I would rather see a student of this Science prove its Principle than to have them repeat all the words of wisdom that have ever been uttered.

Engage

This month, our speakers continue to explore the Seven Spiritual Laws of Success. Each Sunday, we find new dimensions of success and a deeper way to nurture the divinity within. This adventure leads to a deeper personal and community engagement with Spirit.

Some good news. We are set to schedule paving the first area of our parking lot. We have the necessary funds, \$9,700. Most of that came from outside our congregation. We will repave the worst of the area near the entrance to our hospitality room. We are waiting on our contractor's schedule.

As you may know, we joyfully welcomed Gary and Taryn Moore into membership last month. It is always a pleasure to welcome new members who are already participating in classes. Attending our classes is a great way to increase one's conscious engagement with life. You can have that opportunity when Cheryl Guess presents Beyond Limits. It starts on September 17.

We are deeply grateful for your generous tithes and donations in August. Your support is crucial to our ability to provide the tools to change people's lives. Importantly, our Center remains a place where people engage with the Spirit. You may not know that our ministers and practitioners meet before each Sunday service to pray for all our members. Also, each Sunday, we receive one to three individual requests, for which a practitioner prays throughout the week. You can schedule individual prayer sessions with our practitioners and ministers. I encourage you to take advantage of this sacred service.

I invite you to use September as a month to consciously reengage with Spirit as it manifests in you and in our community.

Love and Blessings Always,
Rev Maur

What's really happening when we heal?

Doctors and other health professionals know that when the body is injured and has the necessary elements, it heals itself. New cells grow to replace old ones; new parts of the brain take over the work of damaged parts; new blood vessels grow into newly formed tissue.

We've long known that medications can assist the healing process, but they often have other effects and few know how it works ...

Join Dr. Ruth L. Miller as she explores how people make the transition from feeling dis-eased or injured to feeling whole, well, and healthy.

Summer Garden Party

Your copy should address 3 key questions: Who am I writing for (audience)? Why should they care (benefit)? What do I want them to do (call-to-action)?

Create a great offer by adding words like "free," "personalized," "complimentary," or "customized." A sense of urgency often helps readers take action, so consider inserting phrases like "for a limited time only" or "only 7 remaining!"

If you missed the Sunday Celebration in person, catch it on Facebook, the webpage or utube.

Also, now you can receive up to date information and reminders by text. You will receive an invitation or perhaps you already have. Just opt in, it is that simple.
