## NWSA Cargo Volume Source: Internal Data

The Northwest Seaport Alliance handled 3.2 million twenty-foot equivalent units (TEUs) in 2025, down 5.5% from 2024's 3.3 million TEUs. Strong import shipments in anticipation of tariffs and uncertainty related to Canadian longshore and rail labor contract negotiations contributed to strong volumes in 2024.

## NWSA Bulk/Breakbulk Tonnage by Commodity Metric Tons

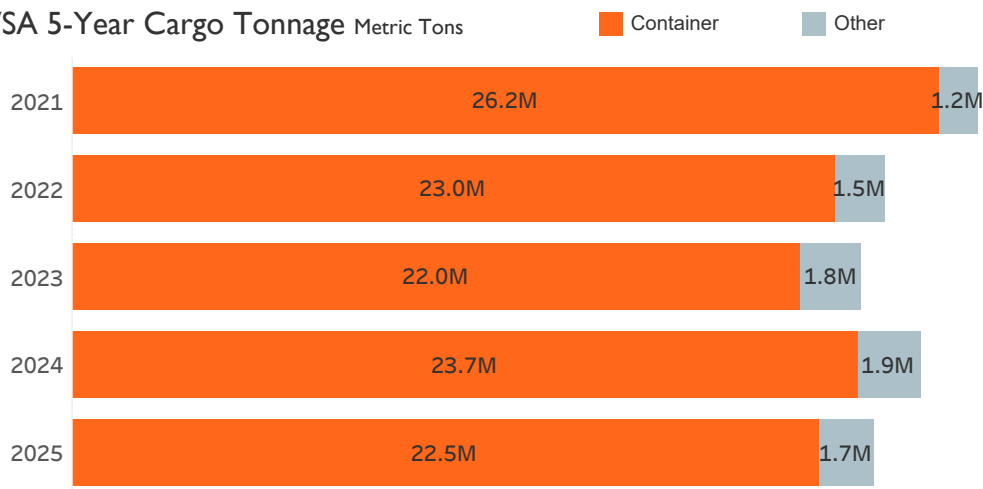

Auto units finished down 18.8% in 2025, as high interest rates and inflation muted car sales. Breakbulk metric tons were down 18.7%. High interest rates took a toll on agricultural, mining, and construction equipment sales.
