this risk will improve over time. To ensure that we adjust our policies and procedures to take these two factors into account, we will review our Security Policies and Procedures annually. The ISO will lead this review and involve others as needed. Documentation of the review will be contained in a document called *Annual Security Review* and restored in the **Security Documentation Library** {or **Notebook**}.

B. Procedures

At a minimum, the review process will consist of:

1. Evaluating changes in the last year that may affect our Security Policy. These will include changes in:
    a) Number, sizes or locations of our business sites
    b) Our workforce size and composition
    c) Hardware/software
    d) State or federal laws that apply to us
    e) Type of medical insurance that we provide
2. Reading each Policy to determine whether or not the changes may affect it and/or the practices driven by the Policy. We will make a list of changes that need to be made, then write a paragraph describing how.
3. Creating a list of changes in Policies and/or Procedures that our **Company** will carry out.
4. Developing and implementing any changes in our Policies and Procedures on a timely basis.

Disaster Recovery Plan for Virtru

We define a disaster as any event that affects our information systems and, as a result, substantially interferes with the operations of our business. Examples are fire, flood, hardware failure of critical elements (servers), software failures, theft, chemical/radiation hazard, and sabotage. Our definition of recovering from a disaster is taking all the actions needed to restore the systems to their normal operational state. Our plan to recover from disasters is described below.

1. What we will do to prepare to perform a disaster recovery:

    A. We will train the workforce to recognize and report a disaster.

    B. We will organize the workforce responsibilities so that during a recovery we are not dependent on only one person for any critical step.

    C. We will report disasters to the ISO and AISO. The ISO will make the formal determination as to whether or not to classify the event as a disaster.

    D. We will store paper backup copies of key disaster related documents with the offsite backups. These documents will include a List of Support Contacts – vendor, reseller, and/or support group contact information for all of our software and hardware.

    E. We will keep an *Inventory of Device/Software Assets* for [Name of Business]–– a detailed checklist for each asset, such as the server, PCs, the router, network switch, databases, and software programs containing tasks that must be completed to recover that asset. The list will include key data about the device including a party responsible for the recovery whose role is to diagnose and, if needed, repair, replace, and/or rebuild a device.

    F. We will have current copies of system data and software available at the off site location, as our data backup plan specifies.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

2. Once the ISO (or designee) has certified a disaster, we will:

    A. Use the ISO or designee to facilitate the recovery. The facilitator will direct the recovery process, coordination and communication of the actions of the various parties that are involved in the recovery.
    B. Determine which devices/software (e.g. servers, PCs, power units, AC units) are not functioning normally, conferring with the appropriate staff, vendors, and other support personnel to make this determination. When in doubt about the status of the device, we will either use a test that is described in the IT Assets Recovery Checklist for the device/system or depend on the recovery responsible party to make this determination.
    C. Review the *Inventory of Device/Software Assets* for the devices to be recovered. Each checklist will have as an initial task, "Contact the appropriate parties responsible for restoring the devices/software to be recovered." Guidance and other recovery activities from these parties are key contributors to the recovery process.
    D. After all of the non-functioning assets have been restored, follow the instructions in the part of the Emergency Operations Plan that deals with what to do when the system is available again.

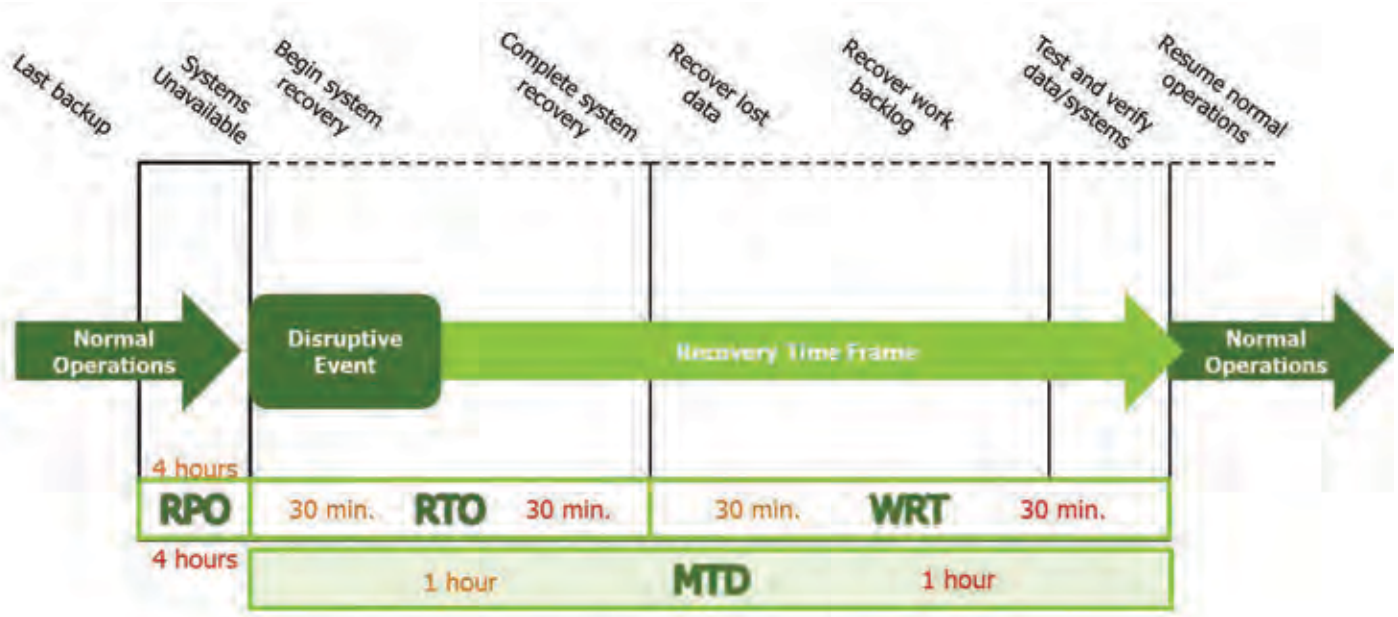
Disaster Recovery Timeframes

Maximum Tolerable Downtime (MTD)

The total amount of time our company is willing to accept for an outage or disruption, including all impact considerations. This guides our Crisis Management Team in determining the selection of an appropriate recovery method, and the depth of detail which will be required when developing recovery procedures, including their scope and content.

Recovery Point Objective (RPO)

This is the point in time, prior to a disaster or disruptive event, which our company has accepted for data loss. RPO determines the frequency of our data backups. When determining RPO, we need to consider how much newly entered data we can afford to lose. *Therefore, if RPO is set to 4 hours, then we must have offsite backups maintained every 4 hours.*



Recovery Time Objective (RTO)

RTO determines the target time for recommencement of business activity. The Crisis Management Team will determine what business functions (i.e. telecommunications, web servers, etc.) should be restored based on priority.

Working Recovery Time (WRT)

This is the time our company will spend recovering lost data and work backlog, and testing and verifying data and systems. WRT usually is the difference between MTD and RTO.

Disaster Timeframe Expectations

Internal Network
The server and network must be functioning in order for any of our other information systems to function. We could afford to be without the server/network for ten (10) minutes without materially affecting our business. If the server/network is down for longer than ten (10) minutes, staff will switch over the mobile tethering, or will go to an approved location to continue their work.

Production Servers
Production servers must be functioning at all times in order for our applications to work. We cannot afford to be without the production servers without materially affecting our business. Traffic will be automatically routed to another server via Amazon Web Services' Elastic Load Balancing.

Workstations
If a workstation crashes, we can easily use another one with only modest inconvenience. Ideally, we would like to replace/restore a workstation within 72 hours.

Printer and Fax
We have two multifunction printers. We can lose all printers for up to a week with little effect on data flow.

Email and Web Browser
Currently, we can function for no more than 10 minutes without email or web browsing. We will tether devices via smartphones after that time.

Wireless Network
We have a wireless network and the office depends on it for routine transactions. A backup router is available; it is preconfigured and encrypted using WPA2-AES.

IT Resources
We depend on the availability of certain employees and our IT service provider to diagnose and fix problems quickly. A chain of contacts is available in this document.

Power and HVAC Equipment
We depend on external power and environmental equipment (especially our AC unit) to maintain the power and environmental support for our system. Failure of either of these systems could inhibit the use of our IT systems, and could also stop us from doing business. These failures are not IT-specific risks. We are comfortable enough with the track record of these services not to need more than a short term UPS to allow us to smoothly shut the network down in the event of a sustained power outage. We have to yearly revisit the question of whether or not we need

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

more power/environmental backup to ensure that the satellite site will able to operate even if power/cooling at the main site is out.

EVACUATION PLAN - during business hours:

For a disaster where you will need to **leave the building:**

If a disaster happens during normal business hours all Company employees will meet at **Jack Rose Restaurant, 2007 18th St NW, Washington, DC 20009.**

This will prevent Company employees from being in the way of emergency crews. A head count by managers will determine if all staff members have fully exited the building.

Headcount numbers will be brought to the ISO or CEO.

If the disaster happens after the meeting location has closed, employees will wait outside of the same address.

For a disaster where you will need to **stay in the building:**

If a disaster happens during normal business hours, all Company employees will meet in the **Basement**. A head count will determine if all staff members have fully exited the suite. See above for head count procedures.

EVACUATION PLAN - FIRE!

If the fire alarm goes off during business hours, **evacuate the building immediately**. If you discover a fire or smell heavy smoke inside building:
DO NOT ATTEMPT TO FIGHT THE FIRE!!

1. Pull fire alarm, evacuate the building and call 911 on the way out of the building

2. Perform head count at the designated assembly point

    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.

3. Action Plan - developed by ***EPCMT***

    - Re-open based on damage
    - If the office must remain closed:
        - Notify employees and/or employees emergency contacts.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

EVACUATION PLAN - Earthquake!

During an Earthquake

- **DO NOT USE THE ELEVATOR DURING AN EMERGENCY EVACUATION**.
- If you're indoors, stay there. Get under -- and hold onto --a desk or table, or stand against an interior wall. Stay clear of exterior walls, glass, heavy furniture, fireplaces and appliances. The kitchen is a particularly dangerous spot. If you're in an office building, stay away from windows and outside walls and do not use the elevator.
- If you're outside, get into the open. Stay clear of buildings, power lines or anything else that could fall on you.

After an Earthquake

- Perform head count at the designated assembly point
  - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
- Shut down systems, if time permits, see **Emergency Shutdown Procedures**
  - Check for fire or fire hazards. If you smell gas, shut off the main gas valve. If there's evidence of damage to electrical wiring, shut off the power at the control box.

1. INTRODUCTION

1.1 This Channel Foundation Agreement ("Foundation Agreement") specifies the terms and conditions agreed between CA and the Ordering Activity, as defined in GSA Order ADM4800.2G and as revised from time to time ("End User" or "Customer") as a foundation for their relationship as further defined in the applicable Modules. Ordering Activity understands and agrees that Ordering Activity's right to use the CA Offerings, ordered by Ordering Activity and submitted to CA by an Authorized CA Partner, is subject to Ordering Activity's compliance with this Foundation Agreement and the relevant Module for such CA Offering. The Foundation Agreement and the Module(s) incorporated into the GSA Schedule contract for the CA Offering(s) purchased by Ordering Activity will govern orders from an Authorized CA Partner for Ordering Activity's acquisition of the CA Offering and such terms shall remain binding upon both Ordering Activity and CA for that CA Offering absent mutual written agreement to the contrary.

Use of the CA Offerings, or of this Agreement to procure CA Offerings, by Ordering Activity's Affiliates outside of the jurisdiction specified for Ordering Activity in the order between CA and the Authorized CA Partner or Prime Contractor is not permitted unless such Affiliate signs a participation agreement with CA to adopt and adhere to the terms of this Agreement.

3.2 CA will deliver or make available a CA Offering to Ordering Activity only upon, and in accordance with, CA's execution of an order with the Authorized CA Partner. Any terms that may appear on an Ordering Activity's purchase order (including without limitation pre-printed terms), or as part of Ordering Activity's order with an Authorized CA Partner or Prime Contractor, that conflict or vary from the terms and conditions of this Agreement shall not apply to CA and shall be deemed null and void unless otherwise required by law.

4.1 The Parties agree that when receiving Confidential Information from the disclosing Party, that the receiving Party shall hold it in confidence and shall not disclose or use such information except as permitted under the Agreement. The receiving Party shall treat the disclosing Party's Confidential Information confidentially and in the same manner as it treats its own proprietary and/or confidential information, which shall not be less than a reasonable standard of care, and the receiving Party shall use Confidential Information only for the purposes described in the Agreement. 4.4 Nothing in the Agreement will (i) preclude CA from using the ideas, concepts and know-how which are developed in the course of providing any CA Offerings to Ordering Activity or (ii) be deemed to limit CA's rights to provide similar CA Offerings to other customers. Ordering Activity agrees that CA may use any feedback provided by Ordering Activity related to any CA Offering for any CA business purpose, without requiring consent including reproduction and preparation of derivative works based upon such feedback, as well as distribution of such derivative works.

4.5 To the extent permitted by the Federal Records Act, the receiving Party agrees, upon request of the disclosing party, to return to the disclosing Party all Confidential Information in its possession or certify the destruction thereof.

4.6 For CA software (including code) and Documentation, and Ordering Activity's and/or CA's Confidential Information expressly designated in writing as perpetually confidential, the obligations of this section are perpetual and shall survive termination. For all other Confidential Information, the foregoing obligations shall extend for five (5) years from the date of initial disclosure.

5. FEES

5.1 The Parties acknowledge and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.

6. TITLE

6.1 CA retains all right, title, copyright, patent, trademark, trade secret and all other proprietary interests to all CA Offerings and any derivatives thereof. No title, copyright, patent, trademark, trade secret or other right of intellectual property not expressly granted under the Agreement is exchanged between the Parties.

7. WARRANTY

7.2 CA represents and warrants that it owns or otherwise has sufficient rights to grant Ordering Activity the rights defined in the Agreement.

right to continue to use the CA Offering; (ii) repair, modify or replace the CA Offering so that it is no longer infringing; or (iii) provide a pro-rated refund to the Authorized CA Partner of the fees paid for the CA Offering which gave rise to the indemnity calculated against the remainder of the Term from the date it is established that CA is notified of the third party claim. If the CA Offering is CA Software, and is licensed on a perpetual basis, an amortization schedule of three (3) years shall be used for the basis of the refund calculation.

8.2 CA shall have no liability: (i) in the event the allegation of infringement is a result of a modification of the CA Offering except a modification by CA, (ii) if the CA Offering is not being used in accordance with CA's specifications, related documentation and guidelines, (iii) if the alleged infringement would be avoided or otherwise eliminated by the use of a CA published update or patch, (iv) if the alleged infringement is a result of use of the CA Offerings in combination with any third party product, or (v) if the applicable fees due for the specific CA Offering have not been paid by Ordering Activity or Prime Contractor to its Authorized CA Partner. The indemnifications contained herein shall not apply and CA shall have no liability in relation to any CA Offering produced by CA at the specific direction of Ordering Activity. THE FOREGOING PROVISIONS STATE THE ENTIRE LIABILITY AND OBLIGATIONS OF CA REGARDING CLAIMS OF INFRINGEMENT, AND THE EXCLUSIVE REMEDY AVAILABLE TO ORDERING ACTIVITY WITH RESPECT TO ANY ACTUAL OR ALLEGED INFRINGEMENT OR MISAPPROPRIATION OF ANY INTELLECTUAL PROPERTY OR OTHER PROPRIETARY RIGHTS.

8.3 CA shall indemnify Ordering Activity against all damages, fees, (including reasonable attorney's fees) fines, judgments, costs and expenses finally awarded as a result of a third party action alleging a bodily injury or death which arises under the Agreement, provided that such liabilities are the proximate result of gross negligence or intentional tortuous conduct on the part of CA.

8.4 The above indemnities are contingent upon: (i) Ordering Activity providing prompt notice of any claim of infringement and assistance in the defense thereof, (ii) CA's right to consult with Ordering Activity at any time and to intervene in the proceedings through CA's chosen counsel at CA's expense, provided that Ordering Activity shall not have the right to settle any claim requiring CA to make a payment or to admit liability without CA's prior written agreement , and (iii) Ordering Activity not taking any actions or failing to take actions that hinder the defense or settlement process.

9. LIMITATION OF LIABILITY

EXCEPT IN THE CASE OF A BREACH OF TITLE, INFRINGMENT OF CA'S INTELLECTUAL PROPERTY RIGHTS OR CONFIDENTIALITY, OR OF THIRD PARTY CLAIMS ARISING UNDER THE INDEMNIFICATION SECTION, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW NEITHER PARTY (INCLUDING ANY OF CA'S SUPPLIERS) SHALL BE LIABLE FOR A) ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES OF ANY NATURE, INCLUDING, BUT NOT NECESSARILY LIMITED TO, LOSS OF PROFIT, DAMAGES RELATING TO MONIES SAVED OR FEES GENERATED AND OR ANY LOSS OF DATA BY USE OF ANY CA OFFERING, REGARDLESS OF WHETHER A PARTY WAS APPRISED OF THE POTENTIAL FOR SUCH DAMAGES; AND B) IN NO EVENT WILL A PARTY'S LIABILITY, EXCEED THE FEES PAID AND OR OWED TO CA FOR THE THEN CURRENT INITIAL OR RENEWAL TERM FOR WHICH THE ORDERING ACTIVITY HAS PROCURED THE CA OFFERING OR AS FURTHER DEFINED IN THE MODULE. FURTHERMORE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CA SHALL NOT INCUR ANY LIABILITY FOR DEATH OR BODILY INJURY TO ANY THIRD PARTY UNLESS THE SAME ARISES FROM THE INTENTIONAL OR GROSSLY NEGLIGENT ACT(S) OF CA. 10. TERM & TERMINATION

10.2 In the event Ordering Activity elects to terminate an order for its convenience prior to the expiration of the then current term, and such order includes licenses for CA Software, Ordering Activity shall also, within a reasonable period of time, delete all copies of such software from its systems, including copies stored for archival purposes and either destroy or return them to CA. The foregoing shall not apply, however, where such licenses were perpetual and Ordering Activity, at the time of such termination, has paid all associated perpetual license fees.

10.3 Termination does not release either Party from any liability which, at the time of such termination, had already accrued to the other Party or which is attributable to a period prior to such termination, nor preclude either Party from pursuing any rights or remedies it may have under law or in equity with respect to any breach of this Foundation Agreement or the Agreement.

11.3 Disputes relating to the payments of fees, any third party products or services or otherwise relating to the terms and conditions of an order between an Authorized CA Partner and Ordering Activity, shall be between Ordering Activity and such Authorized CA Partner, or if applicable, between Ordering Activity and Prime Contractor, and Ordering Activity agrees that it shall have no right of contribution or other claim from or against CA by reason thereof.

5. ORDERING ACTIVITY DATA

5.1. Ordering Activity exclusively owns all rights, title and interest in and to all Ordering Activity Data. Ordering Activity Data shall be considered to be Confidential Information under the Agreement. Except as required herein, CA will not be responsible for any unauthorized access to, or alteration, theft or destruction of Ordering Activity Data, unless caused as a result of CA's negligence or intentional misconduct, in which case restoring or recovery of Ordering Activity Data shall be limited to the most recent back-up of Ordering Activity Data. 8.1. The Ordering Activity shall be provided with SaaS Support during the Subscription Term.

8.2. For any SaaS Support requests, Ordering Activity should be prepared to provide to SaaS Support personnel, all pertinent information, in English, including but not limited to, Ordering Activity number or site identification number, incident severity, SaaS/software name, area of SaaS (Production or Sandbox), incident description, and a technical contact familiar with Ordering Activity's environment or the problem to be solved. Ordering Activity must use reasonable efforts to communicate with CA in order to verify the existence of the problem and provide information about the conditions under which the problem could be duplicated.

"Managed Device" means a virtual or physical system or application whose privileged account passwords are being managed by the CA Software, including but not limited to operating system instances, databases, applications, Command Line Interface Software Development Kits, Open Database Connectivity/Java Database Connectivity applications, Windows services and managed tasks, and managed configuration files. When CA Software is used (i) in connection with a Managed Device or (ii) in connection with a virtual or physical system or application that leverages or interoperates with a Managed Device (a "Password Consumer System or Application"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation.

CA Automation Suite for Data Centers

A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores. CA Configuration Automation program is included in the delivery of CA Automation Suite for Data Centers for use in server environments managed under CA Automation Suite for Data Centers license. Use of this program with server environments not managed by CA Automation Suite for Data Centers requires a separate license for additional fees. Systems Performance for Infrastructure Manager (SystemEDGE) and Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Automation Suite for Data Centers for use only with this product. Use of these components with other CA products requires a separate license for additional fees.CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.CA Process Automation program is included in the delivery of CA Automation Suite for Data Centers. Additional Orchestrators and Premium Connectors are available as an add-on option at additional cost. "Agent" means a single installation of the agent software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. "Orchestrator" means a single installation of the Orchestrator software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator. "Connector" is the software program connecting the CA Process Automation program with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program. "Premium Connector" means a Connector identified by CA in the Order Form. "Process instance" means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular "Orchestrator".

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

CA Clarity Project & Portfolio Manager

"CA Software" means the CA Clarity Project and Portfolio Manager (also known as CA Clarity PPM). CA Clarity PPM is licensed by Environment and the number of Users (Manager, Team Member or Viewer). Customer is granted the right to install and use CA Clarity PPM in not more than three (3) Environments, of which only one (1) may be a production Environment. An "Environment" can consist of any or all of the following, provided that all of the servers in the Environment function as one logical Environment: one or more application servers, search servers, report servers, background servers, and/or database servers. Typical examples of Environments include production Environments, development Environments and test Environments. A production Environment is a computer system used to process an organization's daily work on a real-time operation, not systems used only for development and testing. "Manager User" means Customer's designated users who have full use of and access to the functions within CA Clarity PPM. "Team Member User" means Customer's designated users who have limited rights to the functions within CA Clarity PPM, and may only (i) view data and run reports in all licensed products; (ii) collaboratively participate in processes, discussions and document sharing and receive notifications in all licensed products; (iii) view project tasks and calendars, and report and approve time and project status; and (iv) enter and view status of ideas. "View Only User" means Customer's designated users who have limited rights to the functions within CA Clarity PPM and may only (i) view data and run reports; (ii) originate idea workflows, and participate in the continuation of those workflows.

CA Client Automation

A "Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer or laptop computer, used by an end-user as part of their job function to access data, applications and resources, that is administered or managed by CA Client Automation by way of a management infrastructure, whether a CA management agent resides on the system or not. This includes laptops, desktops and virtual desktops running Windows, Macintosh and Linux operating systems, and it excludes Windows Servers, Linux Servers and UNIX systems. The management infrastructure components, such as Domain Manager, Scalability Server, and System Engine, that run on server platforms do not require a separate license, except if these systems themselves are being managed by an active agent for purposes other than serving as the CA Client Automation management infrastructure.

CA Client Automation consists of:
CA IT Client Manager
CA Patch Manager
CA Desktop Migration Manager
CA Asset Intelligence
CA Workflow for CA IT Client Manager (it is included in the delivery of CA Client Automation for use only for automating workflows inside CA Client Automation and between CA Client Automation and other software programs)

CA Configuration Automation:

The CA Software is licensed by the number of Physical Sockets. A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Database Performance

CA Database Performance is licensed by the number of CPUs when used as a distributed product. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. With the Authorized Use Limitation as "CPU" or "Processor", the calculation with respect to the number of CPUs on an individual server is determined as follows:

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

1. For non-virtual server environments, for any server with databases monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with databases monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing databases(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

CA Systems Performance for Infrastructure Managers (formerly known as “CA SystemEdge”) is a separate program included in the delivery of CA Database Performance. Customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

CA DLP

CA DLP includes CA DLP Enterprise Suite, CA DLP Platform & Surveillance, CA DLP Endpoint, CA DLP Stored Data, CA DLP Message Server and CA DLP Network. CA DLP Network and CA DLP Enterprise Suite (which includes CA DLP Network) require and may only be used on a licensed CA DLP Network Appliance.

“CA DLP Network Appliance” means the hardware that operates the CA DLP Network. "User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless specified on the Order Form, a User shall not be counted more than once or a concurrent basis. If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Enterprise Log Manager

“Agent” means a single installation of the agent software on a specific operating system instance which can be identified as a unique host identification on a hardware server. A hardware server may have multiple operating system instances installed on it (through partitioning or virtualization). Each instance of the operating system on a partitioned/virtualized server must license an agent if required for job scheduling purposes. “Node” means, in a communications system, a network junction or connection point. Any system or device connected to a network is also called a node or cluster. “Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA ESP Workload Automation
(MIPS Based license. Operating System is IBM z/OS)

CA ESP Workload Automation is licensed by the specified number of MIPS (the “Authorized Use Limitation in MIPS”). “MIPS” means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn’t listed then the manufacturer’s published specifications should apply. In the event that any particular computer is not accounted for on CA's schedule, the manufacturer's published specification of MIPS capacity shall control. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

Such Federation Partnership Licensee shall not have any right to further copy, distribute, or otherwise transfer such software or any rights therein, notwithstanding any provision of the Agreement to the contrary. With regard solely to such Federation Partner’s use of the Licensed Programs in accordance herewith, the term “Customer” in the Agreement includes such Federation Partner.
(e) “Federation User” means any user who is allowed to use a Federation via the specific configuration of Federation Manager that Customer deploys. A Federation User shall not be counted more than once or on a concurrent basis.

CA Infrastructure Insight

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Insight consists of CA Spectrum Infrastructure Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Insight for use only for monitoring the databases included in CA Infrastructure Insight. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

If the optional component CA Software Compliance Content Subscription is listed on the applicable Order Form, Customer is granted a term license to use such content with CA Software Compliance Manager or CA IT Asset Manager beginning on the Term Start Date and ending on the Term End Date. The subscription fees for CA Software Compliance Content Subscription include the right to receive content updates during the Term of the content subscription. Such license for CA Software Compliance Content Subscription shall renew at the option of the Ordering Activity and be extended for successive periods equivalent to the original subscription Term, subject to the parties' agreement concerning fees to be paid during each such extended term. Use of the CA Software is limited as to several components included unless separately licensed. Software technology for Software Distribution, Remote Control and Asset Discovery and Inventory (CA IT Client Management) are included with CA Software Compliance Manager and CA IT Asset Manager, however the only authorized use is the ability to import Microsoft SMS 2003 or Microsoft SystemCenter Configuration Manager 2007 through the CA Asset Converter for Microsoft SMS, importing inventory from other third party discovery tools using the Asset Collector technology and CA IT Client Manager technology. A "Non-CA managed system" has their inventory gathered by a non-CA management agent; however, the information about that asset is still stored in the Management Database (MDB). This asset information may have been obtained using the SMS Connector or Asset Collector. If Customer is licensed for CA IT Client Manager Patch Subscription, Customer is granted a term license to use such program with CA IT Client Manager beginning on the Term Start Date and ending on the End Date for the subscription term. e) Licensing Model and Terms

The license rights set forth herein authorize you to use CA Software for which you are separately licensed only in the IBM RDz UT environment for non-production purposes. During the term of this license, you must also be licensed to use the IBM RDz UT environment. Use of the CA Software in any other environment or in the RDz UT environment for production purposes is expressly prohibited. This restriction does not change your existing license rights to use the CA Software in a production environment. A production environment is a computer system used to process an organization's daily work on a real-time operation and is not a system used only for development and testing. During the term of this license, if you license additional CA Software, the license rights granted herein apply to such subsequently licensed CA Software.

The license rights are provided on a “per Seat” basis. “Seat” means a single person or identity whose access and use rights can be authenticated, authorized, or administered, or who has the ability to view content aggregated or managed by the CA Software. In general, a Seat shall not be counted more than once or on a concurrent (logged-in) basis. One Seat license shall authorize you to use any of the CA Software for which you are separately licensed in the RDz UT environment. The term of this license (the “Term”) is the lesser of: (i) one (1) year; (ii) the term end date for the applicable separately licensed CA Software; or (iii) the term end date for your use of the IBM RDz UT environment. Any termination under clauses (ii) or (iii) immediately above shall not result in refund of any license fees paid hereunder. Subject to the limitations set forth in clauses (i) (ii) and (iii) immediately above, any renewal or extension of the license term for the separately licensed CA Software or the IBM RDz UT environment, as the case may be, shall continue the Term of this agreement for the period identified above. If you have multiple CA Software products with different term end dates, the license rights granted herein terminate as to each specific CA Software product in the lesser of one (1) year or when the applicable term license for such CA Software ends. Termination of license rights hereunder shall not terminate your license to any CA Software product.

CA does not provide support for the CA Software in the RDz UT environment. Any issues with the CA Software in the RDz UT environment must be reproduced by you in the z/OS environment and reported as such through CA Technologies normal support process for the CA Software.

CA NetQoS NetVoyant

"Device” means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is “Device”, the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Wily Application Performance Management v9 (CA Wily APMv9)

CA Wily APMv9 is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units ("MSUs") and number of System z Application Assist Processors ("zAAPs") and number of System z Integrated Information Processors ("zIIPs") or (b) number of integrated facilities for Linux ("IFLs"), when used in the mainframe environment. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. When the

Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

CA Wily Transaction Impact Monitor (“TIM”) “Software Appliance” means the software running TIM on Customer’s network feed to capture http/https transactions necessary for the Customer Experience analysis portion of CA Wily APMv9. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is "MSUs", "zAAPs", or "zIIPs" (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An "LPAR" means the division of a computer's processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications. When the Authorized Use Limitation is "IFLs", the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

The CA Software is licensed by the specified number of MSU (the "Authorized Use Limitation in MSU"). "MSU" means millions of service units. The MSU capacity shall be calculated with the aggregate computing power (expressed in millions of service units) by reference to CA's published schedules of the MSU capacity and if a computer isn't listed then the manufacturer's published specifications shall apply of all computers upon which the CA Software is installed to run at the Customer Site ("Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated) or computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software. Customer may use the CA Software subject to the aggregate MSU Capacity not exceeding the Authorized Use Limitation in MSU.

The only CA product connectors that are available are those associated with the product(s) providing the entitlement. This is a limited use entitlement and its use is restricted to the context of Workflows associated with the CA product(s) providing the entitlement. The component limits are not cumulative across multiple instances of the license at any individual customer.

The number of concurrent processes executing on any licensed Orchestrator may be exceeded as long as the total number of concurrent processes executing on all licensed Orchestrators is not exceeded. For example, if the license is for two Orchestrators with seventy-five Concurrent Processes per Orchestrator, one hundred Concurrent Processes could be utilized on one Orchestrator so long as only fifty Concurrent Processes are utilized on the second Orchestrator.

2. THE SUBSCRIPTION SERVICE

2.1 During the Term and subject to these Terms and Conditions, DocuSign will provide the Subscription Service in accordance with the Specifications, and Subscriber will have the right to obtain an Account and register its Authorized Users, who may access and use the Subscription Service. The right to use the Subscription Service is: (a) limited to its Authorized Users (accordingly, Subscriber may not resell or otherwise provide or assist with the provision of the Subscription Service to any third party); and (b) conditioned on Subscriber's acknowledgement and agreement with the following:

i) Nothing in this Agreement will be construed to make DocuSign a party to any eContract, and DocuSign makes no representation or warranty regarding the transactions sought to be effected by any eContract;

ii) DocuSign maintains no control of or access to the contents of any eContract, and so the content, quality, and format of any eContract is at all times in the exclusive control and responsibility of Subscriber;

iii) If Subscriber elects to use optional features designed to verify the identity of the intended recipient of an eContract ("Authentication Measures"), DocuSign will apply only those Authentication Measures (if any) selected by the Subscriber, but makes no representations or warranties about the appropriateness of any Authentication Measure and further, assumes no liability for the inability or failure by the intended recipient or other party to satisfy the Authentication Measure or to circumvent it;

iv) Certain types of agreements and documents are excepted from electronic signature laws, such that they cannot be legally formed by electronic signatures, and additionally, various agencies may have promulgated specific regulations that apply to electronic signatures and electronic records. DocuSign assumes no responsibility to determine whether any particular eContract is an exception to applicable electronic signature laws, or whether it is subject to any particular agency promulgations, or whether it can be legally formed by electronic signatures;

v) Subscriber is solely responsible for making available to third parties (including all parties to its eContracts) all contracts, documents, and other records required by applicable law, including, without limitation, electronic signature laws and other laws that may require records relating to a transaction to be retained or made accessible for a certain period of time;

vi) Certain laws or regulations impose special requirements with respect to electronic transactions involving one or more "consumers," such as (among others) requirements that the consumer consent to the method of contracting and/or that the consumer be provided with a copy, or access to a copy, of a paper or other non-electronic, written record of the transaction. DocuSign assumes no responsibility to: (A) determine whether any particular transaction involves a consumer; (B) furnish or obtain any such consents or to determine if any such consents have been withdrawn; (C) provide any information or disclosures in connection with any attempt to obtain any such consents; (D) provide legal review of, or to update or correct any information or disclosures currently or previously given; (E) provide any such copies or access except as expressly provided in the Specifications for all transactions, consumer or otherwise; or (F) otherwise to comply with any such special requirements; and

vii) Subscriber expressly undertakes to determine whether any consumer is involved in any eContract presented by its Authorized Users for Processing, and, if so, to comply with all requirements imposed by law on such eContracts or their formation.

3. SUBSCRIPTION PLANS AND USAGE PRICING

3.1 The pricing, features and options of the DocuSign Products selected by Subscriber are set forth in the Order Form. The Subscription Service is sold on a subscription basis and may be limited by usage ("Envelope Allowance"), or by the number of Authorized Users ("Seats"), or both. Optional features, such as Authentication Measures or fax-back services, may be purchased on a periodic or per-use basis.

3.2 If Subscriber selects an **Envelope Allowance Subscription,** then Subscriber is allowed to send the number of Envelopes in the Envelope Allowance specified in the Order Form during the Term. All Envelopes sent in excess of the Envelope Allowance will incur a per-Envelope charge that will be invoiced within 30 days of the date first incurred. The total number of Envelopes used is based on the sum of all Envelopes that have been sent for signature or for certified delivery from the Account. An Envelope will be deemed consumed at the time it is sent by an Authorized User, whether or not it has been received by the recipients or the recipients have performed any actions upon any eContract in the Envelope.

3.3 If Subscriber selects a **Seat Subscription,** then Subscriber is allowed to manually send Envelopes from the number of Seats specified in the Order Form during the Term. A Seat is defined as a natural person manually preparing and sending Envelopes, and excludes the Processing of Envelopes using automated batch or bulk sending operations, or the use of the

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

DocuSign API for sending Envelopes. If the number of Envelopes sent from a particular Seat or a group of Seats is abusive and/or unduly burdensome (indicating automated Processing), DocuSign will promptly notify Subscriber and the parties will review the use-case scenario as well as any continued monitoring and additional Seats that may be required to be purchased. The number of Seats is determined by the total number of active Authorized Users listed in the membership of an Account at any one time. No two individuals may log onto or use the Subscription Service as the same Authorized User, but Subscriber may unregister or deactivate Authorized Users and replace them with other Authorized Users without penalty, so long as the number of active Authorized Users registered at any one time is equal to or less than the number of Seats purchased. The addition by Subscriber of more Authorized Users than the number of Seats purchased in an Order Form will result in an additional charge for one Seat per additional Authorized User for the remainder of the Term, to be invoiced immediately.

4. ADDITIONAL SUBSCRIBER RESPONSIBILITIES

4.1 Subscriber agrees that it will not use or permit the use of the Subscription Service to send unsolicited mass mailings outside its organization, it being understood that the term "unsolicited mass mailings" includes all statutory and other common definitions, including all Commercial Electronic Marketing Messages as defined in the U.S. CAN SPAM Act.

4.2 Subscriber agrees that it is solely responsible for the nature and content of all materials, works, data, statements, and other visual, graphical, video, written or audible communications of any nature submitted by any Authorized User or otherwise Processed through its Account.

4.3 Subscriber further agrees not to use or permit the use of the Subscription Service: (a) to communicate any message or material that is defamatory, harassing, libelous, threatening, or obscene; (b) in a way that violates or infringes upon the intellectual property rights or the privacy or publicity rights of any person or entity or that may otherwise be unlawful or give rise to civil or criminal liability (other than contractual liability of the parties under eContracts Processed through the Subscription Service); (c) in any manner that is likely to damage, disable, overburden, or impair the System or the Subscription Service or interfere in any way with the use or enjoyment of the Subscription Service by others; or (d) in any way that constitutes or encourages conduct that could constitute a criminal offense.

4.4 Although DocuSign does not monitor the content Processed through the Subscription Service, DocuSign may at any time suspend any use of the Subscription Service and/or remove or disable any content as to which DocuSign reasonably and in good faith believes is in violation of this Agreement. DocuSign agrees to provide Subscriber with notice of any such suspension or disablement before its implementation unless such suspension or disablement is necessary to comply with legal process or prevent imminent harm to DocuSign's System, the Subscription Service or any third party, in which case DocuSign will notify Subscriber of such suspension or disablement as soon as reasonably practicable thereafter.

5. INTELLECTUAL PROPERTY AND TRADEMARK LICENSE

5.1 DocuSign is the owner of various intellectual property and technology rights associated with the Subscription Service, its document management, digital signature, and notary system, including patent, copyright, trade secret, and trademark and service mark rights. Except for the rights expressly granted in this Agreement, DocuSign does not license or transfer to Subscriber or any Authorized User or other third party any of DocuSign's technology or other intellectual property or technology rights. All right, title, and interest in and to DocuSign's technology and intellectual property will remain solely with DocuSign. Subscriber agrees that it will not, directly or indirectly, reverse engineer, decompile, disassemble, or otherwise attempt to derive source code or other trade secrets from or about any of the DocuSign Products or DocuSign's technology. DocuSign agrees that data and information provided by Subscriber under this Agreement shall remain, as between Subscriber and DocuSign, owned by Subscriber.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

request DocuSign's assistance in retrieving completed eContracts still remaining on the System pursuant to the transition services terms described in Section 9.4.

7.2 Prior to the expiration or termination of this Agreement, Subscriber may elect to purchase post-expiration or post-termination storage services for their completed eContracts. Where Subscriber opts not to purchase storage services, all copies of eContracts may be deleted by DocuSign without prior notice after the period available for transition services has expired pursuant to the terms described in Section 9.4. Subscriber may, at its option and wholly at Subscriber's risk, direct that any eContract be deleted at a time stated by Subscriber and prior to the end of the Term.

7.3 DocuSign may at its sole discretion delete an uncompleted eContract from the System immediately and without notice upon earlier of: a) expiration of the Envelope (where Subscriber has established an expiration for such Envelope, not to exceed 365 days); or b) expiration of the Term.

7.4 DocuSign will retain the Transaction Data permanently, provided that any Transaction Data that constitutes Confidential Information of Subscriber will at all times maintain that status and DocuSign will comply with its obligations in Section 13.

8. FEES AND PAYMENT TERMS

8.1 Subscriber will pay DocuSign the amounts set forth in each Order Form. An Order Form is not binding until it is executed by both DocuSign and Subscriber, at which point it will be deemed to be incorporated into this Agreement. Unless otherwise specified in an applicable Order Form, the first invoice will be submitted to Subscriber within 30 days after the Order Start Date, and Subscriber will pay all amounts due within 30 days of the date of the applicable invoice.

8.2 If Subscriber's usage under an Envelope Allowance Subscription exceeds the Envelope Allowance prior to the end of the Term, the unpaid balance of the Order Form for such Envelope Allowance Subscription shall become immediately due and payable.

8.3 Any undisputed amount not paid when due will be subject to finance charges equal to 1.5% of the unpaid balance per month or the highest rate permitted by applicable usury law, whichever is less, determined and compounded daily from the date due until the date paid. Subscriber will reimburse any costs or expenses (including reasonable attorneys' fees) incurred by DocuSign to collect any undisputed amount that is not paid when due. DocuSign may accept any check or payment in any amount without prejudice to DocuSign's right to recover the balance of the amount due or to pursue any other right or remedy. Amounts due to DocuSign under this Agreement may not be withheld or offset by Subscriber for any reason against amounts due or asserted to be due to Subscriber from DocuSign. All amounts payable under this Agreement are denominated in United States dollars, and Subscriber will pay all such amounts in United States dollars.

8.4 **Taxes**. Other than federal and state net income taxes imposed on DocuSign by the United States, Subscriber will bear all taxes, duties, and other governmental charges (collectively, "taxes") resulting from this Agreement or transactions conducted in relation to this Agreement or the DocuSign Products. If a tax is imposed on DocuSign by a jurisdiction outside the United States, Subscriber will not be obligated to bear that tax to the extent: (a) the tax is allowable as a credit against the United States federal income taxes of DocuSign; (b) Subscriber reduces such tax to the extent possible, giving effect to the applicable Income Tax Convention between the United States and other jurisdictions; and (c) Subscriber furnishes DocuSign with such evidence as the United States taxing authorities may require to claim the credit. Subscriber will pay any additional taxes as are necessary to ensure that the net amounts received and retained by DocuSign after all such taxes are paid are equal to the amounts that DocuSign would have been entitled to in accordance with this Agreement as if the taxes did not exist.

9. TERM AND TERMINATION

9.1 **Term**. Unless sooner terminated as stated below, and subject to Section 17 with respect to Work Orders (as defined below), the effectiveness of this Agreement will commence upon the Order Start Date and will continue for the term specified on the Order Form (the "Term").

9.2 **Termination for Cause.** If either party commits a material breach or default in the performance of any of its obligations under this Agreement, then the other party may terminate this Agreement by giving the defaulting party written notice of termination if the material breach or default in performance is not cured within 30 days after the defaulting party receives notice thereof. Without limiting the foregoing, any failure by Subscriber to timely pay to DocuSign any amounts owing under this Agreement will constitute a material breach of this Agreement. If Subscriber fails to timely pay any amounts due for services to be performed by DocuSign, then without limitation to any of its other rights or remedies, DocuSign may suspend performance of such services until it receives all amounts due.

9.3 **Post-Termination Obligations.** If this Agreement expires or is terminated for any reason: (a) Subscriber will pay to DocuSign any amounts required to be paid under this Agreement that have accrued prior to, and remain unpaid as of, the date of

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

termination or expiration (including Subscription fees, which become due upon termination of this Agreement as set forth in an Order Form, and any one-time or recurring fees through the end of the billing cycle in which termination occurs); (b) any and all liabilities accrued prior to the effective date of the termination will survive; (c) Subscriber will destroy all copies of DocuSign software, documentation, and materials within five business days of such termination, and immediately thereafter, if requested by DocuSign, provide DocuSign with a written certification signed by an authorized Subscriber representative certifying that all copies of software, documentation, and materials have been destroyed; (d) licenses to use DocuSign software and the provision of DocuSign services will immediately end; and (e) the parties' rights and obligations under Sections 1, 7.4, 9.3, 9.4, 10.3, and 11 through 14 will survive.

9.4 **Transition Services**. Upon expiration or termination of this Agreement for any reason, at Subscriber's request and at DocuSign's then-current standard professional services rates plus expenses, DocuSign shall provide reasonable transition services for a period not to exceed 90 days to assist Subscriber in moving Subscriber's data to another provider or exporting eContracts to external media. As part of such transition services, DocuSign shall at a minimum transfer, and cause any of its independent contractors to transfer, all data and electronic files associated with the Subscription Service. At its then-current standard professional services rates, DocuSign shall at Subscriber's request further cooperate with Subscriber in the development of a transition plan and shall use reasonable efforts to assist Subscriber and/or another service provider in the transition. DocuSign may at its discretion require advance payment or other adequate security for payment as DocuSign may consider appropriate in connection with or as a condition to the provision of services described in this section.

(the "ESIGN Act") to support the validity of such formation, to the extent provided in the ESIGN Act; (e) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract involving a consumer will be sufficient under the ESIGN Act to support the validity of such formation, to the extent provided in the ESIGN Act, so long as and provided that Subscriber complies with all special requirements for consumer eContracts, including and subject to those referenced in Section 2.1(vi) and (vii) above; and (f) DocuSign has implemented information security policies and safeguards to preserve the security, integrity, and confidentiality of Personal Data and to protect against unauthorized access and anticipated threats or hazards thereto, that meet the objectives of the Interagency Guidelines Establishing Standards for Safeguarding Customer Information as set forth in Section 501 (b) of the Gramm-Leach-Bliley Act.

11.1 **By DocuSign**. DocuSign will defend Subscriber, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by DocuSign of its confidentiality obligations in Section 13, and/or (b) alleged infringement by DocuSign of any third party intellectual property rights (each a "Subscriber Claim").

11.2 **By Subscriber**. Subscriber will defend DocuSign, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by Subscriber of its confidentiality obligations in Section 13, and/or (b) alleged infringement by Subscriber of any third party intellectual property rights, and/or (c) the content submitted by any Authorized User or otherwise Processed through Subscriber's Account (each a "DocuSign Claim").

11.3 **Procedures.** The parties' respective indemnification obligations above are conditioned on: (a) the Indemnified Party gives the Indemnifying Party prompt written notice of the Subscriber Claim or DocuSign Claim (as the case may be, a "Claim"); (b) the Indemnifying Party has full and complete control over the defense and settlement of the Claim; (c) the Indemnified Party provides assistance in connection with the defense and settlement of the Claim as the Indemnifying Party may reasonably request; and (d) the Indemnified Party complies with any settlement or court order made in connection with the Claim. 12. LIMITATIONS OF LIABILITY

12.1 **Disclaimer of Consequential Damages.** EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED IN THIS AGREEMENT, NEITHER PARTY WILL, UNDER ANY CIRCUMSTANCES, BE LIABLE TO THE OTHER PARTY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR RELATED TO THE TRANSACTIONS CONTEMPLATED UNDER THIS AGREEMENT (INCLUDING WITH RESPECT TO CONSULTING SERVICES, IF ANY), INCLUDING, BUT NOT LIMITED TO, LOST PROFITS OR LOSS OF BUSINESS, EVEN IF APPRISED OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING.

12.2 **Cap on Liability.** EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, UNDER NO CIRCUMSTANCES WILL EITHER PARTY'S TOTAL LIABILITY OF ALL KINDS ARISING OUT OF OR RELATED TO THIS AGREEMENT (INCLUDING, BUT NOT LIMITED TO, WARRANTY CLAIMS AND WITH RESPECT TO CONSULTING SERVICES, IF ANY), REGARDLESS OF THE FORUM AND REGARDLESS OF WHETHER ANY ACTION OR CLAIM IS BASED ON CONTRACT, TORT, OR OTHERWISE, EXCEED THE TOTAL AMOUNT PAID BY SUBSCRIBER TO DOCUSIGN UNDER THIS AGREEMENT DURING THE 12 MONTHS PRECEDING THE DATE OF THE ACTION OR CLAIM.

12.3 **Independent Allocations of Risk.** EACH PROVISION OF THIS AGREEMENT THAT PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTIES, OR EXCLUSION OF DAMAGES REPRESENTS AN AGREED ALLOCATION OF THE RISKS OF THIS AGREEMENT BETWEEN THE PARTIES. THIS ALLOCATION IS REFLECTED IN THE PRICING OFFERED BY DOCUSIGN TO SUBSCRIBER AND IS AN ESSENTIAL ELEMENT OF THE BASIS OF THE BARGAIN BETWEEN THE PARTIES. EACH OF THESE PROVISIONS IS SEVERABLE AND INDEPENDENT OF ALL OTHER PROVISIONS OF THIS AGREEMENT, AND EACH OF THESE PROVISIONS WILL APPLY EVEN IF THE WARRANTIES IN THIS AGREEMENT HAVE FAILED OF THEIR ESSENTIAL PURPOSE.

13. CONFIDENTIALITY

13.1 "**Confidential Information**" means any trade secrets or other information of DocuSign or Subscriber, whether of a technical, business, or other nature (including, without limitation, in the case of DocuSign, DocuSign software and related information, and in the case of Subscriber, Personal Data and eContracts), that is disclosed to the other party (the "Recipient"). Confidential Information does not include any information that: (a) was known to Recipient prior to receiving it from the disclosing party; (b) is independently developed by Recipient without use of or reference to any Confidential Information of the other party; (c) is acquired by Recipient from another source that did not receive it in confidence from the other party to this Agreement; or (d) is or becomes part of the public domain through no fault or action of Recipient.

13.2 **Restricted Use and Nondisclosure.** During and after the Term, Recipient will: (a) use the Confidential Information of the other party solely for the purpose for which it is provided; (b) not disclose such Confidential Information to a third party; and (c) protect such Confidential Information from unauthorized use and disclosure to the same extent (but using no less than a reasonable degree of care) that it protects its own Confidential Information of a similar nature.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

13.3 **Required Disclosure**. If Recipient is required by law to disclose Confidential Information of the other party or the terms of this Agreement, Recipient must give prompt written notice of such requirement before such disclosure and assist the disclosing party to obtain where reasonably available an order protecting the Confidential Information from public disclosure.

13.4 **Return of Materials.** Except for as provided in Section 7.4, upon written request by the disclosing party, Recipient will destroy or deliver to the disclosing party all of the disclosing party's Confidential Information that Recipient may have in its possession or control.

13.5 **Ownership**. Recipient acknowledges that, as between the parties, all Confidential Information it receives from the disclosing party, including all copies thereof in Recipient's possession or control, in any media, is proprietary to and exclusively owned by the disclosing party. Nothing in this Agreement grants Recipient any right, title or interest in or to any of the disclosing party's Confidential Information. Recipient's incorporation of the disclosing party's Confidential Information into any of its own materials shall not render Confidential Information non-confidential.

13.6 **Remedies**. Recipient acknowledges that any actual or threatened violation of this confidentiality provision may cause irreparable, non-monetary injury to the disclosing party, the extent of which may be difficult to ascertain, and therefore agrees that the disclosing party shall be entitled to seek injunctive relief in addition to all remedies available to the disclosing party at law and/or in equity. Absent written consent of the disclosing party, the burden of proving that the disclosing party's Confidential Information is not, or is no longer, confidential or a trade secret shall be on the Recipient.

13.7 **Existing Obligations.** The obligations in this Section 13 are in addition to, and supplement, each party's obligations of confidentiality under applicable law and/or under any nondisclosure or other agreement between the parties.

14. GENERAL

14.1 **Relationship**. At all times, the parties are independent actors, and are not the agent or representative of the other. This Agreement is not intended to create a joint venture, partnership, or franchise relationship, or give rise to any third party beneficiary. Subscriber must not represent to anyone that Subscriber is an agent of DocuSign or is otherwise authorized to bind or commit DocuSign in any way without DocuSign's prior authorization.

14.2 **Assignability**. Subscriber may not assign its rights, duties, or obligations under this Agreement without DocuSign's prior written consent. If consent is given, this Agreement will bind Subscriber's successors and assigns. Any attempt by Subscriber to transfer its rights, duties, or obligations under this Agreement except as expressly provided in this Agreement is void. Notwithstanding the foregoing, either party may assign this Agreement to a successor of its business without the other party's consent.

14.3 **Nonsolicitation**. During the Term of this Agreement and for a period of one year thereafter, Subscriber will not, directly or indirectly, employ or solicit the employment or services of a DocuSign employee or independent contractor without the prior written consent of DocuSign.

14.4 **Notices**. Any notice required or permitted to be given in accordance with this Agreement will be effective if it is in writing and sent using: (a) the "acknowledge receipt" function of the Subscription Service; (b) by certified or registered mail; or (c) insured courier, to the appropriate party at the address set forth on the Order Form. Either party may change its address for receipt of notice by notice to the other party in accordance with this Section. Notices are deemed given upon receipt if delivered using the Subscription Service, two business days following the date of mailing, or one business day following delivery to a courier.

14.5 **Force Majeure.** Except for any payment obligations, neither party will be liable for, or be considered to be in breach of or default under this Agreement on account of, any delay or failure to perform as required by this Agreement as a result of any cause or condition beyond such party's reasonable control, so long as such party uses all commercially reasonable efforts to avoid or remove such causes of non-performance or delay.

14.6 **Dispute Resolution**. In the event of any dispute regarding any right or obligation under this Agreement, the aggrieved party shall notify the other party in a writing describing the dispute ("Notice of Dispute"). Upon receipt of the Notice of Dispute, the parties shall arrange a meeting between their representatives. Over a period not to exceed 10 business days after receipt of Notice of Dispute ("Period"), the parties shall engage in good faith negotiations to resolve such dispute. If the parties' representatives are unable to resolve the dispute at such meetings during the Period, then each party may seek any remedies available to it in law or equity. Notwithstanding the foregoing, either party may seek injunctive relief at any time. Each party hereby irrevocably waives, to the fullest extent permitted by law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement.

14.7 **Governing Law**. This Agreement will be interpreted, construed, and enforced in all respects in accordance with the local laws of the State of Washington, U.S.A., without reference to its choice of law rules to the contrary. The provisions of the 1980 U.N. Convention on Contracts for the International Sale of Goods are expressly excluded and do not apply to this Agreement. Any legal action by Subscriber arising under this Agreement must be initiated within two years after the cause of action arises.

14.8 **Waiver**. The waiver by either party of any breach of any provision of this Agreement does not waive any other breach. The failure of any party to insist on strict performance of any covenant or obligation in accordance with this Agreement will not be a waiver of such party's right to demand strict compliance in the future, nor will the same be construed as a novation of this Agreement.

14.9 **Severability**. If any part of this Agreement is found to be illegal, unenforceable, or invalid, the remaining portions of this Agreement will remain in full force and effect. If any material limitation or restriction on the grant of any license to Subscriber under this Agreement is found to be illegal, unenforceable, or invalid, the license will immediately terminate.

14.10 **Counterparts**. This Agreement may be executed in any number of identical counterparts, notwithstanding that the parties have not signed the same counterpart, with the same effect as if the parties had signed the same document. All counterparts will be construed as and constitute the same agreement.

14.11 **Entire Agreement**. This Agreement is the final and complete expression of the agreement between these parties regarding the DocuSign Products. This Agreement supersedes, and the terms of this Agreement govern, all previous oral and written communications regarding these matters. This Agreement may be changed only by a written agreement signed by an authorized agent of both parties.

ADDITIONAL TERMS AND CONDITIONS FOR CONSULTING SERVICES

The following additional terms and conditions apply to Consulting Services, if any, that are made the subject of an Order Form.

15. SERVICES, WORK ORDERS, AND CHANGE ORDERS

15.1 **Services**. Subject to the terms and conditions of this Agreement, DocuSign will, if ordered as provided hereunder, perform for Subscriber certain Consulting Services.

15.2 **Work Orders**. The specific details of the Consulting Services to be performed will be determined on a per-project basis, and the details for each project will be described in a Work Order that is executed by both parties (called the "Work Order" for purposes of the Consulting Services). An Order Form that lists a DocuSign standard training or consulting package as a DocuSign Product constitutes a Work Order. Once executed by both parties, each Work Order will be a unique agreement that incorporates the terms of this Agreement and stands alone with respect to all other Order Forms. If there is a conflict between the terms of this Agreement and the terms of a Work Order, the terms of this Agreement will control unless the Work Order states that a specific provision of this Agreement will be superseded by a specific provision of the Work Order.

15.3 **Change Orders**. Unless otherwise specified in a Work Order, Subscriber may reasonably request in writing that revisions be made with respect to the Consulting Services or deliverables set forth in that Work Order ("Change Order"). If a Change Order recites revisions that materially increase the scope of the Consulting Services or the effort required to deliver deliverables under the applicable Work Order, then within 10 business days after DocuSign's receipt of the Change Order, DocuSign will deliver to Subscriber a written, revised Work Order reflecting DocuSign's reasonable determination of the revised Consulting Services, deliverables, delivery schedule, payment schedule, and adjusted fees or fee estimates, if any, that will apply to the implementation of the revisions. If Subscriber approves the revised Work Order, then the parties will execute it, and upon execution, the revised Work Order will supersede the then-existing Work Order. If Subscriber does not approve the revised Work Order within 10 business days after its receipt by Subscriber, the then-existing Work Order will remain in full force and effect, and DocuSign will have no further obligation with respect to the applicable Change Order.

16. PERFORMANCE OF CONSULTING SERVICES

16.1 **Project Management**. For each project described in a Work Order, each party will designate a single point of contact within its organization to manage the project ("Project Leader"). The Project Leaders will meet as necessary to manage the Consulting Services to be performed under a Work Order. Disputes will be escalated to more senior executives if the Project Leaders are unable to resolve a problem. DocuSign's Project Leader will provide Subscriber's Project Leader with regular reports on the status of the Consulting Services at least once per month.

16.2 **Performance Standard**. DocuSign warrants to Subscriber that the Consulting Services will be performed in a good and workmanlike manner in accordance with standard industry practice and the applicable Work Order, including any specifications

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

in such Work Order. DocuSign will complete the Consulting Services, including the delivery of any deliverables, in accordance with the schedule of times and milestones specified in the Work Order.

16.3 **Fees**. Unless otherwise specified in a Work Order, Subscriber will pay DocuSign for Consulting Services on a time-and-materials basis at DocuSign's then-current rates and under payment terms described in this Agreement ("Consulting Fees").

16.4 **Disclaimer**. EXCEPT FOR WARRANTIES PROVIDED HEREIN OR EXPRESSLY IDENTIFIED AS SUCH IN A WORK ORDER, THE CONSULTING SERVICES AND ANY RELATED DELIVERABLES WILL BE PROVIDED AS-IS AND WITHOUT WARRANTY OF ANY KIND. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT AS TO ANY AND ALL CONSULTING SERVICES AND RELATED DELIVERABLES.

17. TERM AND TERMINATION OF WORK ORDERS

17.1 **Term**. Each Work Order is non-cancellable except pursuant to a Change Order, and will commence on the specified effective date and will continue until each party's obligations under the Work Order have been fulfilled or the Work Order is terminated as provided in the Work Order.

17.2 **Effect of Termination**. If any Work Order is terminated in accordance with this Section 17, then Subscriber will pay to DocuSign any Consulting Fees and all other payment obligations accrued and payable for the Consulting Services performed under the terminated Work Order through the effective date of the termination. If a Work Order is terminated for any reason other than for material breach by DocuSign, Subscriber will pay to DocuSign all Consulting Fees due under the Work Order had the Work Order not been terminated and had the Consulting Services been fully performed in accordance with the schedule then in effect, which amount owing will be evidenced in a final termination invoice to be provided by DocuSign to Subscriber. The amount of Consulting Services Fees specified in such termination invoice from DocuSign will be final and binding on the parties, absent manifest error.

18. PROPRIETARY RIGHTS

18.1 **Subscriber Materials**. Any materials provided by Subscriber to DocuSign specifically for use by DocuSign in the course of the Consulting Services ("Subscriber Materials") will be used and disclosed solely as required to perform the Consulting Services. As between the parties, Subscriber will continue to own the Subscriber Materials.

18.2 **Inventions**. Except as expressly set forth to the contrary in a Work Order, all works of authorship, inventions, discoveries, improvements, methods, processes, formulas, designs, techniques, and information: (a) conceived, discovered, developed or otherwise made by DocuSign, solely or in collaboration with others, in the course of performing the Consulting Services; or (b) that form all or part of a deliverable provided as part of the Consulting Services, whether developed as part of the Consulting Services or separately, but excluding Subscriber Materials (as defined in Section 18.1) (collectively, "Inventions"), will be the sole property of DocuSign. Upon and subject to final payment by Subscriber of all amounts owing to DocuSign, DocuSign hereby grants to Subscriber a nonexclusive, perpetual, worldwide, royalty-free license to use, copy, modify, and prepare derivative works of the Inventions solely for purposes of Subscriber's internal business operations only.

(a) estimated Fees for Professional Services do not include any hardware, software, licensing, maintenance or support costs of any FireEye or other third-party product or service suggested by FireEye in the course of performing Professional Services; (b) when FireEye's personnel are performing Professional Services on site at Customer's premises, Customer will allocate appropriate working space and physical access for all FireEye personnel; (c) Customer will make available key individuals within the security program that can best help plan and coordinate activities described in the SOW; (d) either party may elect to submit written change requests to the other party proposing changes to the Statement of Work. All changes to the requirements and Statement of Work will be made using agreed-to project change control procedures.

5.5 Evaluations. If Customer receives a Product or Subscription for evaluation purposes ("Evaluation Offerings") then Customer may use the Evaluation Offerings for its own internal evaluation purposes for a period of up to thirty (30) days from the date of receipt of the Evaluation Offerings (the "Evaluation Period"). Customer and FireEye may, upon mutual written agreement (including via email), extend the Evaluation Period. If the Evaluation Offering includes hardware components, Customer will return the hardware within ten (10) days of the end of the Evaluation Period, and if Customer does not return the hardware within this period, Customer shall be invoiced for the then-current list price for the applicable Evaluation Offering. Customer acknowledges that title to hardware components of Evaluation Offerings remains with FireEye at all times, and that Evaluation Offerings may be used and/or refurbished units. If the Evaluation Offering does not include hardware components, Evaluator must delete all software and other components (including Documentation) related to the Evaluation Offering at the end of the Evaluation Period, and confirm those deletions in writing to FireEye, or the Evaluator shall be invoiced for the then-current list price for the Evaluation Offering. If the Evaluation Offering is a Subscription, Evaluator understands that FireEye may disable access to the Subscription automatically at the end of the Evaluation Period, without notice to Evaluator. EVALUATION OFFERINGS ARE PROVIDED "AS IS", AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, FIREEYE DISCLAIMS ALL WARRANTIES RELATING TO THE EVALUATION OFFERINGS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES AGAINST INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

6. INTELLECTUAL PROPERTY

6.1. Ownership of FireEye Materials; Restrictions. All Intellectual Property Rights in FireEye Materials, Products, Deliverables, Documentation, and Subscriptions belong exclusively to FireEye and its licensors. Customer will not (and will not allow any third party to): (i) disassemble, decompile, reverse compile, reverse engineer or attempt to discover any source code or underlying ideas or algorithms of any FireEye Materials (except to the limited extent that applicable law prohibits reverse engineering restrictions); (ii) sell, resell, distribute, sublicense or otherwise transfer, the FireEye Materials, or make the functionality of the FireEye Materials available to any other party through any means (unless otherwise FireEye has provided prior written consent), (iii) without the express prior written consent of FireEye, conduct any benchmarking or comparative study or analysis involving the FireEye Materials ("Benchmarking") for any reason or purpose except, to the limited extent absolutely necessary, to determine the suitability of Products or Subscriptions to interoperate with Customer's internal computer systems; (iv) disclose or publish to any third party any Benchmarking or any other information related thereto; (v) use the FireEye Materials or any Benchmarking in connection with the development of products, services or subscriptions that compete with the FireEye Materials; or (vi) reproduce, alter, modify or create derivatives of the FireEye Materials. Between Customer and FireEye, FireEye shall retain all rights and title in and to any Indicators of Compromise FireEye developed by or for FireEye in the course of providing Subscriptions or performing Services.

6.2. Third Party Materials. Customer acknowledges that Products and Subscriptions may include Third Party Materials. FireEye represents that these Third Party Materials will not diminish the license rights provided herein or limit Customer's ability to use the Products and Subscriptions in accordance with the applicable Documentation, and neither the inclusion of Third Party Materials in any Product or Subscription or use of Third Party Materials in performance of Services will create any obligation on the part of Customer to license Customer's software or products under any open source or similar license.

7. WARRANTIES.

7.1. Product Warranty. FireEye warrants to Customer that during the one (1) year period following the shipment of the Products, the Products will perform substantially in accordance with the applicable Documentation. Any Product that has either been repaired or replaced under this warranty shall have warranty coverage for the remaining warranty period. Replacement parts used in the repair of a Product may be new or equivalent to new.

7.2. Services Warranty. FireEye warrants to Customer that Services will be performed in a professional manner in accordance with industry standards for like services. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the Services were performed, and FireEye will promptly correct or re-perform the Services, at FireEye's expense.

7.4. Remedies Exclusive. Except for any Service Level Credits described in Exhibit B, the remedies stated in Sections 7.1-7.3 above are the sole remedies, and FireEye's sole obligation, with respect to Products, Subscriptions and Services that fail to comply with the foregoing warranties.

7.5. Disclaimer of Warranties. EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH HEREIN, ALL PRODUCTS, SUBSCRIPTIONS, FIREEYE MATERIALS, DELIVERABLES AND SERVICES ARE PROVIDED ON AN "AS IS" BASIS WITHOUT ANY WARRANTY WHATSOEVER. FIREEYE AND ITS SUPPLIERS EXPRESSLY DISCLAIM, TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, ALL WARRANTIES, EXPRESS, IMPLIED AND STATUTORY, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, NONINFRINGEMENT, OR ARISING FROM COURSE OF PERFORMANCE, DEALING, USAGE OR TRADE. FIREEYE ALSO MAKES NO WARRANTY REGARDING NONINTERRUPTION OF USE OR FREEDOM FROM BUGS, AND MAKES NO WARRANTY THAT PRODUCTS, FIREEYE MATERIALS, DELIVERABLES, SERVICES OR SUBSCRIPTIONS WILL BE ERROR-FREE.

8. INFRINGEMENT INDEMNITY.

8.1. FireEye shall defend Customer, and its officers, directors and employees, against any third party action alleging that the FireEye Materials infringes a valid U.S. patent or copyright issued as of the date of delivery or performance, as applicable, and FireEye shall pay all settlements entered into, and all final judgments and costs (including reasonable attorneys' fees) finally awarded against such party in connection with such action. If the FireEye Materials, or parts thereof, become, or in FireEye's opinion may become, the subject of an infringement claim, FireEye may, at its option: (i) procure for Customer the right to continue using the applicable FireEye Materials; (ii) modify or replace such FireEye Materials with a substantially equivalent non-infringing FireEye Materials; or (iii) require the return of such FireEye Materials or cease providing affected Product, Subscriptions, Deliverables or Services, and refund to Customer, with respect to Products, a pro-rata portion of the purchase price of such Products based on a three-year straight line amortization of the purchase price, and with respect to Subscriptions, a portion of any pre-paid Fees for such Subscriptions, pro rated for any unused Subscription Term, and with respect to Services, any pre-paid Fees for Services that have not been delivered. THIS SECTION 8.1 STATES THE ENTIRE LIABILITY OF FIREEYE AND CUSTOMER'S SOLE REMEDY WITH RESPECT TO ANY INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS BY THE OFFERINGS, FIREEYE MATERIALS, OR DELIVERABLES.

8.2. FireEye shall have no indemnification obligations with respect to any action arising out of: (i) the use of any Product, Subscription, Deliverable, or Service, or any part thereof, in combination with software or other products not supplied by FireEye; (ii) any modification of the Products, Subscriptions, Deliverables, or Services not performed or expressly authorized by FireEye; or (iii) the use of any the Products, Subscriptions, Deliverables, or Services other than in accordance with this Agreement and applicable Documentation.

9. LIMITATION OF LIABILITY.

9.1. Consequential Damages Waiver. EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, OR THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), IN NO EVENT WILL FIREEYE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO ANY LOST PROFITS AND LOST SAVINGS, HOWEVER CAUSED, WHETHER FOR BREACH OR REPUDIATION OF CONTRACT, TORT, BREACH OF WARRANTY, NEGLIGENCE, OR OTHERWISE, WHETHER OR NOT FIREEYE WAS ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.

9.2. Limitation of Monetary Damages. EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, PAYMENT OBLIGATIONS OF CUSTOMER, AND THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), AND NOTWITHSTANDING ANY OTHER PROVISIONS OF THIS AGREEMENT OR ANY ORDER OR STATEMENT OF WORK, FIREEYE'S TOTAL LIABILITY ARISING OUT OF THIS AGREEMENT, THE OFFERINGS, THE FIREEYE IP AND DELIVERABLES SHALL BE LIMITED TO THE TOTAL AMOUNTS

RECEIVED BY FIREEYE FOR THE RELEVANT OFFERINGS DURING THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE FIRST OCCURRENCE OF THE EVENTS GIVING RISE TO SUCH LIABILITY.

9.3. Applicability. THE LIMITATIONS AND EXCLUSIONS CONTAINED HEREIN WILL APPLY ONLY TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, AND NOTHING HEREIN PURPORTS TO LIMIT EITHER PARTY'S LIABILITY IN A MANNER THAT WOULD BE UNENFORCEABLE OR VOID AS AGAINST PUBLIC POLICY IN THE APPLICABLE JURISDICTION.

9.4 SAFETY Act. FireEye and Customer hereby mutually waive and release each other from any and all liabilities relating to any claims for losses or damages of any kind (including, but not limited to, business interruption losses) arising out of an Act of Terrorism as defined by the Support Anti-Terrorism By Fostering Effective Technologies Act of 2002 ("SAFETY Act")(6 U.S.C. §§ 441-444). 10. Export Control; Anti-Corruption; U.S. Government Restricted Rights.

10.1. Export Control. Export Control. Each party represents and warrants that it shall comply with all laws and regulations applicable to it with respect to the Offerings. Customer further acknowledges and agrees that the Products and FireEye Materials may be subject to restrictions and controls imposed by the United States Export Administration Act, the regulations thereunder, as well as European Union ("EU") or National export control laws and obligations and similar laws in other jurisdictions. Customer agrees to comply with all applicable export and re-export control laws and regulations, including the Export Administration Regulations ("EAR") maintained by the U.S. Department of Commerce, trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State. Specifically, Customer covenants that it shall not, directly or indirectly, sell, export, reexport, transfer, divert, or otherwise dispose of any Products, FireEye Materials, or technology (including products derived from or based on such technology) received from FireEye under this Agreement to any destination, entity, or person prohibited by the laws or regulations of the United States and the EU, without obtaining prior authorization from the competent government authorities as required by those laws and regulations. These prohibitions include, but are not limited to the following: (i) the Products and FireEye Materials cannot be exported or re-exported to any countries embargoed by the United States (currently including Cuba, Iran, North Korea, Sudan or Syria) which includes nationals of these countries employed by Customer; (ii) the Products and FireEye Materials cannot be exported or re-exported for military use in country group 'b' prior to valid 'export license' or valid 'license exception'; and (iii) the Products and FireEye Materials cannot be used for any prohibited end uses including any "nuclear, biological or chemical weapon related activities."; and (iv) the Products and FireEye Materials will not be re-exported or otherwise sold or transferred if it is known or suspected that they are intended or likely to be used for such purposes. Customer agrees to notify FireEye of any suspicious activities by any employee related to the Products. Customer agrees to indemnify, to the fullest extent permitted by law, FireEye from and against any fines or penalties that may arise as a result of Customer's breach of this provision. This export control clause shall survive termination or cancellation of any Orders.

10.2. Anticorruption Laws. Each Party acknowledges that it is familiar with and understands the provisions of the U.S. Foreign Corrupt Practices Act ("the FCPA") and the U.K. Bribery Act of 2010 ("UKBA") and agrees to comply with its terms as well as any provisions of local law related thereto. Each party further understands the provisions relating to the FCPA and UKBA's prohibitions regarding the payment or giving of anything of value, including but not limited to payments, gifts, travel, entertainment and meals, either directly or indirectly, to an official of a foreign government or political party for the purpose of influencing an act or decision in his or her official capacity or inducing the official to use his or her party's influence with that government, to obtain or retain business involving the Offering. Each Party agrees to not violate or knowingly let anyone violate the FCPA or UKBA, and Each Party agrees that no payment it makes will constitute a bribe, influence payment, kickback, rebate, or other payment that violates the FCPA, the UKBA, or any other applicable anticorruption or anti-bribery law.

10.3. U.S. Government Restricted Rights. The Offerings, Deliverables and Documentation are "commercial items", "commercial computer software" and "commercial computer software documentation," pursuant to DFAR Section 227.7202 and FAR Section 12.212, as applicable. All Offerings and FireEye Materials are and were developed solely at private expense. Any use, modification, reproduction, release, performance, display or disclosure of the Offerings, FireEye Materials and Documentation by the United States Government shall be governed solely by the this Agreement and shall be prohibited except to the extent expressly permitted by this Agreement.

11. CONFIDENTIAL INFORMATION.

11.1. Confidential Information. "Confidential Information" means the non-public information that is exchanged between the parties, provided that such information is: (i) identified as confidential at the time of disclosure by the disclosing party ("Discloser"); or (ii) disclosed under circumstances that would indicate to a reasonable person that the information should be treated as confidential by the party receiving such information ("Recipient"). The terms of any commercial transaction between the parties (including pricing related to the Offerings) shall be considered Confidential Information.

11.2. Maintenance of Confidentiality. Each party agrees that it shall: (i) take reasonable measures to protect the Confidential Information by using the same degree of care, but no less than a reasonable degree of care, to prevent the unauthorized use, dissemination or publication of the Confidential Information as the Recipient uses to protect its own confidential information of a like nature; (ii) limit disclosure to those persons within Recipient's organization with a need to know and who have previously agreed in writing, prior to receipt of Confidential Information either as a condition of their employment or in order to obtain the Confidential Information, to obligations similar to the provisions hereof; (iii) not copy, reverse engineer, disassemble, create any works from, or decompile any prototypes, software or other tangible objects which embody the other party's Confidential Information and/or which are provided to the party hereunder; and (iv) comply with, and obtain all required authorizations arising from, all U.S. and other applicable export control laws or regulations.. Confidential Information shall not be used or reproduced in any form except as required to accomplish the purposes and intent of an Order or Statement of Work. Any reproduction of Confidential Information shall be the property of Discloser and shall contain any and all notices of confidentiality contained on the original Confidential Information.

11.3. Exceptions. The parties agree that the foregoing shall not apply to any information that Recipient can evidence: (i) is or becomes publicly known and made generally available through no improper action or inaction of Recipient; (ii) was already in its possession or known by it prior to disclosure by Discloser to Recipient; (iii) is independently developed by Recipient without use of or reference to any Confidential Information; or (iv) was rightfully disclosed to it by, or obtained from, a third party. Recipient may make disclosures required by law or court order provided that Recipient: (a) uses diligent efforts to limit disclosure and to obtain, if possible, confidential treatment or a protective order; (b) has given prompt advance notice to Discloser of such required disclosure; and (c) has allowed Discloser to participate in the proceedings.

11.4. Injunctive Relief. Each party will retain all right, title and interest to such party's Confidential Information. The parties acknowledge that a violation of the Recipient's obligations with respect to Confidential Information may cause irreparable harm to the Discloser for which a remedy at law would be inadequate. Therefore, in addition to any and all remedies available at law, Discloser shall be entitled to seek an injunction or other equitable remedies in all legal proceedings in the event of any threatened or actual violation of any or all of the provisions hereof.

11.5. Return of Confidential Information. Within thirty (30) days after the date when all Orders and SOWs have expired or been terminated, or after any request for return of Confidential Information, each party will return to the other party or destroy all of such other party's Confidential Information, at such other party's discretion, and, upon request, provide such other party with an officer's certificate attesting to such return and/or destruction, as appropriate.

11.6. Privacy. If FireEye is a data processor under this Agreement, further to the provisions of Article 17 and 25 of the EU Data Protection Directive EU (Directive 95/46/EC), FireEye agrees that it will:

11.6.1 only deal with and process personal data controlled by Customer in compliance with, and subject to, the instructions received from Customer and in compliance with this Agreement and will not use or process the personal data for any other purpose whatever;

11.6.2 adopt and maintain appropriate (including organizational and technical) security measures in dealing with Customer's personal data in order to protect against unauthorized or accidental access, loss, alteration, disclosure or destruction of such data, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing; and

11.6.3 take all reasonable steps to ensure that (i) persons employed by it, and (ii) other persons engaged at its place of work, are aware of and comply with applicable data privacy laws and regulations.

11.6.4 FireEye may process or otherwise transfer any personal information in or to any country outside the European Economic Area or any country not deemed adequate by the European Commission pursuant to Article 25(6) to the extent necessary for the provision of the Offerings. If required, FireEye will enter into the EU Standard Contractual Clauses as approved by the European Commission for ensuring an adequate level of data protection in respect of the personal information that will be processed or transferred.

12. TERM AND TERMINATION.

12.1. Term.

12.1.1 Products. Products will be licensed according to the applicable terms in Exhibit A, for the period of time stated on the Order (e.g., if the Order lists a Product as being provided for "3Y," the license for that Product is provided for three years from the date of the Order). If no period of time is stated on the Order, then the Product is licensed perpetually, unless otherwise terminated as set forth herein.

12.1.2 Support Services. Support Services will begin ten (10) days from the date of shipment of the associated Product and continue for the period of time stated on the Order("Initial Support Term"). Unless otherwise stated on the Order, the Support Services will automatically renew for additional periods of one (1) year each (each, a "Renewal Support Term" and together with the Initial Support Term, the "Support Term"), unless either party notifies the other of its intention not to renew Support Services at least sixty (60) days prior to the expiration of the then-current Support Term. Customer may terminate Support at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates Support Services for convenience before the end of the then-current Support Term, Customer will pay any remaining fees owing for the remainder of the then-current Support Term within thirty (30) days of the effective date of termination.

12.1.3 Subscriptions. The term of each Subscription will begin on the Order Effective Date and will continue in effect for the period of time stated in the Order ("Initial Subscription Term"). Unless otherwise stated on the Order, the Subscription will automatically renew after its Initial Subscription Term for additional periods of one (1) year each (each, a "Renewal Subscription Term" and together with the Initial Subscription Term, the "Subscription Term"), unless either party notifies the other of its intention not to renew that Subscription at least sixty (60) days prior to the expiration of the then-current Subscription Term. Customer may terminate a Subscription at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates a Subscription for convenience before the end of the then-current Subscription Term, Customer will pay any remaining fees owing for the remainder of the then-current Subscription Term within thirty (30) days of the effective date of termination.

12.1.4 Professional Services; Statements of Work. Professional Services described on an Order will be provided at mutually agreed-upon times, and will continue until complete, unless otherwise terminated as set forth herein. The term of each SOW will be as set forth in that SOW. If no term is expressed in an SOW, then the term of that SOW will begin on the SOW Effective Date and continue until the Professional Services described in that SOW are complete or the SOW is earlier terminated as set forth herein. Unless otherwise stated in a SOW, Customer may terminate a SOW at any time for convenience by giving FireEye at least thirty (30) days' written notice of its intent to terminate the SOW. If Customer terminates an SOW for convenience as set forth in this Section, Customer will pay any amounts owing for Professional Services and Deliverables provided under that SOW up to and including the date of termination. Customer may request that FireEye suspend performing Professional Services during the term of a Statement of Work, and FireEye will suspend such Professional Services within 24 hours of Customer's request. Customer acknowledges that any such suspension will not affect Customer's obligation to pay fees for Professional Services rendered through the date of suspension, and that

resumption of Professional Services may be delayed if FireEye redeploys personnel to other engagements during the period of suspension.

12.2. Termination for Material Breach. Either party may terminate any Order or any SOW upon written notice of a material breach of the applicable Order or SOW by the other party as provided below, subject to a thirty (30) day cure period ("Cure Period"). If the breaching party has failed to cure the breach within the Cure Period after the receipt by the breaching party of written notice of such breach, the non-breaching party may give a second notice to the breaching party terminating the applicable Order or SOW. Termination of any particular Order or SOW under this Section will not be deemed a termination of any other Order or SOW, unless the notice of termination states that another Order or SOW is also terminated. Notwithstanding the foregoing, the Cure Period applicable to a breach by Customer of any payment obligations under any Order or any SOW will be fifteen (15) days. Notwithstanding the foregoing, this Agreement shall terminate automatically in the event Customer has breached any license restriction and, in FireEye's determination, that breach cannot be adequately cured within the Cure Period.

12.3. Effect of Termination. Termination or expiration of any Order or SOW will not be deemed a termination or expiration of any other Orders or SOWs in effect as of the date of termination or expiration, and this Agreement will continue to govern and be effective as to those outstanding Orders and SOWs until those Orders and SOWs have expired or terminated by their own terms or as set forth herein. The provisions of Section 3 (Payment), Section 6 (Intellectual Property), Section 7.5 (Disclaimer of Warranties), 9 (Limitation of Liability), 10 (Export Control; Anti-Corruption; U.S. Government Restricted Rights), 12 (Confidential Information), and 13 (Miscellaneous), and all accrued payment obligations, shall survive the termination of all Orders and SOWs and the relationship between FireEye and Customer.

13. MISCELLANEOUS.

13.1. Assignment. Customer may not assign any Order or Statement of Work, or any rights or obligations thereunder, in whole or in part, without FireEye's prior written consent, and any such assignment or transfer shall be null and void. FireEye shall have the right to assign all or part of an Order or Statement of Work without Customer's approval. Subject to the foregoing, each Order and Statement of Work shall be binding on and inure to the benefit of the parties' respective successors and permitted assigns.

13.2. Entire Agreement. This Agreement along with any Order, Statement of Work and the Exhibits attached hereto is the entire agreement of the parties with respect to the Offerings and supersedes all previous or contemporaneous communications, representations, proposals, commitments, understandings and agreements, whether written or oral, between the parties regarding the subject matter thereof. FireEye does not accept, expressly or impliedly and FireEye hereby rejects and deems deleted any additional or different terms or conditions that Customer presents, including, but not limited to, any terms or conditions contained or referenced in any order, acceptance, acknowledgement, or other document, or established by trade usage or prior course of dealing. This Agreement may be amended only in writing signed by authorized representatives of both parties.

13.3. Force Majeure. Neither party will be liable to the other for any delay or failure to perform any obligation under this Agreement (except for a failure to pay fees) if the delay or failure is due to unforeseen events, which occur after the signing of this Agreement and which are beyond the reasonable control of the parties, such as strikes, blockade, war, terrorism, riots, natural disasters, refusal of license by the government or other governmental agencies, in so far as such an event prevents or delays the affected party from fulfilling its obligations and such party is not able to prevent or remove the force majeure at reasonable cost.

13.4. Governing Law. This Agreement shall be deemed to have been made in, and shall be construed pursuant to the laws of the State of California and the United States without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods or the Uniform Computer Information Transactions Act. Any legal suit, action or proceeding arising out of or relating to the Offerings, the FireEye Materials, this Agreement, an Order or a Statement of Work will be commenced exclusively in a federal court in the Northern District of California or in state court in Santa Clara County, California, and each party hereto irrevocably submits to the jurisdiction and venue of any such court in any such suit, action or proceeding.

13.5. Independent Contractors. The parties are independent contractors. Nothing in this Agreement, any Order or any Statement of Work shall be construed to create a partnership, joint venture or agency relationship between the parties. Customer shall make no representations or warranties on behalf of FireEye.

13.6. Language. This Agreement and each Order and Statement of Work are in the English language only, which shall be controlling in all respects. All communications, notices, and Documentation to be furnished hereunder shall be in the English language only.

13.7. Notices. All notices required to be sent hereunder shall be in writing, addressed to receiving party's current business contact, if known, with a cc: to the General Counsel/Legal Department of the receiving party, and sent to the party's address as listed in this Agreement, or as updated by either party by written notice. Notices shall be effective upon receipt and shall be deemed to be received as follows: (i) if personally delivered by courier, when delivered; or (ii) if mailed by first class mail, or the local equivalent, on the fifth business day after posting with the proper address.

13.8. Severability. If any provision of this Agreement is held to be illegal, invalid or unenforceable under the laws of any jurisdiction, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in full force and effect.

13.9. Third Party Rights. Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

13.10. Waiver. The waiver of a breach of any provision of this Agreement shall not constitute a waiver of any other provision or any subsequent breach.

13.11. Equal Opportunity. FireEye is committed to the provisions outlined in the Equal Opportunity Clauses of Executive Order 11246, the Rehabilitation Act of 1973, the Vietnam Era Veterans Readjustment Act of 1974, the Jobs for Veterans Act of 2003, as well as any other regulations pertaining to these orders.

Wherefore, the parties have caused this Master Purchase Agreement to be executed as of the Effective Date.

1.5 "**Full Coverage Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.

1.6 "**High Priority Alert Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.

1.7 "**FaaS Reports**" means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CP Subscription.

1.8 "**High Priority Alert**" means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level "critical" or "major"; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a "High Priority Alert" in the table in Section 1.11 below.

1.9 "**Low Priority Alert**" means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.

1.10 "**Nodes**" or "**Node Band**" refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.

1.11 "**TAP Alert**" means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., "Critical," "High," "Medium"). TAP Alerts are investigated and reported on as "APT Alerts" and "High Priority Alerts" as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

FireEye Rule Pack	APT Alerts	High Priority Alerts

1.13 "**TAP Rule Packs**" means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

2 **Scope of FaaS – Continuous Protection (CP) Subscription**. During the Subscription Term, FireEye will provide the CP Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription lvel purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CP Subscription is provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. The CP Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye's then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

2.1 Event Analysis.

(a) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).

(b) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.

(c) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer's Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.

(d) FaaS Reports. If FireEye's investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye's investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

Alerts Investigated (Level of Service)			**FaaS Alert Classification**	**Time to Begin Investigation (from time Product or TAP Subscription generates Alert)**	**Time to Publish FaaS Report (from time FireEye validates actual compromise)**	**Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert)**
APT Only Service	**High Priority Alerts Service**	**Full Coverage Service**				
Yes	Yes	Yes	APT Alert	1 hours	1 hour	24 hours
No	Yes	Yes	High Priority Alert	7 hours	1 hour	24 hours
No	No	Yes	Low Priority Alert	24 hours	1 hour	48 hours

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) Extended Investigations; Multiple Related Alerts. When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) Non-Remediable Alerts. FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) Alert Priority. FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) Continuity of Monitoring. All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

2.2 System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

2.3 Containment. When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

2.4 Portal Access. Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

2.5 FireEye Intelligence Center. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

(a) Permitted Use; Reports. Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

(b) Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

(c) User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.

(d) Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

(e) Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

2.6 Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

2.7 Customer Networks. The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

2.8 Connectivity Requirements. Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCP-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

2.9 **Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

2.10 **Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii)

Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

3. FaaS Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of FaaS Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

SUBSCRIPTION TERMS FOR FIREEYE THREAT ANALYTICS PLATFORM (TAP)

The following terms govern the Threat Analytics Platform Subscription, including purchase and support of TAP Cloud Collector™ Appliances and Support.

1. TAP Software, Alerts

1.1.1 TAP Software and Hardware. As part of the TAP Subscription, FireEye may deliver to Customer one or more software files (individually and collectively, "TAP Software"), and/or one or more "Cloud Collector" hardware appliances ("Cloud Collector Appliances"), which may contain TAP Software. Subject to full payment of all Fees associated with the TAP Subscription, FireEye grants to Customer a non-exclusive, limited right and license to install and run the TAP Software during the Subscription Term solely for purposes of using the TAP Subscription in accordance with the Documentation for the TAP Subscription.

1.1.2 Access; Customer Logs. FireEye will provide Customer with credentials to enable access to the TAP Subscription. Using the TAP Software, and subject to payment of Fees for the TAP Subscription and any Cloud Collector Appliances, Customer may upload Customer Logs to the TAP portal ("TAP Portal"). "Customer Logs" means any communications, logs and other content and information that Customer or anyone using Customer's account contributes to or through the TAP Portal. Customer grants to FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive license and right to reproduce, modify, create derivative works from, publish, distribute, sell, sub-license, transmit, publicly display and provide access to Customer Logs, for purposes of enhancing FireEye's products and services, so long as (i) FireEye ensures that any Customer Confidential Information is removed from Customer Logs, and (ii) FireEye's use of Customer Logs does not in any way identify Customer or its employees or in any other way allow a third party to identify Customer as the source of the Customer Logs. Customer Logs are Customer's property, and other than the licenses granted in herein, FireEye does not obtain any ownership rights in Customer Logs.

1.1.3 TAP Alerts. Some features of the TAP Subscription may generate alerts of suspected malicious activity (each, a "TAP Alert"). TAP Alerts are FireEye Materials. FireEye hereby grants to Customer a limited, non-exclusive right to use TAP Alerts, and reproduce and distribute those TAP Alerts internally for Customer's own business purposes.

1.1.4 Cloud Collector Management. If Customer has installed Cloud Collectors in connection with the TAP Subscription, then FireEye will continuously monitor the Customer's Cloud Collector Appliances or Cloud Collector TAP Software for system health issues such as monitoring to ensure proper throughput and relay of data.

1.1.5 Cloud Collector Appliances. If the Customer has purchased Cloud Collector Appliances, then during the TAP Subscription Term, FireEye will replace any defective Cloud Collector Appliances as follows:

a) Prior to any return, Customer shall verify that the Cloud Collector Appliance at issue is defective by logging a Support request via one of the mechanisms provided in the Documentation and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information.

b) Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Cloud Collector Appliance to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Cloud Collector Appliance, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Cloud Collector Appliance may be a new or reconditioned Cloud Collector Appliance (of equivalent or better quality) at FireEye's sole discretion.

c) FireEye shall pay the shipping costs to ship the replacement Cloud Collector Appliance to Customer, but Customer shall bear any and all risk of loss of or damage to said Cloud Collector Appliance at all times after said Cloud Collector Appliance is made available by FireEye to the common carrier.

d) Within five (5) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, Customer shall package the defective Cloud Collector Appliance in its original packing material or equivalent, write the RMA number on the outside of the package and return the defective Cloud Collector Appliance, at FireEye's cost (provided Customer utilizes FireEye's designated courier service and properly packages the defective Cloud Collector Appliance according to FireEye's instructions), shipped properly insured, FOB FireEye's designated facility. Customer shall enclose with the returned Cloud Collector Appliance the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Cloud Collector Appliance during shipping. Title to the defective Cloud Collector Appliance shall pass to FireEye upon FireEye's receipt thereof.

e) When a replacement Cloud Collector Appliance is provided and Customer fails to return the defective Cloud Collector Appliance to FireEye within ten (10) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Cloud Collector Appliance at the then-current list price.

2. Event Volume; True-Up

2.1.1 Fees for the TAP Subscription are divided into "Tiers" based on the volume of events processed through the TAP Subscription per second ("Event Volume"). If at any point during the Subscription Term, Customer's Event Volume exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye will not guarantee that Customer Logs in excess of the purchased Tier will be ingested and processed by the TAP Subscription. In times of Event Volume in excess of the paid Tier, Customer Logs will enter a queue. Excessive queueing may cause Customer Logs to be lost from the queue. If at any point during the Subscription Term, Customer's average Event Volume for any consecutive thirty-day period exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye may issue a true-up invoice for the pro-rated difference between the Fees already paid for that Subscription Term and FireEye's list prices for the Fees for the Tier associated with Customer's actual Event Volume for that thirty-day period, pro-rated to reflect that thirty-day period and the remainder of the Subscription Term. FireEye will apply any discounts that were applied to initial Fees to FireEye's list prices for any true-up invoice. Until such time that the True Up invoice is paid in full, the TAP Subscription will continue to ingest and process only the Event Volume of the purchased Tier, allowing any excess Customer Logs to enter queueing conditions. The Tier for any Renewal Subscription Term will be the Tier associated with the actual Event Volume for the immediately preceding Subscription Term.

2.1.2 At the end of the Initial Subscription Term and each Renewal Subscription Term, FireEye may true-up Fees for that Subscription Term, and if the average monthly Event Volume for that Subscription Term exceeds the maximum Event Volume for the Tier for which Customer previously paid Fees, then (a) FireEye will issue a true-up invoice reflecting the difference between the Fees already paid for that Subscription Term and the Fees for the Tier associated with Customer's actual Event Volume.

3. TAP Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the TAP Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the TAP Portal is not available due to a failure or a disruption in TAP Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the TAP Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the TAP Portal during the Emergency Maintenance.

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

3.1.4 "System Availability" means the percentage of total time during which the TAP Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the TAP Portal does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of TAP Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences unavailability of the TAP Portal and ending when a successful solution or workaround allowing for full restoration of the TAP Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

4. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™). During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

i. Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

ii. Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100)queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

iii. User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform, to the extent such information is de-identified.

iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

1. Definitions.

"Cloud Subscription" means the online, web-based applications and platform which is made accessible to Customer by FireEye via a designated website, which includes the associated offline Software components to be used in connection with FireEye Mobile Threat Prevention and/or FireEye Email Threat Prevention. FireEye Mobile Threat Prevention ("MTP") and FireEye Email Threat Prevention ("ETP") are separate Cloud Subscriptions and usage is conditional on what the Customer has indicated on an Order.

"Customer Representatives" means any employee or contractor of Customer or Mobile Device Manager to whom Customer provides access to the Cloud Subscriptions (or any component thereof, including Software) for use on behalf of and for the benefit of the Customer and for Customer's internal business purposes, subject to all the terms and conditions of this Agreement.

"Licensed Device" means (i) with respect to MTP, the registered devices that Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye; and (ii) with respect to ETP, the number of email inboxes Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye. For the avoidance of doubt, with respect to MTP, "registered devices" are those devices which have loaded device Software and which have been registered to the Cloud Subscription and which have not been retired (meaning unregistered).

"Mobile Device Manager" shall mean a third party who has been engaged by the Customer to provide security services for Licensed Devices for the benefit of Customer. Where indicated as such, the Mobile Device Manager shall be a subset of the definition of the Customer Representatives solely as applicable to MTP.

"Software" means the object code version of FireEye's proprietary computer programs delivered to Customer hereunder for use in connection with the Cloud Subscriptions, including collectively and individually the device-side software used on devices registered to the Cloud Subscription ("Device Software") and any connector software and/or any other server-side software (collectively the "Premise Software") , each which are delivered to Customer hereunder for use in connection with the Cloud Subscriptions, and any Documentation, backup copies and updates, upgrades, maintenance releases, bug fixes to any of the forgoing provided to Customer hereunder.

2. Right of Access and Use. Notwithstanding anything else herein, the number of devices Customer and/or Customer Representatives may register to the Cloud Subscriptions may not exceed the number of Licensed Devices.

Notwithstanding anything to the contrary herein, if Customer is using the Cloud Subscriptions for evaluation purposes then such Customer usage is solely for internal testing and evaluation and the Subscription Term shall not exceed fifteen (15) days unless otherwise mutually agreed upon in a signed Evaluation License Agreement.

3. Restrictions. Except as otherwise expressly permitted under this Agreement, Customer agrees that it shall not, nor shall it permit any third party to, (a) use the Cloud Subscriptions (or any portion thereof) in excess of or beyond the Subscription Term, the Licensed Device quantity, and/or other restrictions/limitations described in this Agreement; use the Cloud Subscriptions to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy or other rights; (d) interfere with or disrupt the integrity or performance of the Cloud Subscriptions or third-party data contained therein; (e) use the Software on equipment or devices which are not specified in the Documentation; (f) Cloud Subscription specific to ETP Cloud Subscriptions, Customer shall route email through a commercially available secure email gateway for anti-spam scanning prior to relay through the FireEye network. No rights or licenses are granted other than as expressly and unambiguously set forth herein. Updates and malware detection content and/or support services are not necessarily provided with the Software or Subscriptions, and may require additional payment or include additional terms and conditions. However, to the extent that an update to the Software and/or malware detection content is provided, such update/content shall be deemed "Software" provided subject to this Agreement. If malware detection content/support services are provided, FireEye reserves the right to change the scope or duration of such services at anytime, and to access, freely use and distribute data collected from Customer through such services. If such services are made available, Customer may be required to pay fees or other charges for use or access to some or all such services, which fees and terms will be specified in the invoice or order form for such service.

5. Device Count Increases; Reporting; Invoice. If the number of devices that Customer or Customer Representatives have registered to the Cloud Subscription ("Actual Device Count") exceeds Customer's then current Licensed Device count or if Customer wishes to increase the Licensed Device count, then Customer shall notify FireEye (or the applicable FireEye Partner) and submit an Order for the incremental Subscription Fees due, and upon receipt of such Order, the Licensed Device count shall be amended to reflect this change. Upon written request, Customer will provide FireEye a report identifying (i) the Actual Devices; (ii) the copies of and location of the Premise Software maintained; and (iii) any other information reasonably requested by FireEye at the time as it relates to the use of the Cloud Subscription to determine compliance with the terms of this Agreement. FireEye and/or its Authorized Resellers may invoice Customer if it learns of any shortfalls, i.e. that the Licensed Device Count is below the Actual Device count. The fees charged to Customer for increases in License Device counts will be based on the then-current Subscription Term pricing.

to affect the required licensing of any additional quantities or levels. Reasonable costs of SAP's audit shall be paid by Licensee if the audit results indicate usage in excess of the licensed quantities or levels. SAP reserves all rights at law and equity with respect to both Licensee's underpayment of License fees or SAP Support fees and usage in excess of the license quantities or levels.

4. PRICE, PAYMENT, AND DELIVERY.

4.1 Fees. Licensee shall pay to SAP license fees for the Software and fees for SAP Support on the terms in Software Order Forms hereto. Fees for consulting services will be paid as set forth in the Professional Services Schedule. Any fees not paid when due shall accrue interest at the rate of 18% (eighteen percent) per annum, but not to exceed the maximum amount as allowed by law.

4.2 Taxes. Fees and other charges described in this Agreement do not include federal, state or local sales, foreign withholding, use, property, excise, service, or similar transaction taxes ("Tax(es)") now or hereafter levied, all of which shall be for Licensee's account. Any applicable direct pay permits or valid tax-exempt certificates must be provided to SAP prior to the execution of this Agreement. If SAP is required to pay Taxes, Licensee shall reimburse SAP for such amounts. Licensee hereby agrees to indemnify SAP for any Taxes and related costs, interest and penalties paid or payable by SAP.

4.3 Delivery of the Software and SAP Support. SAP will deliver the Software and SAP Support by making it available for electronic download through the SAP ServiceMarketplace (http://service.sap.com/swdc) to Licensee. Risk of loss passes at the time of such electronic delivery. Licensee agrees not to request any physical delivery of Software or SAP Support and should it occur that any such delivery will be rejected by Licensee. Licensee agrees and understands that the calculation of Taxes may be affected by the delivery method and delivery location of the Software and corresponding SAP Support.

5. TERM.

5.1. Term. This Agreement and the license granted hereunder shall become effective as of the date first set forth in the first Software Order Form issued under these GTCs, and shall continue in effect thereafter unless this Agreement is terminated upon the earliest to occur of the following: (i) thirty days after Licensee gives SAP written notice of Licensee's direction to terminate this Agreement, for any reason, but only after payment of all license and SAP Support fees then due and owing; (ii) thirty days after SAP gives Licensee notice of Licensee's material breach of any provision of the Agreement (other than Licensee's breach of its obligations under Sections 6, 10 or 11, which breach shall result in immediate termination), including more than thirty days delinquency in Licensee's payment of any money due hereunder, unless Licensee has cured such breach during such thirty day period; (iii) immediately if Licensee files for bankruptcy, becomes insolvent, or makes an assignment for the benefit of creditors. For the avoidance of any doubt, termination of the Agreement shall strictly apply to all licenses under the Agreement, its appendices, schedules, addenda and order documents and any partial termination of the Agreement by Licensee shall not be permitted in respect of any part of the Agreement, its appendices, schedules, addenda, order documents.

5.2 End of Term Duties. Upon any termination hereunder, Licensee and its Affiliates shall immediately cease Use of all SAP Materials and Confidential Information. Within thirty (30) days after any termination, Licensee shall irretrievably destroy or upon SAP's request deliver to SAP all copies of the SAP Materials and Confidential Information in every form, except to the extent it is legally required to keep it for a longer period in which case such return or destruction shall occur at the end of such period. Licensee must certify to SAP in writing that it has satisfied its obligations under this Section 5.2. Licensee agrees to certify in writing to SAP that it and each of its Affiliates has performed the foregoing. Sections 3, 4, 5.2, 6, 7.2, 8, 9, 10, 12.4, 12.5, 12.6 and 12.8 shall survive such termination. In the event of any termination hereunder, Licensee shall not be entitled to any refund of any payments made by Licensee. Termination shall not relieve Licensee from its obligation to pay fees that remain unpaid.

6. INTELLECTUAL PROPERTY RIGHTS.

6.1 Reservation of Rights. The SAP Materials, and all Intellectual Property Rights embodied in the foregoing, shall be the sole and exclusive property of SAP, SAP AG (the parent company of SAP) or its or their licensors, subject to any rights expressly granted to Licensee in Section 2 and 6.3 herein. Except for the rights set forth in Section 6.3 herein, Licensee is not permitted to modify or otherwise make derivative works of the Software. Any such unauthorized works developed by Licensee, and any Intellectual Property Rights embodied therein, shall be the sole and exclusive property of SAP or SAP AG.

6.2 Protection of Rights. Licensee shall not copy, translate, disassemble, or decompile, nor create or attempt to create the source code from the object code of the Software in any manner. Reverse engineering of the Software and other SAP Materials is prohibited. Licensee is permitted to back up data in accordance with good information technology practice and for this purpose to create the necessary backup copies of the Software. Backup copies on transportable discs or other data media must be marked as backup copies and bear the same copyright and authorship notice as the original discs or other data media. Licensee must not change or remove SAP's copyright and authorship notices.

6.3 Modifications/Add-ons.

6.3.1 Conditioned on Licensee's compliance with the terms and conditions of this Agreement, Licensee may make Modifications and/or Add-ons to the Software in furtherance of its permitted Use under this Agreement, and shall be permitted to use Modifications and Add-ons with the Software in accordance with the License grant to the Software set forth in Section 2.1.1 herein. Licensee shall comply with SAP's registration procedure prior to making Modifications or Add-ons. All Modifications and all rights associated therewith shall be the exclusive property of SAP and SAP AG. All Add-ons developed by SAP (either independently or jointly with Licensee) and all rights associated therewith shall be the exclusive property of SAP and SAP AG. Licensee agrees to execute those documents reasonably necessary to secure SAP's rights in the foregoing. All Add-ons developed by or on behalf of Licensee without SAP's participation ("Licensee Add-on"), and all rights associated therewith, shall be the exclusive property of Licensee subject to SAP's rights in and to the Software; provided, Licensee shall not commercialize, market, distribute, license, sublicense, transfer, assign or otherwise alienate any such Licensee Add-ons. SAP retains the right to independently develop its own Modifications or Add-ons to the Software, and Licensee agrees not to take any action that would limit SAP's sale, assignment, licensing or use of its own Software or Modifications or Add-ons thereto.

6.3.2 Any Modification developed by or on behalf of Licensee without SAP's participation or Licensee Add-on must not (and subject to other limitations set forth herein): enable the bypassing or circumventing any of the restrictions set forth in this Agreement and/or provide Licensee with access to the Software to which Licensee is not directly licensed; nor permit mass data extraction from

Software to any non-SAP software, including use, modification saving or other processing of data in the non-SAP software; nor unreasonably impair, degrade or reduce the performance or security of the Software; nor render or provide any information concerning SAP software license terms, Software, or any other information related to SAP products.

6.3.3 Licensee covenants, on behalf of itself and its successors and assigns, not to assert against SAP or its affiliated companies, or their resellers, distributors, suppliers, commercial partners and customers, any rights in any Modifications developed by or on behalf of Licensee without SAP participation or Licensee Add-ons , or any other functionality of the SAP Software accessed by such Modification developed by or on behalf of Licensee without SAP participation or Licensee Add-on.

7. PERFORMANCE WARRANTY.

7.1 Warranty. SAP warrants that the Software will substantially conform to the specifications contained in the Documentation for six months following delivery. The warranty shall not apply: (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect is caused by a Modification or Add-on (other than a Modification or Add-on made by SAP and which is provided through SAP Support or under warranty), Licensee or third-party software. SAP does not warrant that the Software will operate uninterrupted or that it will be free from minor defects or errors that do not materially affect such performance, or that the applications contained in the Software are designed to meet all of Licensee's business requirements. Provided Licensee notifies SAP in writing with a specific description of the Software's nonconformance within the warranty period and SAP validates the existence of such nonconformance, SAP will, at its option: a) repair or replace the nonconforming Software, or b) refund the license fees paid for the applicable nonconforming Software in exchange for a return of such nonconforming Software. This is Licensee's sole and exclusive remedy under this warranty.

7.2 Express Disclaimer. SAP AND ITS LICENSORS DISCLAIM ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE EXCEPT TO THE EXTENT THAT ANY WARRANTIES IMPLIED BY LAW CANNOT BE VALIDLY WAIVED.

8. INDEMNIFICATION.

8.1 Infringement and Defense of Licensee. SAP shall defend Licensee against claims brought against Licensee in the Territory by any third party alleging that Licensee's Use of the Software, in accordance with the terms and conditions of this Agreement, constitutes a direct infringement or misappropriation of a patent claim(s), copyright or trade secret rights, and SAP will pay damages finally awarded against Licensee (or the amount of any settlement SAP enters into) with respect to such claims. This obligation of SAP shall not apply if the alleged infringement or misappropriation results from Use of the Software in conjunction with any other software, an apparatus other than a Designated Unit, failure to use an update promptly provided by SAP if such infringement or misappropriation could have been avoided by use of the update, or unlicensed activities. This obligation of SAP also shall not apply if Licensee fails to timely notify SAP in writing of any such claim. SAP is permitted to control fully the defense and any settlement of any such claim as long as such settlement shall not include a financial obligation on Licensee. In the event Licensee declines SAP's proffered defense, or otherwise fails to give full control of the defense to SAP's designated counsel, then Licensee waives SAP's obligations under this Section 8.1. Licensee shall cooperate fully in the defense of such claim and may appear, at its own expense, through counsel reasonably acceptable to SAP. SAP expressly reserves the right to cease such defense of any claim(s) in the event the Software is no longer alleged to infringe or misappropriate, or is held not to infringe or misappropriate, the third party's rights. SAP may settle or mitigate damages arising from any claim or potential claim, by substituting alternative substantially equivalent non-infringing programs and supporting documentation for the Software. Licensee shall not undertake any action in response to any infringement or misappropriation, or alleged infringement or misappropriation of the Software that is prejudicial to SAP's rights.

8.2 THE PROVISIONS OF THIS SECTION 8 STATE THE SOLE, EXCLUSIVE, AND ENTIRE LIABILITY OF SAP AND ITS LICENSORS TO LICENSEE, AND IS LICENSEE'S SOLE REMEDY, WITH RESPECT TO THE INFRINGEMENT OR MISAPPROPRIATION OF THIRD-PARTY INTELLECTUAL PROPERTY RIGHTS.

9. LIMITATIONS OF LIABILITY.

9.1 Not Responsible. SAP and its licensors will not be responsible under this Agreement (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect or liability is caused by Licensee, a Modification or Add-on (other than a Modification or Add-on made by SAP which is provided through SAP Support or under warranty), or third-party software. SAP AND ITS LICENSORS SHALL NOT BE LIABLE FOR ANY CLAIMS OR DAMAGES ARISING FROM INHERENTLY DANGEROUS USE OF THE SOFTWARE AND/OR THIRD-PARTY SOFTWARE LICENSED HEREUNDER.

9.2 Exclusion of Damages; Limitation of Liability. ANYTHING TO THE CONTRARY HEREIN NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF CONFIDENTIAL INFORMATION OR DEATH OR PERSONAL INJURY ARISING FROM EITHER PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, UNDER NO CIRCUMSTANCES AND REGARDLESS OF THE NATURE OF ANY CLAIM SHALL SAP, ITS LICENSORS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE PAID LICENSE FEES FOR THE SOFTWARE DIRECTLY CAUSING THE DAMAGES OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, ATTORNEYS' FEES, COURT COSTS, INTEREST OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of this Agreement allocate the risks between SAP and Licensee. The license fees reflect this allocation of risk and the limitations of liability herein.

10.1. Use of Confidential Information. Confidential Information shall not be reproduced in any form except as required to accomplish the intent of this Agreement. Any reproduction of any Confidential Information of the other shall remain the property of the disclosing party and shall contain any and all confidential or proprietary notices or legends which appear on the original. With respect to the Confidential Information of the other, each party : (a) shall take all Reasonable Steps (defined below) to keep all Confidential Information strictly confidential; and (b) shall not disclose any Confidential Information of the other to any person other than its bona fide individuals whose access is necessary to enable it to exercise its rights hereunder. As used herein "Reasonable Steps" means those steps the receiving party takes to protect its own similar proprietary and confidential information, which shall not be less than a reasonable standard of care. Confidential Information of either party disclosed prior to execution of this Agreement shall be subject to the protections afforded hereunder.

10.2 Exceptions. 10.3 Confidential Terms and Conditions; Publicity. Licensee shall not disclose the terms and conditions of this Agreement or the pricing contained therein to any third party. Neither party shall use the name of the other party in publicity, advertising, or similar activity, without the prior written consent of the other, except that Licensee agrees that SAP may use Licensee's name in customer listings or, at times mutually agreeable to the parties, as part of SAP's marketing efforts (including without limitation reference calls and stories, press testimonials, site visits, SAPPHIRE participation).

11. ASSIGNMENT. Licensee may not, without SAP's prior written consent, assign, delegate, pledge, or otherwise transfer this Agreement, or any of its rights or obligations under this Agreement, or the SAP Materials or SAP Confidential Information, to any party, whether voluntarily or by operation of law, including by way of sale of assets, merger or consolidation. SAP may assign this Agreement to any of its affiliates.

12. GENERAL PROVISIONS.

12.1 Severability. It is the intent of the parties that in case any one or more of the provisions contained in this Agreement shall be held to be invalid or unenforceable in any respect, such invalidity or unenforceability shall not affect the other provisions of this Agreement, and this Agreement shall be construed as if such invalid or unenforceable provision had never been contained herein.

12.2 No Waiver. If either party should waive any breach of any provision of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision hereof.

12.3 Counterparts. This Agreement may be signed in two counterparts, each of which shall be deemed an original and which shall together constitute one Agreement.

12.4 Regulatory Matters. The Software, Documentation and SAP Materials are subject to the export control laws of various countries, including without limit the laws of the United States and Germany. Licensee agrees that it will not submit the Software, Documentation or other SAP Materials to any government agency for licensing consideration or other regulatory approval without the prior written consent of SAP, and will not export the Software, Documentation and SAP Materials to countries, persons or entities prohibited by such laws. Licensee shall also be responsible for complying with all applicable governmental regulations of the country where Licensee is registered, and any foreign countries with respect to the use of the Software, Documentation or other SAP Materials by Licensee and/or its Affiliates.

The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement. The Uniform Computer Information Transactions Act as enacted shall not apply. Licensee must initiate a cause of action for any claim(s) arising out of or relating to this Agreement and its subject matter within one (1) year from the date when Licensee knew, or should have known after reasonable investigation, of the facts giving rise to the claim(s).

12.6 Notices. All notices or reports which are required or may be given pursuant to this Agreement shall be in writing and shall be deemed duly given when delivered to the respective executive offices of SAP and Licensee at the addresses first set forth in any Software Order Form. Where in this section 12.6 or elsewhere in this Agreement written form is required, that requirement can be met by facsimile transmission, exchange of letters or other written form.

12.7 Force Majeure. Any delay or nonperformance of any provision of this Agreement (other than for the payment of amounts due hereunder) caused by conditions beyond the reasonable control of the performing party shall not constitute a breach of this Agreement, and the time for performance of such provision, if any, shall be deemed to be extended for a period equal to the duration of the conditions preventing performance.

12.8 Entire Agreement. This Agreement constitutes the complete and exclusive statement of the agreement between SAP and Licensee, and all previous representations, discussions, and writings are merged in, and superseded by this Agreement and the parties disclaim any reliance on any such representations, discussions and writings. This Agreement may be modified only by a writing signed by both parties. This Agreement shall prevail over any additional, conflicting, or inconsistent terms and conditions which may appear on any purchase order or other document furnished by Licensee to SAP. This Agreement shall prevail over any additional, conflicting or inconsistent terms and conditions which may appear in any clickwrap end user agreement included in the Software. Signatures sent by electronic means (facsimile or scanned and sent via e-mail) shall be deemed original signatures. The other party shall use its reasonable discretion in accomplishing any such change.

3. Compensation of SAP. All Services will be provided by SAP on a time and expense basis at SAP's then current rates, unless otherwise agreed by the parties in a SOW.

4. Taxes. The fees listed in the applicable SOW do not include taxes. If SAP is required to pay sales, use, property, value-added or other taxes based on the Services provided under this Schedule, then such taxes shall be billed to and paid by Licensee. This section shall not apply to taxes based on SAP's income. Licensee also agrees to pay SAP for additional tax amounts if any, created by the taxability of Consultants reimbursed travel and living expenses resulting from long term assignments at Licensee's locations.

The provisions of the Schedule allocate the risks between SAP and Licensee. The License Fees reflect this allocation of risk and the limitations of liability herein.

8. Termination. The terms of this Schedule shall be effective as of the Effective Date of the Agreement and shall remain in effect until terminated by either party upon thirty (30) days prior written notice or otherwise in accordance with a particular SOW. Licensee shall be liable for payment to SAP for all Services provided prior to the effective date of any such termination, including any expenses incurred pursuant to the provision of such Services, in accord with the applicable SOW.

9. General Provisions.
   9.1 SAP may subcontract all or part of the Services to be performed to a qualified third party.
   9.2 With respect to the Services provided by SAP under this Schedule and any SOW hereto, the relationship of SAP and Licensee is that of an independent contractor.
   9.3 This Schedule, including any applicable SOWs, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements between the parties, whether written or oral, relating to the same subject matter. In the event of any inconsistencies between this Schedule and a SOW, the SOW shall take precedence over the Schedule. Any purchase order or other document issued by Licensee is for administrative convenience only.

Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 5.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

6. CONFIDENTIAL INFORMATION

6.1. CONFIDENTIALITY OBLIGATIONS. The recipient of Confidential Information shall: (i) at all times protect it from unauthorized disclosure with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use it except to the extent necessary to exercise rights or fulfill obligations under this Agreement. Each party shall limit the disclosure of the other party's Confidential Information to those of its employees and contractors with a need to access such Confidential Information for a party's exercise of its rights and obligations under this Agreement, provided that all such employees and contractors are subject to binding disclosure and use restrictions at least as protective as those set forth herein. Each party's obligations set forth in this Section 6 shall remain in effect during the term and three (3) years after termination of this Agreement. 6.3. EQUITABLE REMEDIES. The parties agree that the receiving party's disclosure of Confidential Information except as provided herein may result in irreparable injury for which a remedy in money damages may be inadequate. The parties further agree that in the event of such disclosure or threatened disclosure, the disclosing party may be entitled to seek an injunction to prevent the breach or threatened breach without the necessity of proving irreparable injury or the inadequacy of money damages, in addition to remedies otherwise available to the disclosing party at law or in equity.

UPGRADE POLICY

1. UPGRADES

"***Upgrades***" are ServiceNow's releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer's instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality as an Upgrade or as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer's instances of the Subscription Service.

2. NOTICE; MAINTENANCE DOWNTIME

ServiceNow shall use reasonable efforts to give Customer thirty (30) days prior notice of any Upgrade to the Subscription Service. ServiceNow shall use reasonable efforts to give Customer ten (10) days prior notice of any Upgrade to the cloud infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow in its reasonable judgment believes that the infrastructure Upgrade will impact Customer's use of its production instances of the Subscription Service. ServiceNow will use commercially reasonable efforts to limit the period of time during which the Subscription Service is unavailable due to the application of Upgrades to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of an Upgrade if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service.

3. NOMENCLATURE

A pending Upgrade may be a "Feature Release", "Patch" or "Hotfix." A "***Feature Release***" is an Upgrade that includes new features or enhancements. A "***Patch***" or a "***Hotfix***" is an Upgrade to a Feature Release that maintains the functionality of the Feature Release and does not include new functionality. ServiceNow refers to each Feature Release and its associated Patches and Hotfixes as a "***Release Family***." For example, ServiceNow's Feature Release "Aspen" established the "Aspen" Release Family, and ServiceNow's subsequent Feature Release "Berlin" established the "Berlin" Release Family.

4. PINNING REQUESTS

Customer may submit a support request for "no Upgrade" not fewer than five (5) business days' prior to a pending Upgrade of the Subscription Service. Subject to the terms and conditions of this Upgrade Policy, Customer's "no Upgrade" request shall be granted, and the Upgrade shall not be applied to Customer's instances of the Subscription Service.

5. SUPPORTED AND NON-SUPPORTED RELEASE FAMILIES

ServiceNow offers support for the then current Release Family and the prior two (2) Release Families ("***Supported Release Families***") as set forth in the Customer Support Policy. A Customer using a Supported Release Family may be required to Upgrade to a Patch or Hotfix within the Supported Release Family to correct a defect. At its discretion, ServiceNow may offer limited support for additional Release Families ("***Non-Supported Release Families***"). Without limiting ServiceNow's discretion to determine the availability of support for Non-Supported Release Families, a Customer using a Non-Supported Release Family may be required to Upgrade to a Supported Release Family to correct a defect. Any service level agreements, recovery time objectives or recovery point objectives are not applicable to Non-Supported Release Families. Details of ServiceNow support are further set forth in the Customer Support Policy.

Customer acknowledges that the current Release Family is the most current feature, availability, performance and security version of the Subscription Service. Within a Supported Release Family, the most recent Patch contains the most current feature, availability, performance and security version of the Subscription Service for that Release Family. A Customer that has submitted a "no Upgrade" request may experience defects, for which Customer hereby agrees that ServiceNow is not responsible, including without limitation those that affect the features, availability, performance and security of the Subscription Service, that are fixed in the most

current version of the Subscription Service.

6. REQUIRED UPGRADES

If Customer has requested "no Upgrade" it may nevertheless be required to Upgrade if in the reasonable judgment of ServiceNow the Upgrade is necessary to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service, as follows:

6.1. SUPPORTED RELEASE FAMILY. If Customer is using a Supported Release Family, it may be required to Upgrade to a Patch or Hotfix within the Supported Release Family.

6.2. NON-SUPPORTED RELEASE FAMILY. If Customer is using a Non-Supported Release Family, it may be required to Upgrade to a Supported Release Family.

7. EXCEPTIONS

Notwithstanding the other provisions of this Upgrade Policy, Customer may not submit a support request for "no Upgrade" for any Upgrade to, or that is essential for, the infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service.

This Data Security Guide describes the measures ServiceNow takes to protect Customer Data when it resides in the ServiceNow cloud. This Data Security Guide forms a part of any legal agreement into which this Data Security Guide is explicitly incorporated by reference (the "***Agreement***") and is subject to the terms and conditions of the Agreement. Capitalized terms that are not otherwise defined herein shall have the meaning given to them in the Agreement.

1. SECURITY PROGRAM

While providing the Subscription Service, ServiceNow shall maintain a written information security program of policies, procedures and controls ("***Security Program***") governing the processing, storage, transmission and security of Customer Data. The Security Program includes industry standard practices designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction. ServiceNow may periodically review and update the Security Program to address new and evolving security technologies, changes to industry standard practices, and changing security threats, provided that any such update does not materially reduce the commitments, protections or overall level of service provided to Customer as described herein.

2. CERTIFICATIONS AND ATTESTATIONS

2.1. Certifications and Attestations. ServiceNow shall establish and maintain sufficient controls to meet the objectives stated in ISO 27001 and SSAE 16 / SOC 1 and SOC 2 Type 2 (or equivalent standards) (collectively, the "***Standards***") for the information security management system supporting the Subscription Service. At least once per calendar year, ServiceNow shall perform an assessment against such Standards ("***Assessment***"). Upon Customer's written request, which shall be no more than once per calendar year, ServiceNow shall provide a summary of the Assessment(s) to Customer. Assessments shall be Confidential Information of ServiceNow.

2.2. Safe Harbor. ServiceNow shall maintain self-certified compliance under the U.S.-EU and U.S.-Swiss Safe Harbor Frameworks developed by the U.S. Department of Commerce regarding the collection, use and retention of Personal Data (defined in Section 6 below) from European Union member countries and Switzerland.

3. PHYSICAL, TECHNICAL AND ADMINISTRATIVE SECURITY MEASURES

The Security Program shall include the following physical, technical and administrative measures designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction:

3.1. Physical Security Measures

(a) Data Center Facilities: (i) Physical access restrictions and monitoring that may include a combination of any of the following: multi-zone security, man-traps, appropriate perimeter deterrents (for example,

DocuSign Envelope ID: 317CEF56-22BA-4C28-ACDA-40CA81E34FBF

fencing, berms, guarded gates), on-site guards, biometric controls, CCTV, and secure cages; and (ii) fire detection and fire suppression systems both localized and throughout the data center floor.

(b) Systems, Machines and Devices: (i) Physical protection mechanisms; and (ii) entry controls to limit physical access.

(c) Media: (i) Industry standard destruction of sensitive materials before disposition of media; (ii) secure safe for storing damaged hard disks prior to physical destruction; and (iii) physical destruction of all decommissioned hard disks storing Customer Data.

3.2. Technical Security Measures

(a) Access Administration. Access to the Subscription Service by ServiceNow employees and contractors is protected by authentication and authorization mechanisms. User authentication is required to gain access to production and sub-production systems. Access privileges are based on job requirements and are revoked upon termination of employment or consulting relationship. Production infrastructure includes appropriate user account and password controls (for example, the required use of virtual private network connections, complex passwords with expiration dates, and a two-factored authenticated connection) and is accessible for administration.

(b) Logging and Monitoring. The production infrastructure log activities are centrally collected and are secured in an effort to prevent tampering and are monitored for anomalies by a trained security team.

(c) Firewall System. An industry-standard firewall is installed and managed to protect ServiceNow systems by residing on the network to inspect all ingress connections routed to the ServiceNow environment.

(d) Vulnerability Management. ServiceNow conducts periodic independent security risk evaluations to identify critical information assets, assess threats to such assets, determine potential vulnerabilities, and provide for remediation. When software vulnerabilities are revealed and addressed by a vendor patch, ServiceNow will obtain the patch from the applicable vendor and apply it within an appropriate timeframe in accordance with ServiceNow's then current vulnerability management and security patch management standard operating procedure and only after such patch is tested and determined to be safe for installation in all production systems.

(e) Antivirus. ServiceNow updates anti-virus, anti-malware, and anti-spyware software on regular intervals and centrally logs events for effectiveness of such software.

(f) Change Control. ServiceNow ensures that changes to platform, applications and production infrastructure are evaluated to minimize risk and are implemented following ServiceNow's standard operating procedure.

3.3. Administrative Security Measures

(a) Data Center Inspections. ServiceNow performs routine reviews at each data center to ensure that it continues to maintain the security controls necessary to comply with the Security Program.

(b) Personnel Security. ServiceNow performs background and drug screening on all employees and all contractors who have access to Customer Data in accordance with ServiceNow's then current applicable standard operating procedure and subject to applicable law.

4. DATA PROTECTION AND SERVICE CONTINUITY

4.1. Data Centers; Data Backup. ServiceNow shall host Customer's instances in primary and secondary SSAE 16 Type II or ISO 27001 certified (or equivalent) data centers in the geographic regions specified on the Order Form for the Subscription Term. Each data center includes full redundancy (N+1) and fault tolerant infrastructure for electrical, cooling and network systems. The deployed servers are enterprise scale servers with redundant power to ensure maximum uptime and service availability. The production database servers are replicated in near real time to a mirrored data center in a different geographic region. Each customer instance is supported by a network configuration with multiple connections to the Internet. ServiceNow backs up all Customer Data in accordance with ServiceNow's standard operating procedure.

4.2. Personnel. In the event of an emergency that renders the customer support telephone system unavailable, all calls are routed to an answering service that will transfer to a ServiceNow telephone support representative, geographically located to ensure business continuity for support operations.

5. INCIDENT MANAGEMENT AND BREACH NOTIFICATION

5.1. Incident Monitoring and Management. ServiceNow shall monitor, analyze and respond to security incidents in a timely manner in accordance with ServiceNow's standard operating procedure. Depending on the nature of the incident, ServiceNow security group will escalate and engage response teams necessary to address an incident.

5.2. Breach Notification. Unless notification is delayed by the actions or demands of a law enforcement agency, ServiceNow shall report to Customer the unauthorized acquisition, access, use, disclosure or destruction of Customer Data (a "Breach") promptly following determination by ServiceNow that a Breach occurred. The initial report shall be made to Customer security contact(s) designated in ServiceNow's customer support portal. ServiceNow shall take reasonable measures to promptly mitigate the cause of the Breach and shall take reasonable corrective measures to prevent future Breaches. As information is collected or otherwise becomes available to ServiceNow and unless prohibited by law, ServiceNow shall provide information regarding the nature and consequences of the Breach that are reasonably requested to allow Customer to notify affected individuals, government agencies and/or credit bureaus. Customer is solely responsible for determining whether to notify impacted Data Subjects (defined in 6.1 below) and for providing such notice, and for determining if regulatory bodies or enforcement commissions applicable to Customer or Customer Data need to be notified of a Breach.

5.3. Customer Cooperation. Customer agrees to cooperate with ServiceNow in maintaining accurate contact information in the customer support portal and by providing any information that is reasonably requested to resolve any security incident, identify its root cause(s) and prevent a recurrence.

6. DATA PROCESSING GUIDELINES; COMPLIANCE WITH LAWS

6.1. Customer as Data Controller. Customer acknowledges that in relation to Personal Data supplied and/or processed under the Agreement it acts as Controller and it warrants that it will duly observe all of its obligations under all applicable laws and regulations of the European Union, the European Economic Area and their member states regarding the processing of Personal Data (collectively referred to as "Data Protection Laws") including, without limitation, obtaining and maintaining all necessary notifications and obtaining and maintaining all necessary Data Subject Consents. ServiceNow shall ensure that those employees to whom it grants access to such Personal Data are directed to keep such Personal Data confidential and are informed of any additional data protection obligations applicable to such Personal Data. ServiceNow shall, to the extent legally permitted, promptly notify Customer with respect to any request or communication ServiceNow receives from any regulatory authority in relation to any data processing activities ServiceNow conducts on behalf of Customer. In addition, ServiceNow will cooperate and assist Customer, at Customer's cost, in relation to any such request and to any response to any such communication. ServiceNow will pass on to the Customer any requests of a Data Subject to access, delete, correct, or block Personal Data processed under the Agreement. If ServiceNow is compelled by law to disclose Customer's information as part of a civil proceeding to which Customer is a party, and Customer is not contesting the disclosure, Customer will reimburse ServiceNow for its reasonable cost of compiling and providing secure access to that information.

6.3. Subcontractors. ServiceNow may engage subcontractors for processing Customer Data under the Agreement, provided ServiceNow shall ensure compliance by such subcontractor(s) with the requirements of this Section 6 by entering into written agreements with such subcontractors which provide that the subcontractor will apply the Safe Harbor principles to the processing of Personal Data. 7.2. By Customer. No more than once per calendar year Customer may request to perform, at its own expense, an application penetration test of its instances of the Subscription Service. Customer shall notify ServiceNow in advance of any test by submitting a request using ServiceNow's online support portal and completing a penetration testing agreement. ServiceNow and Customer must agree upon a mutually acceptable time for the test; and Customer shall not perform a penetration test without ServiceNow's express written authorization. The test must be of reasonable duration, and must not interfere with ServiceNow's day-to-day operations. Promptly upon completion of the penetration test, Customer shall provide ServiceNow with the test results including any detected vulnerability. Upon such notice, ServiceNow shall, consistent with industry standard practices, use all commercially reasonable efforts to promptly make any necessary changes to improve the security of the Subscription Service. Customer shall treat the test results as Confidential Information of ServiceNow.

8. SHARING THE SECURITY RESPONSIBILITY

8.1. Product Capabilities. The Subscription Service has the capabilities to: (i) authenticate users before access; (ii) encrypt passwords; (iii) allow users to manage passwords; and (iv) prevent access by users with an inactive account. Customer manages each user's access to and use of the Subscription Service by assigning to each user a credential and user type that controls the level of access to the Subscription Service.

8.2. Customer Responsibilities. ServiceNow provides the cloud environment that permits Customer to use and process Customer Data in the Subscription Service. The architecture in the Subscription Service includes, without limitation, column level encryption functionality and the access control list engine.
